Are batteries included?

Inclusive supply scores of battery-powered products – Woody is just the latest. Batteries are always included. No more disappointments or trips to the corner shop!

What if I don't like the colour?

We are devoted to you getting the right product or program to help someone with a disability or special requirement. If, in your opinion, the product is not what you need, call us for a return number and FREEPOST address and ask for a refund or replacement. You have 100 days to do this! Product must be in a resalable condition.

Can I speak to a human being?

Call **01457 819790** and Carole or Liz will answer (no automated system here). They can direct your call to Jamie, Sandra, Roger or Andy in our Information Department; Carolyn, Samantha or Shelley in Sales; Adam and our Tech Support team or elsewhere in Inclusive. Need a catalogue or a quote? Give us a call.

What are these Symbols?

This symbol indicates software where at least some of the activities have switch access.

This symbol indicates software published by Inclusive Technology Ltd.

PRICE DROP!

I guess you got this one!

Are you ever beaten on price?

£ Price Match

No, not if you call us! We will match anyone's price.

What if I have a big order?

If you are spending more than £1,000 call us and we will try to make you smile.

"You clearly want software delivered online and accessed by tablet"

Meeting your needs for exciting software and cool but serviceable equipment brings different challenges each year. In 2013 you clearly want software delivered online and accessed by touch and tablet devices like the iPad.

HelpKidzLearn (HKL) has been a huge success. Over half a million of you accessed HKL in 2012. Altogether in twelve months we had 1.4 million visits from our customers in 180 countries. Whole school boards have joined from most American States. As I write, 35 Special Schools from Missouri are joining. Welcome!

iPad users access HelpKidzLearn activities as Apps which you have bought in tens of thousands. Thank you! We are expanding our range of HKL Apps to include the ChooseIt! Maker series which is a very popular choice in our CD based software. See **pages 4 to 7**.

We are addressing every aspect of iPad use: charging them, amplifying the sound, switch access, synchronising your classroom set and making them bounce! You have bought Big Grips in thousands and we now have Big Grips for iPad Mini and iPod Touch too on **page 9**.

We have been working with German engineers Rehadapt to provide a really reliable mounting system for the iPad and pretty much everything else you might need to mount on a tray, wheelchair or table. It's called Bamboo and you will find it on **pages 12 and 13**.

Eye gaze technology has taken off – but at a price. We have been working hard on bringing costs down. You will be pleased with the sharp price reductions on **pages 16 and 17**.

Windows 8 is making touch access mainstream. You will find a great Windows 8 tablet and an all-in-one Profile Touch PC on **pages 18 and 19**. Interactive floor projection systems have been popular too. Check out the Magic Carpet system on **page 22** – you can stamp in puddles or kick leaves!

You asked us to expand the range of switch adapted toys available. We have been as far as China to find them. Woody is one of the latest. Find him and his friends on **pages 95 to 98**.

If you want to learn more and see these things for yourself our teachers, speech therapists and technicians visit every part of the UK every year. Find the next Information Day near you on **page 129**.

Best wishes,

Martin Littler

Who are your information team?

The teachers' therapists and technicians from Inclusive Technology's Information Team have extensive experience in using technology to support learners with special needs in a variety of settings. More importantly, they constantly keep up-to-date with developments in the field, drawing on this experience and knowledge in the development of our support services. They are on hand to provide advice, support and training and can offer a wealth of experience and ideas.

Email information@inclusive.co.uk or call 01457 819790 to contact them.

Can I shop on your website?

Yes, and you can watch videos, review products and see what others have written. You can access your order history and keep your details safe. You can even buy in Euros or US Dollars as well as British Pounds.

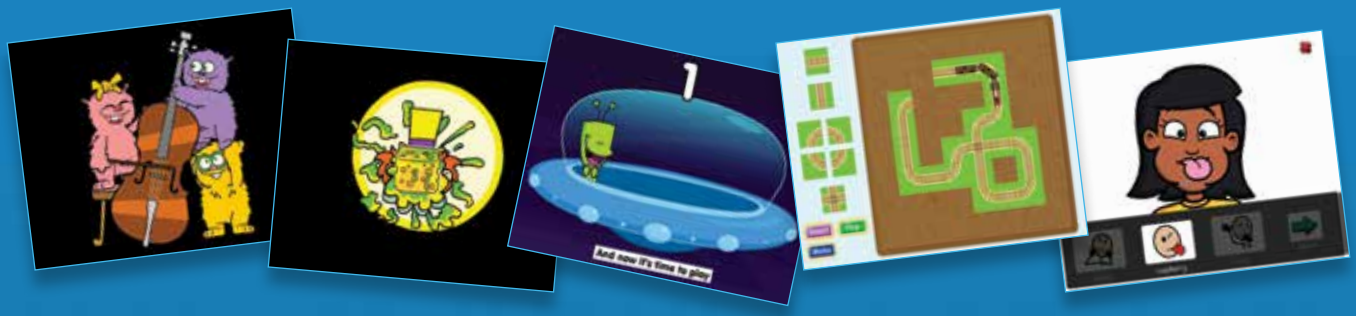
- *Access using a switch(es), touch screen, mouse, joystick, rollerball, or an eye gaze communication solution.*
- *iPad and Android Apps.*

Inclusive Technology Ltd - Riverside Court - Huddersfield Road - Delph - Oldham - OL3 5FZ

HelpKidzLearn

Accessible games and accessories

HelpKidzLearn is divided into categories to help you choose the right activities for your students. Each category contains dozens of colourful activities that make learning engaging, fun and motivating.



Early Years
A great selection of early learning activities including beautifully animated early cause and effect programs designed for both touch screen and early switch users.

Games
This section is by far the most popular on HelpKidzLearn. Learners can expect endless hours of fun and enjoyment from games such as Aunty Maggie's Recipe and Splat the Clowns.

Stories
Stories and songs will engage your learners and be lots of fun. Activities such as Counting Songs encourages learners to count from 1 to 5 with a catchy song and a pond full of sharks!

Creative
Have fun creating sandcastles, birthday cards, music and works of art, and make your own train track with Train Tracker, the most popular activity on HelpKidzLearn!

Find Out
Find out is an exploratory section for games and activities. Explore expressions, characters and the sounds they make, the keyboard, numbers, time and other concepts.

HelpKidzLearn EasySwitch

NEW

A NEW, easy to use switch interface and wireless switch bundle from HelpKidzLearn.

The NEW HelpKidzLearn EasySwitch is ideal for use with HelpKidzLearn's accessible games and activities, and with Inclusive Technology's switch operated software.

The HelpKidzLearn EasySwitch is easy to use and has no software to install. Simply connect the EasySwitch dongle to a USB port on your computer and you are ready to play switch accessible games and activities such as Splat the Clowns, Five Little Aliens and many more.

For a very small cost, the HelpKidzLearn EasySwitch offers a plug and play option for your learners without the hassle of wires.

6315	HelpKidzLearn EasySwitch	£99

The HelpKidzLearn EasySwitch allows switch presses to send space and enter, allowing you to operate all the activities in HelpKidzLearn and Inclusive software. Contact **info@helpkidzlearn.com** for more details.

Big Grips Frame and Stand for iPad, Tweener for iPad Mini and Buddy for iPod Touch.

The Big Grips, Tweener and Buddy are lightweight, durable, easy to clean, easy to grab, comfortable to hold and very gripable! Made from a soft, squishy foam. An iPad/iPod Touch fits snugly into the frame. That means fewer slips, drops and tumbles - and plenty of cushion just in case. A matching stand is available allowing you to easily work at a desk or position your iPad or iPod Touch at a variety of angles.

Big Grips for iPad

NEW

Tweener for iPad Mini

NEW

Buddy for iPod Touch

Big Grips for iPad, iPad Mini and the iPod Touch.

- Offers easy access to all ports and controls.
- Unobstructed cameras.
- The frame and stands are non-toxic, lead and latex-free, phthalate and PVC free.
- Durable and lightweight.
- Easy to clean.

		Frame	Stand	Frame & Stand
n/a	Big Grips for iPad	£24	£15	£37
n/a	Tweener for iPad Mini	£20	£15	£33
n/a	Buddy for iPod Touch	£15		

The following colours are available:

Blue	Blue	Blue
Purple	Orange	Red
Grey	Red	
Pink		

Please specify colour and if the case is for the iPad, Tweener for iPad Mini or Buddy for iPad Touch when ordering. iPad, iPad Mini and iPod Touch are not included.

Big Grips Hipster

Please note the Hipster requires a Big Grips iPad frame.

Big Grips Hipster, travel more and worry less with the incredibly versatile carry bag for Big Grips Frame. Easy access to the iPad, use of front and rear-facing cameras, lots of pockets for accessories and stuff, a shoulder strap (of course!), a rubber base for grip and a double-flap Velcro® handle for easily attaching Big Grips Hipster to things like car headrests.

NEW

6327	Big Grips Hipster	£39

GoNow iPad Case

For the iPad 2 and 3rd Generation iPad – carry, protect and enhance the sound of your iPad.

NEW

The silver ergonomically designed GoNow Case has a sleek built-in handle making it easier to carry your iPad. The solid plastic casing keeps your iPad safe from most bumps and knocks. The design of the case increases the audio clarity and volume of the iPad using no electronics, therefore it doesn't require charging. GoNow simply channels and redirects the sound of the iPad to the front of the case. Offering easy access to all iPad features including charging, lock/unlock, volume, power and headphone jack.

6292	GoNow iPad Case	£65

---

iAdapter for the iPad and iPad Mini

Protect your iPad and iPad Mini with the iAdapter! This innovative housing is complete with rubberised corners and handle to help protect your iPad from damage.

Dual amplified speakers with high/low volume switch

Handy carry handle

Fully rubberised housing protects on impact

Protected slide cover to hide the home button when needed

A small slide cover on the front of the housing hides the home button from roaming fingers that may close running applications. The iAdapter is also an amplifier, with dual speakers that deliver clean, crisp sound that can be heard in the noisiest setting. It comes with a rechargeable lithium polymer battery, shoulder strap for portability and a plastic stand for tabletop use.

- Threaded inserts on the back for a wheelchair mounting plate.
- Shoulder strap for portability.

PRICE DROP!

- USB charging port.
- Rechargeable lithium polymer battery (for the amplifier only) – 10 hours run time.
- USB charger and cable (for the iAdapter internal battery only).
- Stereo headset jack.
- Plastic tabletop stand.

Sorry, iPad not included.

6031	iAdapter for iPad 2 & 3 Black	£195
6032	iAdapter for iPad 2 & 3 Grey	£195

iAdapter for the iPad Mini available Feb. Call for prices.

Please note: although we can provide a 12 month warranty on the iAdapter and GoNow iPad case, we are unfortunately unable to guarantee the safety of your iPad.

Inclusive iPad Mounting Solutions

A comprehensive range of mounting solutions to make the iPad easily mountable and accessible.

Inclusive iPad Mounts

We have put together five standard kits suitable for mounting all iPads. For further mounting options please see ***Bamboo****, our new smart mounting solutions range on* ***pages 12 and 13****.*

Table Top Suction Mount for iPad

This product provides a strong and stable mounting for your iPad 1 or 2, in either portrait or landscape orientation. The cradle securely holds the iPad steady whilst it's in use and still provides access to all controls and jacks. iPad not included.

5684	Table Top Suction Mount	£69

Table Mount

The special ball joints allow a wide range of easy adjustment of angle and choice of landscape or portrait mode. The base has screw fixing holes to allow it to be firmly mounted if needed. iPad not included.

5712	Table Mount for iPad/iPad 2	£79

Holder with Clamp

With a wide range of adjustment, the mounting clamp can be fastened onto a round bar or table edge. iPad not included.

5713	Holder with Clamp for iPad/iPad 2	£79

iPad Holder with Variable Friction Arm

Now with improved iPad holder.

The iPad holder with the Variable Friction Arm is our most popular iPad mounting solution.
The VFA arm gives a wide range of adjustments and reach – even upside down. The new iPad holder can be easily positioned portrait or landscape. The clamp can be mounted onto round bars or table edges. iPad not included.

5715	Holder with VFA for iPad/iPad 2	£169

iPad holder with Gooseneck

Now with improved iPad holder.

The flexible Gooseneck arm is great for positioning the iPad. It comes with a clamp that can fit round bars or a table edge. The new iPad holder can be easily positioned portrait or landscape. iPad not included.

5714	Gooseneck for iPad/iPad 2	£135

Bamboo is the smart new mounting solution from Inclusive Technology!

Bamboo is a new versatile mounting system that can be customised to meet individual needs and environments. You can simply choose one of our pre-configured solutions; we have put together three options to demonstrate the possibilities. Or alternatively you can build your own personal mounting solution using our unique new service which allows you to build your own specific solution virtually.

NEW bamboo SMART MOUNTING SOLUTIONS by REHΔdapt Engineering

Bespoke mounting solutions - made easy!

1. Tell us what device you would like to mount, we offer a range of holders for Communication Devices, iPads, Tablets, Smart Phones and iPhones.

2. Tell us the length and number of tubes you require and type of joint – quick release or Allen Key.

3. Tell us what you would like to mount your device safely to, a table or a particular type of wheelchair making it accessible to your own requirements.

Bamboo iPad Single

Best for mounting your device close to you on a table or wheelchair: contains an iPad holder, one 250mm tube, joints and a super clamp.
Note: iPad not included.

6342	Bamboo iPad Single	£149

Bamboo iPad Double

Double tube solution: contains an iPad holder, 2 x 250mm tubes, joints and a super clamp.
Note: iPad not included.

6343	Bamboo iPad Double	£199

Bamboo iPad Triple

Triple tube solution: contains an iPad holder, 2 x 250mm tubes, a 150mm tube, joints and a super clamp.
Note: iPad not included.

6344	Bamboo iPad Triple	£259

These three pre-configured solutions can be easily changed to your requirements, simply call and tell us the device you would like to mount and what you would like to mount it to on ***01457 819790*** *and we will do the rest, or please use the Virtual Mounting Service free of charge for a custom made solution.*

Virtual Mounting Service FREE of charge!

We have put together three standard pre-configured options for you to choose from, they are flexible and fully adjustable.

If you would like to customise your own mounting solution you can use own new virtual mounting solution service! Follow our step by step guide for creating your very own Bamboo system!

1. Visit our virtual environment **www.rehadapt.de/vms.php** and complete the short online questionnaire.
2. Upload at least five pictures of your environment i.e. your wheelchair or table, including the close up of where you would like the Bamboo solution to be mounted.
3. Tell us which device you would like to mount i.e. Communication Devices, iPads, Tablet, Smartphones or iPhones.
4. Let us know your preferred joint type i.e. quick release or Allen Key.
5. Within five working days we will email you details of your own bespoke Bamboo mounting solution superimposed onto your image with a detailed list of the parts required and your own specific reference number.
6. If you are happy with your solution, simply telephone our Sales Team to place an order against the reference number provided.

Should you require any further information or wish to discuss your mounting solution further you can telephone our Information Team on ***01457 819790****.*

IPAD ACCESSORIES

Tablet devices such as the iPad are increasingly being used for communication, learning and leisure. If you use access methods other than touch, such as switches or a joystick, you can now access all the great switch adapted Apps, play your music and even navigate around your device. Inclusive Technology offers a comprehensive range of bluetooth interfaces to meet a variety of needs.

Switch4Apps for iPad

Main functions
- Switch access to switch adapted Apps and HelpKidzLearn Apps.
- Switch access to music.

Designed for
- Those who require simple switch access within Apps and simple access to the media player.

Features
- Easy to use default settings support all switch adapted Apps.
- QuickMedia button takes you straight into controlling your music without changing switch settings. For example, press one switch to play and pause music, press another switch to skip tracks.
- Timed play setting - plays music for 10 or 30 seconds each switch press. Great for developing understanding, control and access skills.
- Also includes a comprehensive range of programmable functions.

Works with
- iPad 1/iPad 2/new iPad.
- iPod Touch 3rd and 4th Generations.
- iPhone 3GS and 4.
- Bluetooth.
- One to four 3.5mm wired switches.
- Charges via USB.

5978	Switch4Apps	£129

Switch2Scan for iPad

Main functions
- Switch access to the home screen.
- Switch access to switch adapted Apps and HelpKidzLearn Apps.
- Switch access to iBooks.

Designed for
- Advanced switch users who wish to use the main features of Apple devices and access iBooks.

Features
- Icons or items on the home screen and within most main Apps are scanned with a highlight box. Automatic scanning with one, two or three switches. Step scanning with four switches. Four scanning speeds. Full access to iBooks requires four switches.
- QuickAccess mode gives you switch access to switch adapted Apps once you have navigated to them (requires physical pressing of button on interface).

Works with
- iPad 1/iPad 2/new iPad.
- iPod Touch 3rd and 4th Generations.
- iPhone 3GS and 4.
- Bluetooth and Voiceover accessibility feature.
- One to four 3.5mm wired switches.
- Charges via USB.

6030	Switch2Scan	£139

Simply Works for iPad

Main functions
- Wireless switch access (it-Switch) for home screen, switch adapted Apps, music and HelpKidzLearn Apps.
- Wireless joystick access (it-Stick) for home screen and on-screen keyboard.
- Wireless keyboard access (it-Keys).

Designed for
- Those requiring wireless alternative access to Apple devices. For advanced users, the icons or items on the home screen and within most main Apps are scanned with a highlight box.

Features
- Icons or items on the home screen and within most main Apps are scanned with a highlight box.
- Step scanning with four switches or it-Stick.

Works with
- iPad 1/iPad 2/new iPad.
- iPod Touch 3rd and 4th Generations.
- iPhone 3GS and 4.
- Bluetooth and Voiceover accessibility feature.
- It-Switch (new version), it-Keys, it-Stick, it-Send, it-Send Pro and Smooth Talker (supports up to six transmitters).
- Charges via USB.

6081	Simply Works	£149

See page 6 for switch accessible HelpKidzLearn Apps!

Blue2 Bluetooth Switch

Our new Blue2 dual switch provides access to compatible iPhone, iPad and iPod Touch applications via bluetooth wireless technology. Simply sync the switch with your favourite Apple® device and activate the application's switch scanning mode to begin using the App hands free. Blue2 supports both single and dual switch access through direct access using the two built-in switches, or plug your favourite switches into the available ports to fit your individual needs. A great product for computer access, Blue2 also ships with a USB bluetooth dongle. Note: the Blue2 is compatible with iPad, iPod Touch (3rd and 4th generation) and iPhone (3GS and 4). 2 x AA batteries (included).

5683	Blue2 Bluetooth Switch	£119

Hook iPod Switch Access

PRICE DROP!

Hook provides simple to advanced control of your music playlist with an auditory menu of functions you can control with your switch.

- Simple out of the box control of iPod music library.
- Single or dual switch access.
- Speaker output to headphones, portable speakers or home entertainment centre.
- Configurable volume limits for hearing safety.
- Power from Apple device or use the charger (included).

5960	Hook iPod Switch Access	£99

Switchamajig Controller - *control your world with an iPad!*

NEW

Control TV sets, CD players and DVD players from your iPad with fully functioned or simplified control layouts on your iPad screen.

The Switchamajig is a programmable learning infra-red control unit controlled through your wireless network from an iPad using the free Switchamajig App. Use the readymade control layouts on your iPad to control televisions, CD players, in fact anything that uses an infra-red remote.

- The App comes with a whole selection of ready-made layouts, but these can be easily edited to create your own control panels or you can design new ones from scratch.
- The Switchamajig can learn the commands from your remote controls and also has a built-in library of commands for many common devices.
- Switch access is supported using single or two switch step scan. An iPad switch interface is needed (see page14 for further information on a range of suitable interfaces).
- Create as many panels as you need, from simple on/off or channel change buttons to a fully featured remote.
- Set up panels with coloured buttons or add icons or pictures and auditory prompts for easy use.
- Button size and layout can be altered to meet individual access requirements.
- The Switchamajig is mains operated and is easy to set up from a PC or Mac to use your WiFi network to link to your iPad.

6329	Switchamajig Controller	£329

Eye gaze technology – control any PC with your eyes!

For many people who have difficulty using a computer, as an alternative method for controlling a PC, the standalone Tobii PCEye provides easy to use, portable and accurate eye control.

PRICE DROP!

VESA mount included

Tobii PCEye unit

Please note: the monitor is not included with the Tobii PCEye but can be purchased separately.

Tobii PCEye – the most affordable way of introducing eye gaze technology to the classroom!

The Tobii PCEye makes eye control easier than ever before. By combining full eye control technology with a standalone, clip on, plug and play design, users can now have full access and control of their personal computers by using only their eyes. Just hook up the Tobii PCEye and begin using all of the Microsoft Windows programs and functions that you are used to.

Accurate, reliable and easy to use

The Tobii PCEye accurately tracks your eyes and instantly converts movements to a cursor on your computer screen. Without being disrupted by different individual eye conditions, uncontrollable head movements or light settings, the Tobii PCEye will accurately track every eye movement you make.

After installation of the necessary software, mount and plug in the device, complete the configuration guide and a one second long calibration process, and start using eye control. Your settings and calibration will be saved and will rarely, if ever, have to be repeated for the same user.

The Tobii PCEye also allows for multiple user settings, making it great for situations where there is more than one user, such as in a classroom.

The Tobii eye tracking advantage

Accurate and precise eye tracking – advanced algorithms for both bright and dark pupil tracking, the use of high resolution cameras etc.

Superior accuracy during head movement – use of two cameras and advanced algorithms to maintain uninterrupted tracking without losing accuracy.

Large track box – allows for the user to move significantly in front of the computer without interrupting the on-going eye tracking.

Unparalleled, near universal tracking – rough data indicates that the best Tobii eye trackers robustly, accurately and automatically track 95% of people and conditions.

Better computer performance – the Tobii PCEye's unique built-in processor allows your computer to operate at its normal speed during an eye gaze session.

Total portability

For those wanting a device that can easily be transported and used with different computers in many environments, the Tobii PCEye is the perfect choice. It is lightweight, small enough to bring with you in the carry bag supplied, and detaches from computer screens with a free VESA mount thanks to a smart magnetic mounting bracket system. It is easy to move between home, work or school if needed.

Tobii Eye Gaze Software Selection included as standard. Additional software options include Tobii Communicator Premium, Sono Key and Sono Primo.
Please see **www.inclusive.co.uk** for full details.

Tobii PCEye Package Options

5160	PCEye inc. Tobii Gaze Selection	£2,995
5161	PCEye inc. TGS, Comm Prem & Sono Key	£3,450
5162	PCEye inc. TGS, Comm Prem & Sono Primo	£3,450

Tobii PCEye Accessories

5163	PCEye Extra Mounting Bracket	£210
5164	PCEye Extra Power Supply	£170
5175	18.5" LCD Monitor Widescreen	£89

For full Tobii PCEye specifications, further information and demonstration videos visit ***www.inclusive.co.uk***
To book a demonstration email ***tobii@inclusive.co.uk***
or telephone ***01457 819790.***

See page 129 for details of our Eye Gaze Focus Days

Sensory Eye-FX – the perfect partner for your Tobii PCEye!

Sensory Eye-FX is a package of thirty software applications designed for the earliest level of eye gaze computer access. The software is divided into five levels of exploration. These levels function as a training tool to teach early/sensory eye gaze users the skills and methods of eye gaze.

Sensory Eye-FX has been developed specifically with eye control in mind. It is designed to develop early cause and effect skills through fun and stimulating activities. These activities are designed to be used without the need for a calibration. Users can develop their screen engagement, tracking, targeting, selecting and creative skills with activities such as splat painting, making patterns and on-screen musical instruments.

Sensory Eye-FX Levels

Level 1: Blank Screen Engagement

Blank screen engagement activities allow learners to explore cause and effect - when they look something happens, when they look away it stops. This concept is fundamental to learning eye gaze and needs to be explored in some detail.

Level 2: Object Displacement

Object displacement activities introduce some of the methods of eye gaze such as dwell functions and basic targeting. Here learners may begin to gain greater awareness as to how their gaze proximity activates a response from content in a certain area of the screen.

NEW

Level 3: Zoned Focusing

Zoned focusing - an ability to target specific areas of the screen is an important step in learning to control the mouse cursor. Now we want learners to be able to begin to fix their gaze in order to achieve a greater level of control and accuracy. At this point we are developing skills necessary to achieve a successful calibration.

Level 4: Active Exploration

It is important that learners are motivated to engage with the screen. Active exploration activities encourage learners to engage with the wider area of the screen and have fun using their eyes.

Level 5: Controlled Targeting

Controlled targeting activities can help learners achieve greater control, a higher degree of accuracy and a more detailed understanding of the dwell function.

Touch Screen Monitors

Ideal for touch screen software and much more.

22" iiyama Touch Monitor

NEW

A very affordable touch monitor from iiyama. The 22" screen makes it a great solution where screen size is important, good for small groups as well as individual pupils.

With high definition and fast touch response including multi-touch it gives the quick and accurate response needed for pupils with special needs. This monitor has a great new feature, when the screen is touched the mouse pointer disappears, taking away a big distraction for many pupils who find the pointer a distraction. Plug and play (Windows 7) makes it easy to set up – no driver to install, very useful when you need to use it with different computers.

6206	iiyama ProLite Touch Monitor	£220

ELO LCD Touch Monitors

PRICE DROP!

NEW

The ELO LCD touch monitors are available in three sizes: 15", 17" and the new 19" model. The flat panel comes with a removable tilt base with a VESA mounting option.

The LCDs use ELO's Accutouch Technology which has been designed to be robust and reliable, so ideal for classroom use. Impervious to liquid spills and splashes, humidity and wash down, these screens are the most contamination resistant available. Drift free operation for a lifetime of 35 million finger touches.

6211	15" LCD Touch Monitor	£345

2324	19" LCD Touch Monitor	£475

Widescreen LCD Touch Monitor

PRICE DROP!

NEW

Rugged, reliable and resistant to water, dust and grease these new widescreen monitors from ELO are the perfect replacement for bulky outdated CRT monitors.

Each comes with a height adjustable tilting stand to ensure perfect positioning for those in wheelchairs or specialised seating. Easy to use tools allow you to lock out the display buttons to minimise 'fiddling'. Featuring ELO's tried and tested, highly responsive Accutouch Technology guaranteeing complete accuracy with minimum setup or calibration. With built-in speakers delivering high quality sound to match the outstanding picture quality.

6213	22" Widescreen LCD Touch Monitor	£439

*Note: There is a delivery charge of **£17** per monitor.*

ELO Touch Monitors are covered by a 3 year return to manufacturer warranty, provided and administered by ELO.
Please note that this product has a 28 days returns policy.

Mobile Magic Carpet

The Mobile Magic Carpet Interactive Floor System is a fantastic learning tool with the capacity to engage people of all ages and abilities! The Mobile Magic Carpet projects games, activities and images onto a projection mat on the floor that users can then interact with, simply by moving on or over the projected image. It can then be used in a range of educational settings and can easily be customised to suit individual needs and requirements.

NEW

Key features and benefits

- Content Suite with over twenty activities.
- Customisable to suit requirements.
- Requires only minimal movement.
- Encourages exploration and fun.
- Eye control interface option.
- Can be activated by light.
- Multi user recognition.

Content Suite with over twenty activities

The Mobile Magic Carpet includes over twenty interactive activities supplied as standard including Football, Fish Pond, Poppys, Smiley Faces, Rocket, Star Scatter, Fog, Paint, Goalie, Piano, Animals, Bubbles, Rotating Tiles, Magic Mushrooms, Catch Game and many more. Teachers can easily customise the activities by adding images, sounds and videos to suit individual learners.

Portable and easy to move

The Mobile Magic Carpet is a portable interactive floor system that projects down from above. This feature alone makes the system hugely more inclusive than similar products, as it means that users can access the system whilst sat in a wheelchair (projects onto trays), in a standing frame, laying on the floor with a projection sheet above them or projecting on to a table, floor or any other horizontal surface.

Accessible and fully adjustable

Supports a range of access methods: trackball mouse, touch (Inclusive Interactive Plasma and LCD screens), eyes (Tobii PCEye) or movement (Magic Carpet motion recognition). Users can even take turns across all platforms with this system in the same session! The angle and height can be fully adjusted to suit.

Eye Control Interface

The Mobile Magic Carpet can be controlled with the eyes using the Tobii PCEye. The combination of these technologies opens up a new world of social interaction for eye gaze users (please note Tobii PCEye is not included).

6281	Mobile Magic Carpet	£6,995

Inclusive Interactive Solutions

Inclusive Technology now offers a new range of Plasma and LCD interactive solutions ideal for all classrooms and budgets. New to the range of large interactive touch screens are low cost LCD touch screens, with prices starting from ***£2,550!***

Inclusive Technology's expanding range of interactive touch screens can help you create a truly Inclusive classroom. They have been designed to help overcome the barriers to accessibility presented by projector based whiteboards to provide an accessible, adaptable and affordable solution to help cater for all users.

Accessibility

The provision of a really accessible solution is not only about the improvement in physical access provided by height and tilt adjustment, our plasma and LCD screens provide a higher quality steady and evenly backlit image, making them a much better experience for users with visual and perceptual difficulties.

- A wide range of powered height adjustment can be achieved by simply pressing a button.
- Tilting options give a choice of angle from vertical to horizontal for improved accessibility – use as a traditional display or as an interactive table.
- The Tilt and Touch plasma screen can be tilted forwards offering enhanced accessibility for users in wheelchairs or even lying on the floor.
- Excellent viewing angle, up to 178 degrees, for all the class and no overlay to degrade the image.
- By not having a projector, any risk posed by having a bright light source is avoided.
- No projector means there is no shadow in any position and at any height.
- No obstruction near the screen, such as a projector arm.
- The superior performance and flexibility of plasma and LCD screens gives better results in ambient light – a well lit classroom is better for all pupils.

Adaptability

Our mobile trolleys give you maximum adaptability to allow for shared use or to help you to create a really flexible learning environment that is not constrained by the positioning of a display. The built-in PC option in some models makes for ease of mobility and means you are ready to go anywhere you choose. Further flexibility can be provided by using Inclusive Technology's Simply Works wireless access technology with an interactive display.

- Mobility for shared use and ease of storage - trolleys fit through a standard doorway.
- Mobility allows you to set up areas for group or individual use.
- Trolley solution means that the classroom layout remains flexible and is easily changed to meet pupil's needs.
- Can be "out of sight and out of mind" – a great help if some of your students are obsessed by technology.
- Wall mounted installations are ideal where space is at a premium and leave you with a clear floor space.
- A wide choice of screen sizes to suit your users accessibility needs and room size.

Affordability

This is both a short term and long term issue for most of us. Whilst projector interactive solutions may have lower initial costs, the need to replace lamps and clean projector filters will, in the long term, make them a more expensive and time consuming proposition. The flexibility of our trolley based screens means that there will be no cost incurred in rearranging classroom layouts.

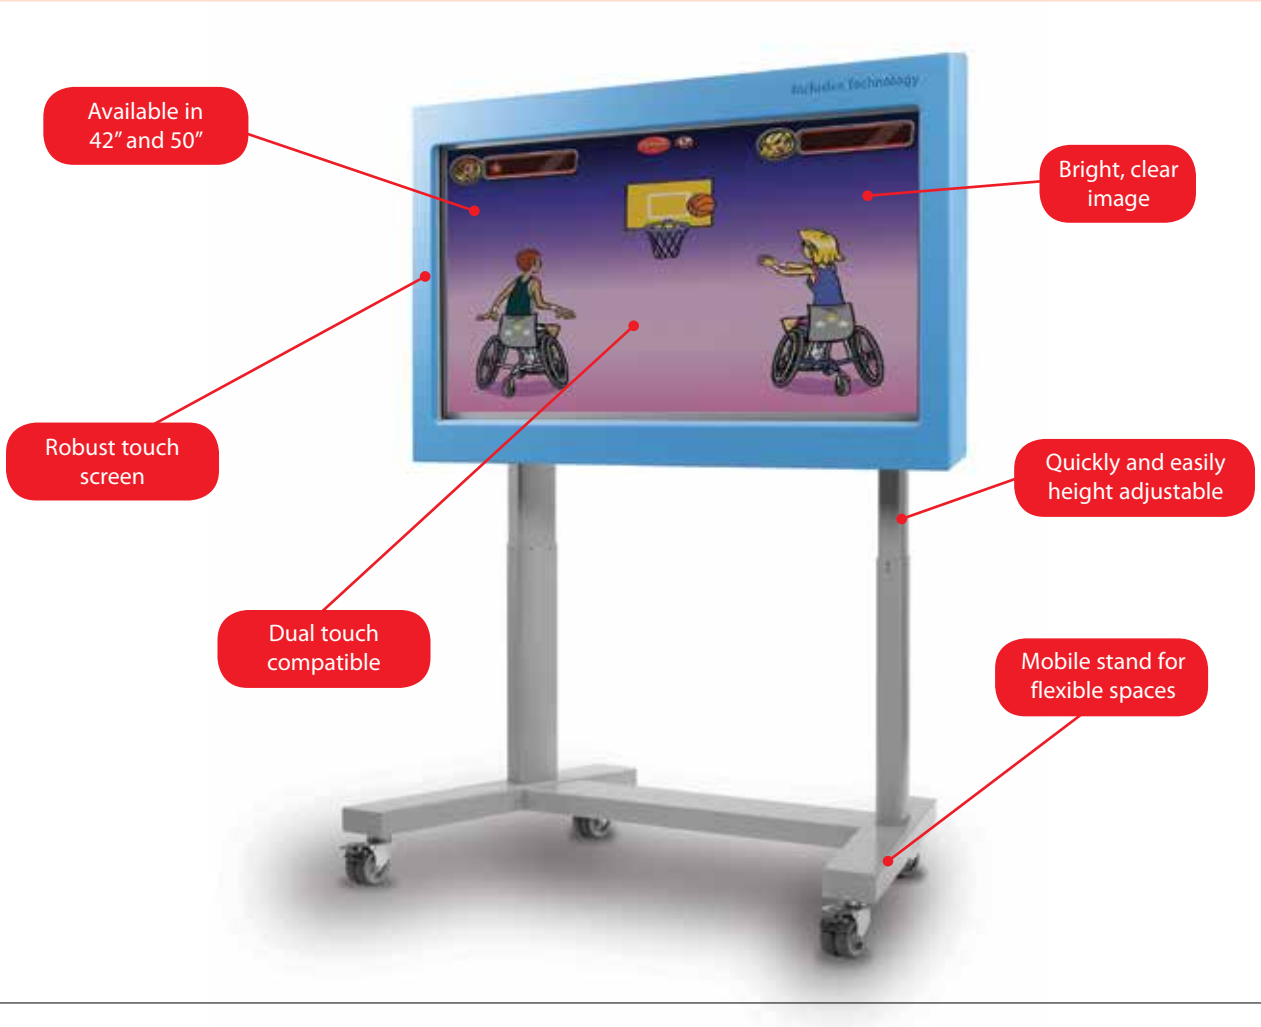
- Plasma and LCD screens have a long life and no costly lamps to replace.
- Mobility makes it easier to make effective use of resources.

Please call **01457 819790** today for a demonstration of any of the Inclusive Interactive Plasma/LCD products.

All of our solutions form an ideal focus for individual learning, group teaching and training, whilst meeting DDA requirements.

Inclusive Interactive Plasma Screen

The Inclusive Interactive Plasma Screen solution is built around the professional range of screens from Panasonic. Panasonic plasmas offer a tough display with a 100,000 hour screen life that will see you through the coming years. The interactive displays can be supplied on a height adjustable trolley or wall mount.



Available in 42" and 50"
Bright, clear image
Robust touch screen
Quickly and easily height adjustable
Dual touch compatible
Mobile stand for flexible spaces

Truly professional Panasonic displays

Touch display – the front of the plasma is covered by a glass panel that provides a strong resistance to impacts. It is easy to clean - simply wipe with a smooth cloth when needed.

100,000 hour screen life – the Panasonic plasmas have a screen life of up to 100,000 hours. That's an amazing 42 years of normal viewing (6.5 hours per day) or 11.5 years of continuous use (24 hours per day).

High contrast ratio – for remarkable images in nearly any viewing environment.

Smooth, crisp motion images – movement is reproduced with the high resolution needed to deliver its full impact. The Inclusive Interactive Plasma Screen has quick and easy, powered height adjustment. It can quickly be adjusted to suit tall teachers, toddlers or wheelchair users, and to support individual use or whole class teaching. You do not need to re-calibrate the screen each time.

Features

- Available in 42" and 50".
- Laptop shelf neatly folds to rear.
- Additional power socket on trolley for laptop.
- Windows plug and play.
- Apple OS compatible.
- Impact resistant front glass panel.
- 1024 x 768 HD resolution.
- PC, HDMI, DVI-D and component connections.

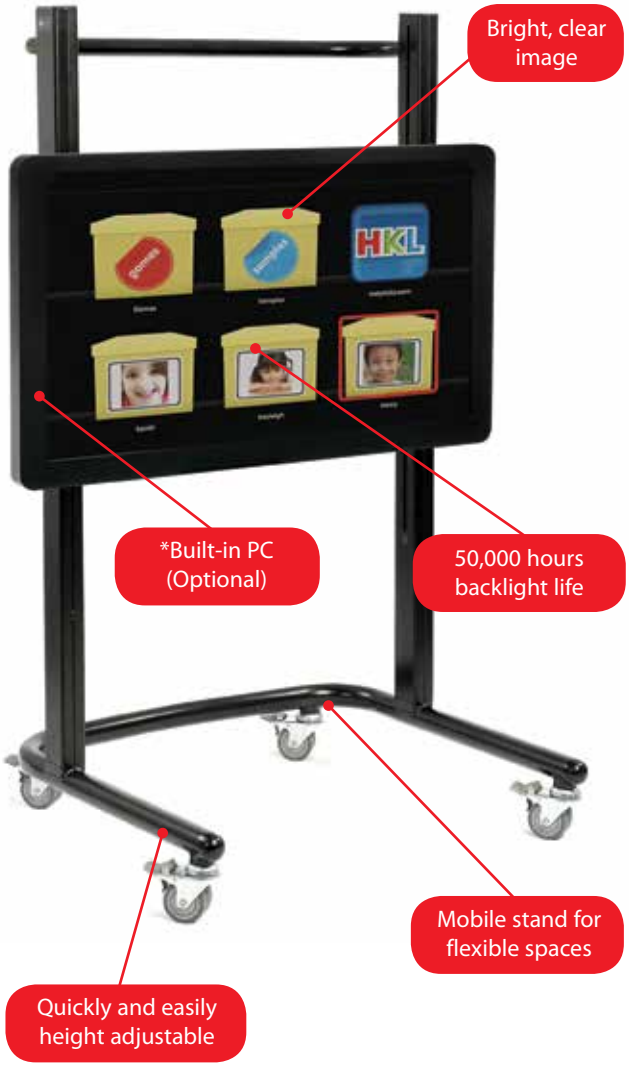
Height Adjustable Wall Lift

We can supply your plasma with a height adjustable wall mount. It has electronically driven height adjustment. Please contact us on **01457 819790** for further information. Delivery and installation (per unit, mainland UK) - £100.

5709	42" Inclusive Interactive Plasma Screen	£2,995
5710	50" Inclusive Interactive Plasma Screen	£3,995

Inclusive Interactive LCD Screen

The Inclusive Interactive LCD Screen solution offers great value and a range of screen sizes to meet the needs of your classroom as well as your budget. Screen sizes start from the common 42" screen to a huge 70" option. The solution now includes a built-in PC, as well as a height adjustable trolley, so it can be used as a shared resource across the school.



Bright, clear image
*Built-in PC (Optional)
50,000 hours backlight life
Mobile stand for flexible spaces
Quickly and easily height adjustable

Features

- Available in 42", 55", 60", 65" and 70".
- *Built-in PC optional (see **www.inclusive.co.uk** for specification).
- Anti-glare, anti-scratch surface.
- Rear laptop shelf (please note this is now behind the unit and no longer side mounted).
- Windows plug and play and Apple OS compatible.
- 50,000 hours backlight life.
- 42" and above - full HD (1920p x 1080p) resolution.
- PC in and out, HDMI and DVI-D connections.

Height Adjustable Wall Lift

We can supply your LCD with a height adjustable wall mount. It has electronically driven height adjustment and the screen can be started from floor level. It has a space saving shallow profile and clear access under the screen. Please contact us on **01457 819790** for further information. Delivery and installation (per unit, mainland UK) - £100.

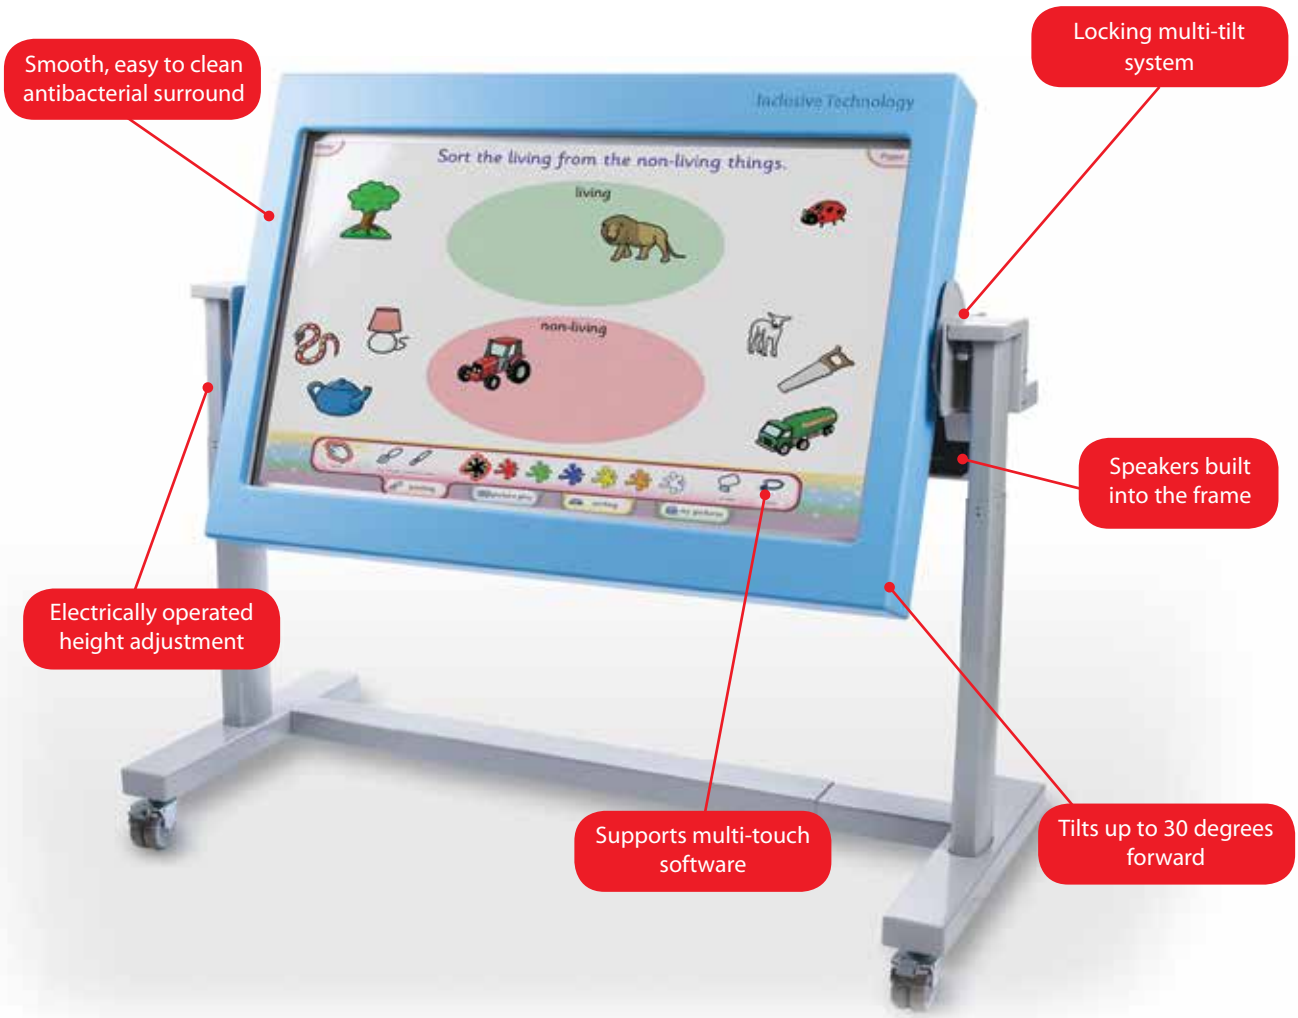
Inclusive Tilt and Touch Plasma

The ultimate in flexibility and accessibility. The Inclusive Tilt and Touch Plasma adjusts for height and adjusts for angle. It combines all the benefits of a height adjustable interactive plasma, with a fully featured touch table.

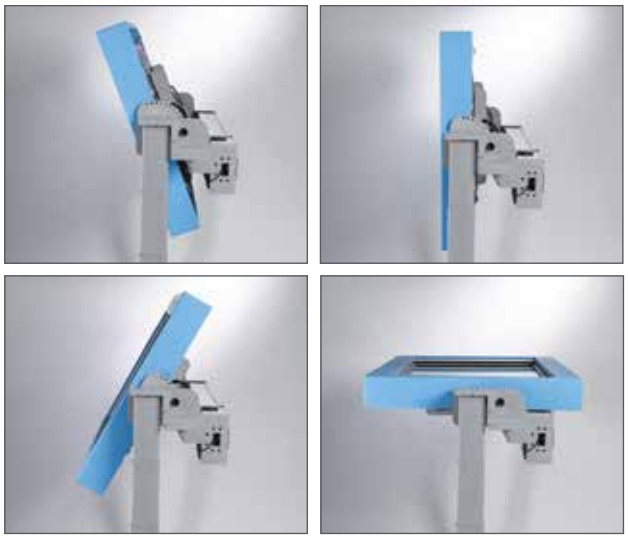


Smooth, easy to clean antibacterial surround
Locking multi-tilt system
Speakers built into the frame
Electrically operated height adjustment
Supports multi-touch software
Tilts up to 30 degrees forward
Sort the living from the non-living things.
living
non-living

Features

- Currently available with 42" and 50" Panasonic Interactive Plasma Screens.
- Remote controlled, powered height adjustment.
- Simple manual locking angle adjustment with smooth movement.
- Supports multi-touch software.
- Easy to change the position when in use.
- No distracting shadows.
- Suits toddlers, wheelchair users and tall teachers.
- Bright, clear image - no need to darken the room.
- Very rarely needs calibration.
- Wide viewing angle and no hotspot - good for visually impaired users.
- No projector - no risk from staring into a high powered lamp.
- Quiet - no cooling fan to distract the hearing impaired.
- Low lifetime cost - no consumable items like projector lamps.
- Uses less power than a digital projector.
- Low maintenance - no filters to clean.
- Three year on-site warranty.

Locking Multi-Tilt System



The Tilt and Touch provides a choice of screen angles.

The electronically operated height adjustment and tilt mechanism makes it easy to accommodate all users. The unique open base means there is room to sit comfortably when using it as a touch table and there is space for wheelchair users to get close.

The locking multi-tilt system gives a wide choice of screen angles - it tilts up to 30 degrees forward for easier reach, or in steps right back until it becomes a flat touch table.

Removable Laptop Shelf

The Tilt and Touch Plasma also comes with a laptop shelf which may be removed if preferred.

When the plasma is a table top, it measures 730mm in the lowest position and 1400mm in the highest.

Pricing for the Inclusive Tilt and Touch Plasma with Height Adjustable Stand:

4493	42" HD Tilt and Touch Plasma Screen	£3,995
4494	50" HD Tilt and Touch Plasma Screen	£4,995
5191	42" T & T Plasma / Built-in PC 4GB/320GB	£4,995
5192	50" T & T Plasma / Built-in PC 4GB/320GB	£5,995

*Delivery, installation and demonstration (per unit, mainland UK) - **£100.***

Purchasing information

Simply select your screen size then contact our friendly team on **01457 819790**. Your screen will be delivered, fully installed with your laptop and a 15 to 20 minute demonstration provided to get you started.

A new generation of Access Technology

For the first time you can have switches, joysticks, rollerballs and toy control devices that simply work together and without wires. The Simply Works system is a family of wireless receivers and associated access devices (for the technically minded, they use RF technology).

Just connect the it-Receive to your computer and you are ready to use an it-Roll rollerball, it-Stick joystick or control your switch software using the it-Switch. Each connects wirelessly - no wires from your devices to the computer. With a range of 10m (32 feet) these can work from anywhere in the classroom - ideal for including everyone in an interactive lesson. Up to six separate input devices can be used at any one time using a single receiver.

The Simply Works range includes:

WIRELESS

Use up to six devices in any combination with a single it-Receive receiver.

With it-Send or it-Send Pro you can use your own switches with Simply Works.

it-Roll and it-Stick work easily and wirelessly with it-Receive.

To know more about Simply Works visit ***www.inclusive.co.uk/simplyworks*** *and view the demonstration video*

Simply Works Switch Access

it-Receive

it-Receive is the heart of the Simply Works family of computer access products.

A receiver and computer interface in one - just plug one it-Receive into your computer (USB connection) and you can use up to six Simply Works devices (in any combination).

- Can be paired with up to six Simply Works transmitter units.
- No restriction to the mix of units that can be paired up.
- 10 metre (32') operating range - anyone can join in.

4404	it-Receive	£39

it-Send & it-Send Pro

it-Send Pro

it-Send

You can input one switch into the it-Send and up to six switches into the it-Send Pro. Plug any switch with a 3.5mm jack into the it-Send and it-Send Pro and use it with Simply Works. 10 metre (32') operating range. 2 x AAA batteries (included).

4413	it-Send	£59
4414	it-Send Pro	£69

it-Switch

WIRELESS

A new wireless switch with a unique low slanted profile. Gives good tactile feedback with no protruding base and can be operated with the slightest movement.

You can pair this switch to the following:

it-Receive - for computer access. Choose from a full range of options, e.g. Spacebar, F7 and F8 keys or left mouse click, quickly and easily with the LED menu on the switch.

Smooth Talker - for 2 switch message options (see page 102).

it-Click-On Plus - for mains device operation (see page 100).

it-Control - for battery operated toy control (see page 33).

- Large 125mm operating area.
- Choice of red, blue, green or yellow.
- 10 metre (32') operating range.
- Can be mounted using Big Switch Mounting Plate.
- 2 x AAA batteries (included).

Please specify size and colour when ordering.
Available in red, yellow, green or blue.
Avaible in two sizes:
it-Switch Large - operating area 125mm.
it-Switch Small - operating area 75mm.

n/a	it-Switch Large	£55
n/a	it-Switch Small	£55

Simply Works Alternative Keyboards/Mice

it-Keys

A tough wireless keyboard which is child friendly with large keys and lowercase letters. The simple layout and colour coding makes it easy to find the keys. A clear plastic keyguard is also available, which clips firmly into place and is easily removed.

4861	it-Keys	£99
4862	it-Keys Keyguard	£49

it-Roll

- A wireless rollerball ideal for those with motor skills difficulties.
- With an operating range in excess of 10 metres, it-Roll is ideal for use with groups to ensure that everyone can join in.
- Provides a natural hand rest.
- Left/right and drag lock buttons.
- 9V battery (included).

4412	it-Roll	£119

it-Stick

- A wireless joystick ideal for those with motor skills difficulties.
- Operating range exceeding 10 metres.
- Responds to the lightest touch.
- Ideal for use in group sessions or classroom settings.
- The joystick allows for precise tracking and cursor control.
- Left/right and drag lock buttons.
- 9V battery (included).

4415	it-Stick	£199

Simply Works Starter Packs

Simply Works Starter Packs are the ideal way to begin building your Simply Works kit for a classroom which can include all learners! They also offer an easy way to purchase a wireless rollerball, joystick, keyboard or wireless switch. Once you purchase one of the Starter Packs, you have your it-Receive and can then simply purchase up to five more devices which will simply work with the same it-Receive. Watch out for more Simply Works devices coming soon!

*Wireless Switch

4459	Large it-Switch & it-Receive Starter Pack	£85

Wireless Keyboard

4863	it-Keys & it-Receive Starter Pack	£129

it-Switch is available in four colours - red, yellow, green or blue and in two sizes - Large 125mm and Small 75mm. Please specify colour and size. See* ***page 31* *for more details.*

Simply Works Toy Controllers

it-Control Lite

- Simply plug the it-Control Lite into a switch adapted device (battery, toy, electrical appliance or IntelliKeys) and operate it with the it-Switch or your own switches using the it-Send.
- Universal 3.5mm output jack.
- Measures just 90mm x 65mm x 20mm.
- 2 x AAA batteries (included).

4416	it-Control Lite	£49

it-Control

A compact controller and receiver, small enough to fasten on to an adapted toy or other battery device, and connected using the cable supplied. It can then be paired with an it-Switch to give wireless operation. Give your battery toys the freedom to roam!
This single channel wireless toy controller and timer supports direct, latched, timed seconds and timed minutes modes. The duration in timed modes can be selected using LEDs.

- Small and lightweight to allow it to be connected to a toy (you could use our Hook and Loop fasteners).
- Universal 3.5mm output jack for connection to any battery operated, switch adapted toy (cable supplied).
- Can be paired up to an it-Switch to allow interactive and cooperative games to be devised.
- Use it with your own switches using one of the wireless it-Send interfaces.
- Measures just 90mm x 65mm x 20mm.
- 2 x AAA batteries (included).

4417	it-Control	£65

it-Control Pro

A two channel toy controller and receiver. Can be controlled by up to three wireless it-Switches per channel. In addition to the same latching and timing options as the it-Control, it has two cooperative modes - press your switches at the same time to switch on the toy, or press one switch for on and the other for off. it-Control Pro can also be used with your existing wired switches and comes with two standard leads to connect to your toys etc.

- A two channel toy controller and timer.
- Can be used wired or wirelessly, or a combination of both.
- Supports direct, latched, timed seconds, timed minutes and two cooperative modes.
- The on duration in timed modes can be selected using LEDs.
- Universal 3.5mm output jack for connection to any battery operated, switch adapted toy.
- Each channel can be paired with up to three switch units to allow interactive games to be devised.
- Use it wirelessly with your own switches using one of the it-Send interfaces.
- 2 x AA batteries (included).

4418	it-Control Pro	£119

it-Control Starter Packs

it-Control Lite & it-Switch Pack

it-Control & it-Switch Pack

it-Control Pro & it-Switch Pack

4557	it-Control Lite & Large it-Switch Pack	£89
4560	it-Control & Large it-Switch Pack	£109
4563	it-Control Pro & Large it-Switch Pack	£159

it-Switch is available in four colours - red, yellow, green or blue and in two sizes - Large 125mm and Small 75mm. Please specify colour and size. See ***page 31*** *for more details.*

TARGET & TOUCH SERIES

The Target and Touch series has been developed to help develop the hand/eye coordination skills needed for successful interaction with touch screen technology, now becoming widely used in tablet devices as well as touch screen computers and interactive boards. Touch and touch and release options allow you to tailor the response to meet individual needs, and to help the user to learn to press and release their touch to watch the result. They offer a carefully structured set of activities, ranging from cause and effect through to targeting multiple objects, and are designed to support the development of the visual skills of locating, fixing and tracking. By being able to choose sizes and positions for the targets, we can help the user learn to explore the whole screen to locate objects and then give them exciting and stimulating auditory and visual rewards when they touch them. They are also a useful assessment tool to help identify and assess visual preferences, such as size and position for the targets. These programs can also be mouse operated as they have a menu option for mouse pointer on or off. Touch screen activities can also offer a more direct cause and effect relationship than using switches for learners with severe cognitive difficulties.

Target and Touch: Patterns

A range of activities with different styles of animated patterns and music rewards - the bright colours contrasting with a black background make them ideal for users with visual difficulties, such as Cerebral visual impairment. The different styles and movements of the patterns have been carefully chosen to provide a wide range of different visual experiences to encourage users to look at the screen.

- Touch anywhere with a choice of patterns and colourful grids – great for cause and effect.
- Touch It and Find and Touch It encourage looking and targeting.
- Peeping targets introduces a fun timing element – catch them before they disappear.
- Scattered targets need a series of presses before giving a reward.
- Objects in a Line helps to encourage left to right tracking.

For information, videos and reviews visit
www.inclusive.co.uk/targetandtouch

Target and Touch: Music

Touch screen training activities with a cast of twenty musicians, from classical to fantasy, with a great selection of music. It offers lots of opportunities for language development and listening skills. Bright characters on a dark background really stand out, making this program ideal for people with visual and perceptual difficulties. This program introduces some additional touch activities, making it a good progression from *Target and Touch: Patterns,* including an introduction to dragging.

- Touch anywhere to see who is playing this time.
- Touch It and Find It includes a wrapped up instrument - guess what it is before opening the bag to hear it play.
- Silhouette of the musicians - guess who it is and open the curtains to see if you are right.
- Peeping musicians – catch them to get a performance.
- Scattered musicians need a series of presses before giving a reward.
- Objects in a Line helps to encourage left to right tracking.
- Touch To Jump and Drag To Target – the musician will not play until they are under the spotlight.

3518	Windows CD-Rom	£59
3519	5 user copy	£109
3520	Site licence	£169

Touch Cats

- Playful, lifelike, interactive cats.
- Independent play.
- Touch, switch(es) or mouse.
- Five action packed scenes - house, alleyway and garden.
- A journey of discovery.
- Drag the cat and it walks with you.
- Hit a switch and the cat explores on its own.
- Language, storytelling, adventure, fun and enchantment.

For full details and demonstration videos please see **www.inclusive.co.uk**

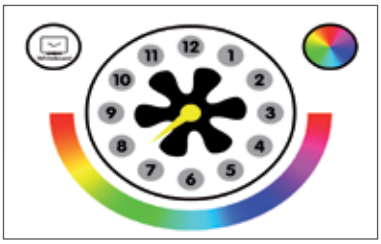
Touch Balloons

Great fun on the touch monitor or Inclusive Interactive Plasma Screen. Also use a switch, mouse or alternative pointing device. Alter the colour, speed and number of balloons; choose bold or pastel colours to develop visual skills. You can even change the background - add your own pictures.

0736	Windows CD-Rom	£35
0739	Additional user licence	£12

ReacTickles 2

- Inspired by real world objects that children love to manipulate such as Slinkies, lava lamps, spinning tops and coins, *ReacTickles* provides an engaging, accessible computer environment for spontaneous imaginative play and learning. Even the most anxious autistic individuals can relax and communicate.
- *ReacTickles Creativity Box* resources are structured to provide an easy to use, flexible guide to integrating the software into the curriculum in a manner that is rewarding and fun. Teacher and pupil resources can now be accessed directly from within the application.
- *ReacTickles* are highly motivating and have been shown to help children develop concentration and attention skills, as well as encouraging sharing and imaginative play.
- Reactive colours encourages those with autistic spectrum differences and learning disabilities to use the computer. It helps them develop mouse, keyboard, programming and screen skills. Fully switch enabled.



- Use with an interactive whiteboard, microphone, mouse or keyboard.

3419	Win/Mac CD-Rom	£49
4067	Site licence	£199

Touch Screen Bundle

This great value software collection helps teach touch skills at all levels. Software is supplied as single user copies.

Big Bang

Provides engaging activities at a very early 'whole hand' cause and effect level. See page 36.

Target and Touch: Patterns

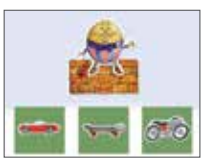
Targeting activities using simple, vivid, high contrast patterns, shapes and music. See page 34.

Touch Balloons

Simple, progressive targeting activities. Touch the balloons to pop them. See above.

Target and Touch: Music

This program is ideal for people with visual and perceptual difficulties. See page 34.



Choose and Tell: Nursery Rhymes

Simple decision making activities that support emergent literacy skills. See page 46.

4752	Windows CD-Rom	£249

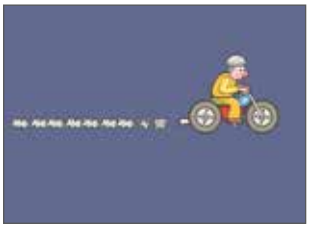
When purchasing with a touch monitor, touch screen bundle Win/Mac CD-Rom ***£225****.*

Programs in the Big Bang series have been designed to provide early experiential and cause and effect activities ideal for those with severe and complex difficulties. Big Bang Patterns and Big Bang Pictures provide material in a choice of two colours, including black and white for maximum visual effect along with attention grabbing music. The original Big Bang has a varied selection of bright multi-coloured activities with a range of music and sound effects. These programs are an ideal tool to help develop early interaction, with switch and touch screen access.

Big Bang

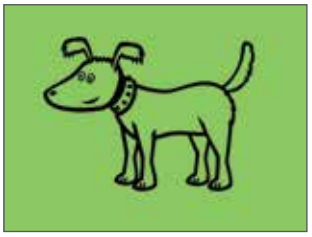
With their bright colours and great music and sounds, *Big Bang's* four activities are ideal for the early stages of developing an awareness of cause and effect.

- Picture building with only three presses to get a bright noisy reward to fill the screen.
- Movements - this activity has been designed to offer a choice of eye tracking activities with full control over direction and speed of the reward.
- Actions - nineteen eye catching activities needing only a single switch press to give a great animated reward.
- Colours - press the switch to change the colour of a screen full of bubbles.



1331	Windows CD-Rom	£59
1332	5 user copy	£109
3145	Site licence	£169

Big Bang Pictures



Twenty animated pictures available in three levels of complexity, with a choice of colour options, designed in consultation with teachers of the visually impaired. The picture resources supplied on the CD offer lots of opportunities to develop off computer activities to supplement the activities on-screen. Options allow for single and two switch operation to allow the user to choose images.

- Experiential, cause and effect, build, two switch play and two switch choice modes.
- Choice of images - simple line art, silhouette or complex.
- Use your own music choice.
- Two colour choices, including black and white and random combinations.

3621	Windows CD-Rom	£59
3622	5 user copy	£109
3623	Site licence	£169

Big Bang Patterns

Over sixty animations in a choice of two colour combinations, including black and white to give maximum visual interest. Switch and touch screen operation and an experiential mode where the animations play automatically.

- Experiential, single press and switch build modes.
- Use built-in music or your own MP3 files for reward.
- Choice of five animation styles, from gentle to hard hitting or random.
- Printable record keeping sheets supplied on the CD-Rom.

3624	Windows CD-Rom	£59
3625	5 user copy	£109
3626	Site licence	£169

Switch Skills Series

Our extensive Switch Skills series provide lots of fun and motivational activities for practicing using one or two switches. Each title contains an array of games presented in progressive skill steps designed to meet a wide range of needs and interests.

Switch Skills 1

This collection of easy switch timing activities is fun for all ages. The exciting themes provide all the motivation needed to help students who understand cause and effect to develop more disciplined switch use. It also encourages speaking and listening and helps develop concentration skills. The bright, clear graphics are suitable for those with visual impairment and there is lots of sound and music too. Activities include racing cars, gorilla and fruit, soccer shoot, traffic lights, catch the crocodiles and sunflower. Press when you see a car to make it race, or when the bee reaches the middle of the flower. The Monster House activity provides an introduction to switch scanning. Feedback and teacher options are provided.

1586	Windows CD-Rom	£59
1587	5 user copy	£109
3224	Site licence (Windows only)	£169

Switch Skills 2

Twenty activities at an elementary level. Press your switch or the touch screen when a big, bright object appears and see an animated reward. Exciting music promotes interest. Higher level activities require more visual discrimination, although most can still be played successfully by those with severe visual impairment. Configurable options allow you to meet individual needs or develop learners' skills in small steps. Four activities provide opportunities for creative and experimental play by early switch users, e.g. the spray can zigzags over a wall and sprays paint when you press the switch. Topics range widely and should appeal to a wide range of ages. Try out Gopher in a Drainpipe and Mystery Egg at **www.helpkidzlearn.com**

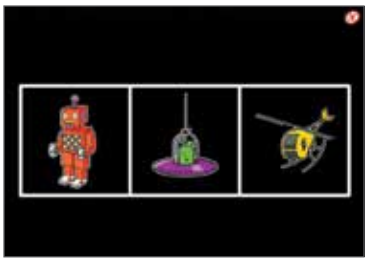
4284	Windows CD-Rom	£59
4285	5 user copy	£109
4286	Site licence (Windows only)	£169

Switch Skills 3

Fifteen activities at a higher level than *Switch Skills 2*, split into four sections. The first section features six activities with a large target, for example Splat the Clowns - watch a clown move across the screen and throw a custard pie at him when he reaches the middle. Other games of a similar nature have themes appropriate for older learners. The next section has four activities which are more demanding, with smaller targets in different places on the screen. For example, Lighting Fireworks. A set of music activities allows learners to experiment with sound whilst learning to choose using a switch. There are three exciting video games, such as Jungle Adventure.

4287	Windows CD-Rom	£59
4288	5 user copy	£109
4289	Site licence (Windows only)	£169

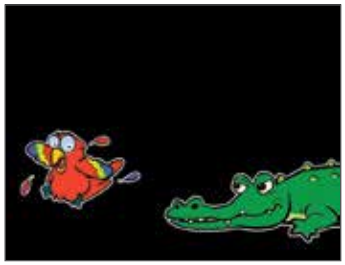
Switch Skills - Scanning



Switch Skills - Scanning is a new set of twenty two simple and motivating switch activities. It is designed for students who are learning how to use switches to make choices, either within software or scanning communication devices. The activities can be used with one or two switches. The activities are split into five sections, with increasing levels of skill and complexity in very small steps. These begin with free choice activities that allow experimental play. More demanding tasks with specific targets are then introduced. The CD features a wide range of themes including music groups, rockets, a funfair, trains, farm and Treasure Island, and is part of our popular *Switch Skills* series.

4829	Windows CD-Rom	£59
4830	5 user copy	£109
4831	Site licence (Windows only)	£169

Switch Skills for Two Set 1



This CD contains sixteen activities in carefully graded sections. It provides an accessible environment to encourage the learner to move beyond the stage of cause and effect. Thinking, experimenting, observing and interacting are encouraged by providing simple activities that delight and engage. For example, in the Two Objects section, choose to press the left switch (or Spacebar) to make the ballerina dance beautifully, or the right switch to let the monster do his crazy dance. Or in Interacting Objects, choose to control a frying pan to try to hit the gopher. There are spacemen to jump into rockets and blast off, basketball players to help shoot baskets, a crocodile to be woken up and fed, musicians to allow to show off and much more.

3627	Windows CD-Rom	£59
3628	5 user copy	£109
3629	Site licence (Windows only)	£169

Switch Skills for Two Set 2

Eleven more activities for experimenting and progressing towards effective scanning skills. Also suitable for two learners as a basis for cooperative play. Build Up promotes the use of one switch to add items to the screen, with the second switch used to start the action or watch the animated reward. Build a tin can tower and knock it down, make a rocket and launch it, blow up a balloon until it pops or sit the children on the roller coaster and start the action. Move and Get activities are designed to move learners towards the skills required to use, for example, a scanning communicator. Activities include loading crates onto trucks, feeding the croc, dance partners and passing the ball along a line of basketball players to shoot.

3630	Windows CD-Rom	£59
3631	5 user copy	£109
3632	Site licence (Windows only)	£169

Switch Skills Champions

Every child can be a champion with these fun games that help develop switch timing skills. It features five sports that are included in the Olympics or Paralympics. For one or two players - useful for developing turn taking skills. Try basketball, volleyball, boccia, ice hockey or hurdles. You can change the difficulty level for each player. Includes a simple training activity for early learners. Just wait for a player to appear on the screen, then press your switch to win a medal. Accessible using a switch, mouse, keyboard, touch monitor or whiteboard.

All proceeds from this software are proudly donated to the Leonard Cheshire Disability charity. **We have raised over £10,000 for the appeal so far!**

4197	Windows CD-Rom	£59
4198	5 user copy	£109
4199	Site licence (Windows only)	£169

SwitchIt! Extra Series

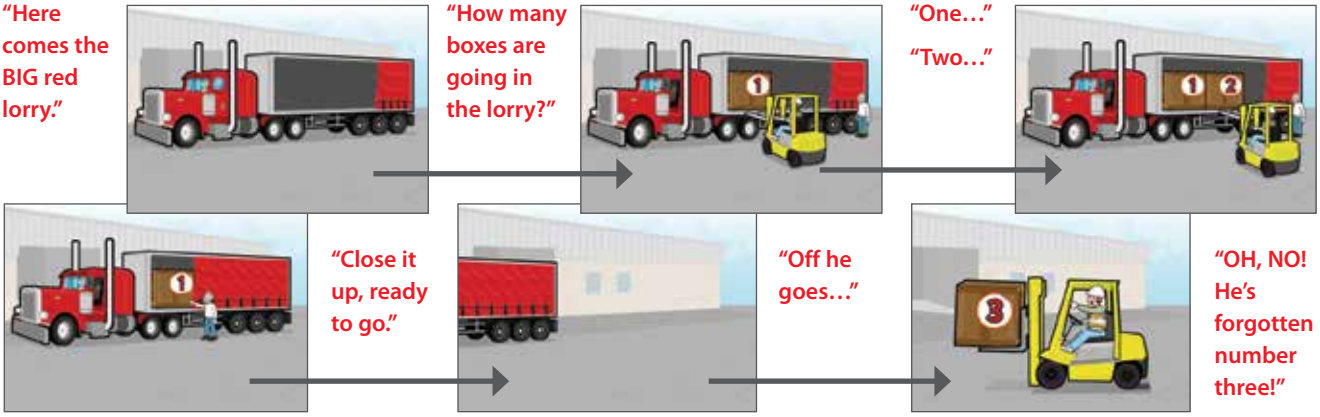
These motivating cause and effect activities are ideal for early language work. Press a switch and see flash cards appear, a picture build up or watch an animated story unfold. For keyboard, mouse, whiteboard or switch.

Each of these CDs has additional on-screen activities and a wide selection of worksheets, picture builds and flash cards to print out. For details see ***www.inclusive.co.uk***

SwitchIt! Extra Stories

Here is an example of a story from *SwitchIt! Transport Extra*.

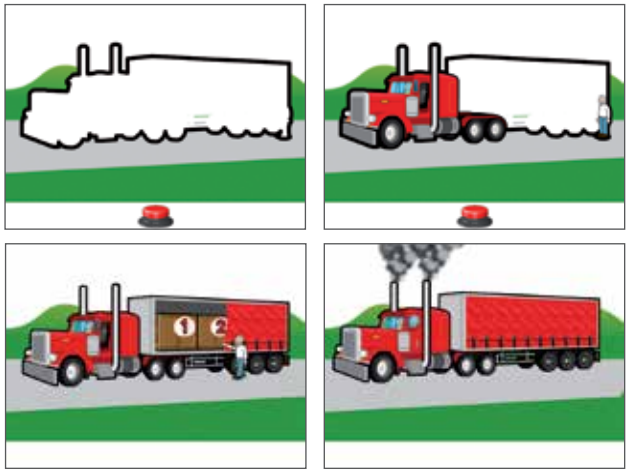
You can use the stories to discuss what is happening - a useful aid to speech and language development. (On the screen these pictures are animated.)



"Here comes the BIG red lorry."
"How many boxes are going in the lorry?"
"One…"
"Two…"
"Close it up, ready to go."
"Off he goes…"
"OH, NO! He's forgotten number three!"

SwitchIt! Extra Picture Builds

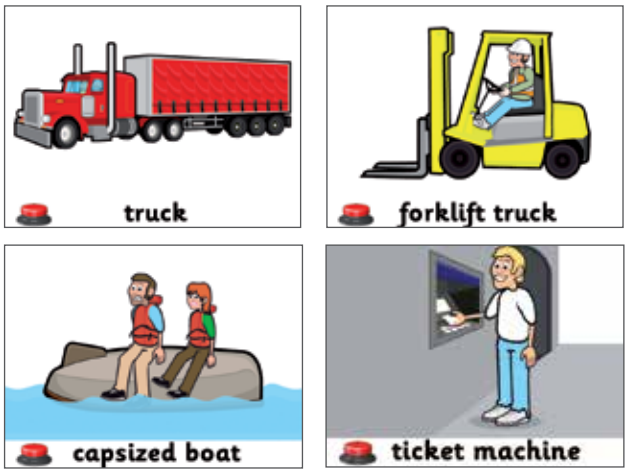
This one is from *SwitchIt! Transport Extra.*



Picture builds teach the child to build a picture step by step before giving an animated reward. You can change the number of steps to suit the needs of the child and provide progression. This helps teach the child to complete a sequence, as well as improve their looking and listening skills.

SwitchIt! Extra Flash Cards

These are from *SwitchIt! Transport Extra.*



Introduce and explore vocabulary from the *SwitchIt!* programs with flash cards. Each flash card has text, picture, sound and speech support.

SwitchIt! Technology Extra

This is the latest title in the popular SwitchIt! software series, covering twelve everyday technologies, sometimes with unexpected results!

NEW

We can sympathise with the character trying to turn on their television when faced with a selection of remote controls, and everyone has had a disaster with overloaded supermarket carrier bags! We are sure that lots of classroom discussion will be encouraged with everyone sharing their experiences about photo booths, car washes, vending machines, lifts, mobile phones and more – great as preparation or follow up for a visit.

5696	Windows CD-Rom	£69
5697	5 user copy	£129
5698	Site licence	£189

SwitchIt! Sports Extra

This *SwitchIt!* program contains twelve animated stories demonstrating different sports, plus flash cards and animations for cause and effect work. Watch the footballers use teamwork to score a goal.
Find out why going jogging is good for you. Sprinting, rounders and other sports played in school and college are also featured.
Sports played by people with disabilities are included, such as wheelchair basketball, boccia and new age kurling. *SwitchIt! Sports Extra* may be used as part of the PSHE curriculum to promote healthy living skills.

Try out the Goal!!! activity at **www.helpkidzlearn.com**

SwitchIt! Weather Extra

Looks at the sun, wind and rain and their effects: keeping warm, keeping cool and phenomena like rainbows and thunderstorms.

2136	Windows CD-Rom	£69
2137	5 user copy	£129
3228	Site licence	£189

SwitchIt! Dinosaurs Extra

Look at dinosaurs' behaviour, their habitat and how they hunt or forage.

3004	Windows CD-Rom	£69
3005	5 user copy	£129
3233	Site licence	£189

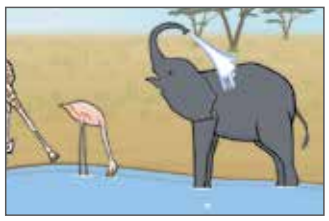
SwitchIt! Christmas Extra

All the joys of the festive season! Build a snowman, pull a cracker, decorate the tree and wait and see if Santa Claus will pop down the chimney.

2120	Windows CD-Rom	£69
2121	5 user copy	£129
3226	Site licence	£189

SwitchIt! Wildlife Extra

Looks at different habitats, the kind of animals that live there and their characteristics, behaviour and diet. Includes mammals, birds, insects, reptiles and fish.



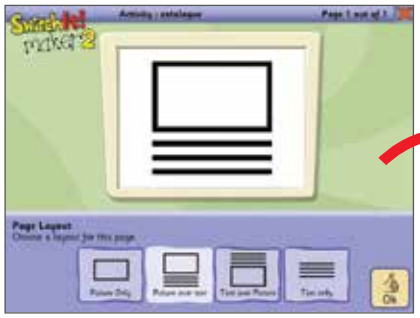
2739	Windows CD-Rom	£69
2740	5 user copy	£129
3231	Site licence	£189

maker Series

All our Maker series offer a simple to use framework for making personalised teaching and leisure activities. Add your own images, text and sound to meet the needs of your students. Activities can be created in minutes using our intuitive tools, plus an inclusive range of access options make these programs suitable for many.

SwitchIt! Maker 2

Create fun and personalised teaching and leisure activities using this very simple step by step process.

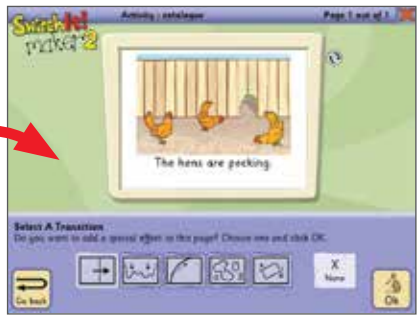


Choose a layout

Add a picture or video

Add text

Add sound



Choose transition - now you have made your activity

Press a switch to see a picture, photo or video clip with sounds and text. Press the switch again to turn the page and see more. You can also use a mouse, keyboard, touch monitor or whiteboard.

Key features

- Make your own activities and talking books in minutes with *SwitchIt! Maker 2*.
- Use your own digital images or import pictures and sounds from the Internet.
- Includes a library of over 1,500 pictures, sample videos and music, including a selection of *PCS* symbols.
- Print out your book.
- Share the activity with others - even if they don't have *SwitchIt! Maker 2*.

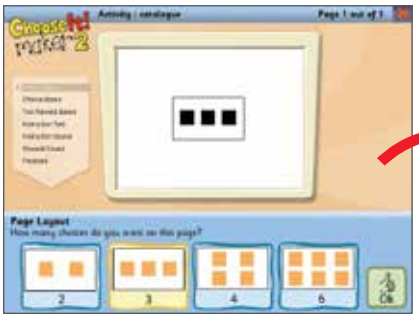
Use *SwitchIt! Maker 2* for

- **Making it motivational** - pop music videos, silly sounds, pictures of Thomas the Tank Engine or motorbikes - put anything in that will get you interested and interacting!
- **All about me** - keep a meaningful diary or communication passport.
- **Reinforcing vocabulary** - put a photo/picture with the spoken word and text to help learn new words.
- **Sequencing tasks** - make step by step instructions with photos of the situation.
- **Talking photo album** - share a multimedia record of your holiday or trip.
- **Story telling** - make a simple story book that can be read independently.
- **Speaking your mind** - use it as a simple communication tool. Use one switch to scroll through the pages of choices and a second switch to speak out your choice. Use it in the classroom or day centre to tell others your preferences.

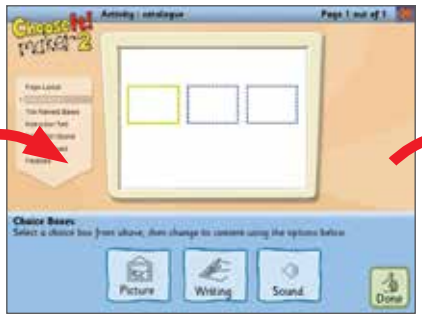
1796	Windows CD-Rom	£79
1797	5 user copy	£149
3236	Site licence	£229

ChooseIt! Maker 2

Create fun and personalised teaching and leisure activities using this very simple step by step process.



Choose a layout

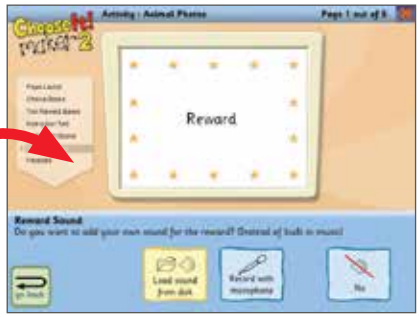


Add a picture, text or sound

Choose the right answer

Add the question

Add a sound



Choose a reward - now you have made your activity!

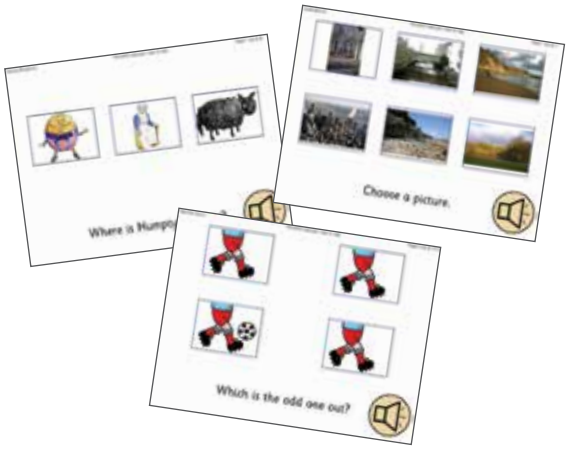
Press a switch to hear or read the question. Choose your answer by scanning the choices with one or two switches. You can also use a mouse, keyboard, touch screen or whiteboard.

Key features

- Make your own choice making activities in minutes.
- Use your own pictures, photos, sounds or text, or pick from the library of over 1,500 files, including a selection of *PCS* symbols.
- Make the activity as simple or as complex as you like, choosing from two to six items.
- Have one or more correct answers, spoken or written instructions and your choice of reward.
- A great introduction to simple switch scanning (or use a mouse, touch monitor or whiteboard). Auditory scanning is included too.
- Print out your activity.
- Share the activity with others - even if they don't have *ChooseIt! Maker 2*.

Use *ChooseIt! Maker 2* for

- **Assessment** - use the computer to make assessment more motivating. Great for students who struggle with traditional picture tests. Use familiar photographs or appropriate pictures to help assess language skills, number concepts etc.
- **Quizzes** - make learning fun, with everybody able to participate. Great on the whiteboard or plasma screen.
- **That's the one I want** - have free choices for activities with no wrong answers! Vote for your favourite pop star, which story we should read or where to go today.
- **Language comprehension** - match up with talking books made in *SwitchIt! Maker 2*. Can they answer the questions correctly or match the written word with the picture? You can even make picture matching activities.
- **Sound lottos** - matching and choice activities for people with visual impairment. Have the choices spoken out and press the switch to make your selection.



1881	Windows CD-Rom	£79
1882	5 user copy	£149
3150	Site licence	£229

Slideshow Maker

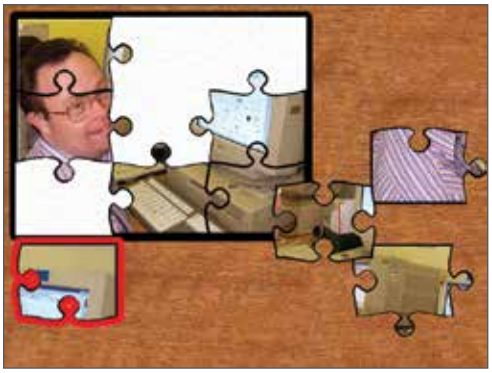
Makes it easy for the busy SEN or Early Years practitioner to make simple slideshows with accompanying music for early switch users.

The slideshows can also be used with touch screen, plasma or mouse. Simply choose a set of pictures, add a music track and you're away. Slideshows can be started and stopped using one or two switches.
This is useful for teaching two switch control or taking turns, and is invaluable for learners with PMLD or those learning to make choices using a switch or by pointing. The slideshow can also be given a timer so it automatically stops after a certain time.
For early choice making, a picture board can be set up with between two and nine pictures to choose from by pointing, switch scanning or the mouse. Each picture starts a different slideshow, then the picture board is shown again.
This is good for turn taking with a group and can also be used with the IntelliKeys keyboard.

More able learners who can use a mouse or touch screen will enjoy making their own slideshows with the editor. It's free of clutter and the buttons are large and have symbols.
You can get pictures from a camera, the Internet, or even a webcam, then change their order in the slideshow using simple drag and drop.
Full export features allow you to share slideshows with colleagues, or you can give them to learners to take home and play.

4271	Windows CD-Rom	£79
4272	5 user copy	£149
4273	Site licence	£229

SwitchIt! Jigsaw Maker 2



It's easy to make jigsaws of family members, pop stars, favourite characters or anything which is motivating.

There are four levels of complexity to provide skills progression.
Jigsaw Maker 2 is perfect for use with mouse, touch screen or interactive whiteboard. Jigsaws can be put together using the drag and drop method, or with single clicks of the mouse. Learners who use switches to access the computer have also been catered for. Jigsaws can be put together using one or two switches, such as the Smoothie Switch (page 83).

1950	Windows CD-Rom	£79
1951	5 user copy	£149

SwitchIt! Facemaker

SwitchIt! Facemaker is a simple program that lets you decorate faces with all sorts of features like hats, hair, glasses, funny noses etc. You can add your own photographs for decoration, or use the samples included. The program has four levels of play to support learners from those with severe learning difficulties to those in KS2 mainstream. Full switch access and symbols for non-readers are included. Nearly 100 features give you thousands of combinations, engaging students in creative exploration and experimentation.

2144	Windows CD-Rom	£79
2145	5 user copy	£149
3234	Site licence	£229

Card Maker

Create party invitations and cards - accessible and easy to use.

Make a card - choose one of twenty eight different occasions including Christmas, birthdays, Easter, Valentine's Day, anniversaries and more. Add the recipient's name and it will appear on the front of your card (teachers may input different names for switch users to choose from). Each occasion has lots of bright, beautiful card designs to choose from.

Change the background colour and letter style and decorate your card with streamers, spangles, flowers, snowflakes or even cobwebs. You can even use a webcam to add your picture, to say who the card is from.

Then print out your card complete with folding guidelines - it's easy! Use a mouse or one or two switches. Optional audible scanning.

Customise your card to make it personal.

Customising your card is easy. You can change fonts, colours, pictures and even add names to the inside.

Make an invitation

Choose one of eighteen occasions then pick a design, type style, colour and decoration. If you wish, you can choose to use outlined images for the learner to colour in.

When the invitations are printed out, the teacher or parent can fill in the date, time and venue.

Card Maker will even produce matching envelope templates which can be printed out and folded to fit your invitation.

Try a demo of Card Maker at

Choose and Tell: Nursery Rhymes

- Choose from Humpty Dumpty, The Grand Old Duke of York, Old Mother Hubbard, Old King Cole or Baa Baa Black Sheep.
- Take Baa Baa Black Sheep off to the beach on a space rocket, or go to the castle with Humpty Dumpty on his green boat.
- Great for getting children to use their imagination and think about creating a narrative.

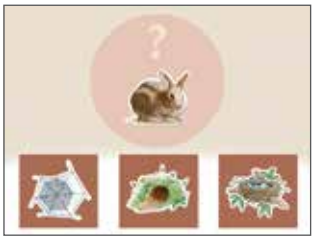
1324	Windows CD-Rom	£59
1325	5 user copy	£109
3147	Site licence	£169

Choose and Tell: More Nursery Rhymes

- Choose from Little Bo Peep, Mary Mary Quite Contrary, Little Jack Horner, Yankee Doodle or Pussy Cat.
- Decide where to go and what to do.
- Great for getting children using their imagination.
- Lots of fun adventures to enjoy, with delightfully comical results.
- Lots of images are available on the CD for printing in colour or for children to colour in.

3471	Windows CD-Rom	£59
3472	5 user copy	£109
3473	Site licence	£169

Choose and Tell: Legends



- Embark on a magical adventure based on exciting legends from different cultures.
- Choose from Jason, Sir Lancelot, the Pharaoh, Hiawatha or Rama.
- Packed with fun decisions to make and challenging puzzles to solve.
- Encounter monsters and answer questions relating to the Key Stage 1 curriculum.
- Configurable difficulty level.

1754	Windows CD-Rom	£59
1755	5 user copy	£109
3148	Site licence	£169

Choose and Tell: Fairy Tales

- Choose from Snow White, Beauty, Cinderella, Princess Aurora (also known as Sleeping Beauty) or Rapunzel.
- Travel in a pumpkin coach, on a funky moped or groovy rollerblades.
- Will you visit a fairy tale castle or go to the supermarket?
- Will your heroine find her Prince Charming - or will a magical kiss lead to a different surprise? Of course, they all live happily ever after.

Choose and Cook

An easy, fun, story based program about preparing food and being in the kitchen. Aimed primarily at non-readers with severe learning difficulties of all ages, and perfect for mainstream primary classes. Pupils choose a meal to make, then find the ingredients in the kitchen.

They are taken through the cooking and preparation process, where they choose the correct utensils. Finally, they invite a friend and enjoy the meal together.
This program can be used in tandem with real cooking lessons. The simple recipes have been chosen because they can all be easily produced in the kitchen.

3405	Site licence	£169

Counting Songs 1

Ten popular, traditional songs, seven of which have been re-written to count up from 1 to 5. Lively tunes and lovable animated characters engage the children, encouraging them to count along with the music. The songs are offered in three progressive stages:

- Playing all the way through.
- Counting before each verse.
- Asking the child to count before each verse.

A set of accompanying activities consolidate and expand the childrens' counting skills. These are also offered in three progressive stages: simple counting of one character after another; counting characters along a number line and identifying sets of objects. The program can be used with a touch screen, mouse or switches.

4911	Windows CD-Rom	£59
4912	5 user copy	£109
4913	Site licence	£169

Counting Songs 2

Ten original, contemporary style songs with entertaining animations, designed for KS2 children with learning difficulties. Seven of the songs count up from 1 to 5, whilst three count down. May also be suitable for some Early Years learners.

Let's Go To Town

A superb story program with nine interactive scenes. First catch the bus and we're off! Once at the town you can choose food at the market, select clothes, buy an ice cream in the square, post a letter and finally catch the bus home again at the bus station. *Let's Go To Town* encourages decision making and discussion of real life activities at a basic level. It suits students of all ages, principally with severe learning difficulties and/or little reading ability.
The large, eye catching animations are designed with the visually impaired student in mind, and fun for all of us!
The limited interaction is very useful for students learning scanning using one or two switches. You can access the program using a keyboard, mouse or alternative pointing device, switch, touch monitor or IntelliKeys.

1073	Windows CD-Rom	£59
1074	5 user copy	£109
3163	Site licence	£169

Let's Go To The Seaside

Go paddling, choose sunglasses and a hat, try out a telescope or explore a rock pool. You can build your own sandcastle too, complete with flags, shells and tunnels. *Let's Go To The Seaside* is a delightful on-screen story book with decision making activities and animations to link the story together. It encourages the discussion of preferences and promotes life skills. Each page has a limited number of things to click on, making it easy for those learning switch scanning skills. *Let's Go To The Seaside* is also useful for developing early reading skills, recognising patterns and matching sizes and colour.
It covers staying safe in the sun, picking up litter and simple sequencing in the sandwich making activity. You can access the program using a keyboard, mouse or alternative pointing device, switch, touch monitor or IntelliKeys.

Personal Success

We all want to look our best. Some people need help with the basics - teeth, hair, washing face. Others have these mastered but need assistance with more complex tasks like laundry and makeup. *Personal Success* is a multimedia program targeting essential activities. They are organised into six topics: personal care for women, personal care for men, personal care for everyone, dressing for success (women), dressing for success (men) and clothing care. Organise them to reflect a naturally occuring sequence - washing hands, brushing teeth, flossing, mouthwash. Use printouts to rehearse activities and as picture cues at the actual location, like the bathroom or bedroom.

DON JOHNSTON

Don Johnston software is now even easier than ever to use. Upgrades to V6 available - ***see www.inclusive.co.uk***

Snap&Read

The simple one button toolbar that reads any text on-screen as it floats over any application.

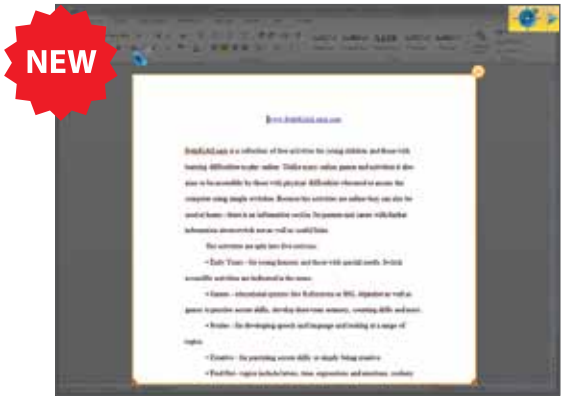
Water Cycle
Introduction
Water is all around us. There is water in seas, rivers, lakes, ponds, clouds, and even in the air. Did you know that water is always moving from one place to another? Let's explore and find out how this happens.

What is *Snap&Read*?

Snap&Read is an accessible toolbar that reads any text on-screen as it floats over any application. The simple one button interface reads both accessible and inaccessible text aloud from Flash websites, Word docs, PDFs, web based tests, images and even dialogue boxes. If it looks like text, *Snap&Read* will read it!

Run *Snap&Read* from a USB flash drive

Either install *Snap&Read* on your computer or load *Snap&Read* on a USB flash drive and run the application directly from the drive.
Snap&Read works identically on both Mac and Windows computers. Available to UK customers only.



How does it work?

1. Launch *Snap&Read* and it will float over your application.
2. Select any text on-screen.
3. *Snap&Read* automatically reads the text aloud.

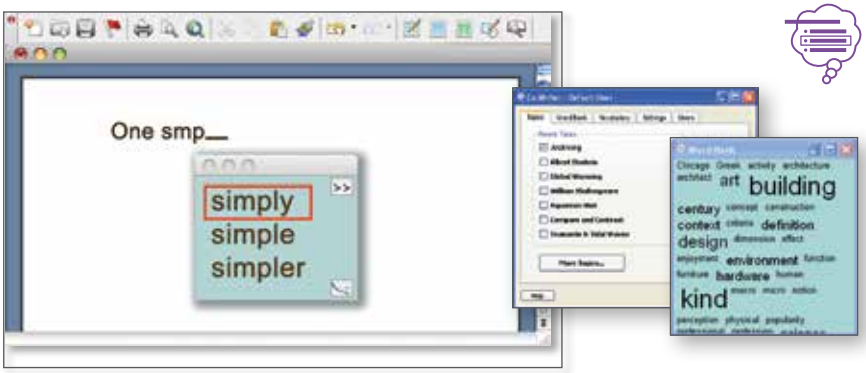
Why choose *Snap&Read*?

Other accessible toolbar programs have become bogged down with features. Most of their features like spell checkers, thesauri, verb conjugators and dictionaries are available free online or in word processors. *Snap&Read* focuses on the core - reading any text on-screen and making it so easy that students get up and running instantly.

6108	Win/Mac CD-Rom 1-4 licences each	£99
6109	Site licence	£399

Co:Writer 6

Intelligent linguistic word prediction.



Co:Writer 6 is the only word prediction program to use the context of a whole sentence to predict the next word. This provides the most accurate prediction available - crucial for your most struggling writers. It's discreet configurable on-screen window follows the cursor in any application offering a choice of grammatically correct, correctly spelt words.

Co:Writer's FlexSpell™ provides every conceivable letter pattern students will try in an attempt to spell words, so interpreting phonetic and inventive spelling. It offers correct word choices that even the most sophisticated spell checkers cannot produce.

Co:Writer 6 works in conjunction with any application you write in, like MS Word, on websites, blogs, in emails etc. *Co:Writer 6* interprets spelling and grammatical mistakes and offers word suggestions as you type.

4569	Win/Mac CD-Rom 1-4 licences each	£179
4573	Site licence	£1249

More licences available, see www.inclusive.co.uk

Read:Outloud 6

Text reader and talking web browser.

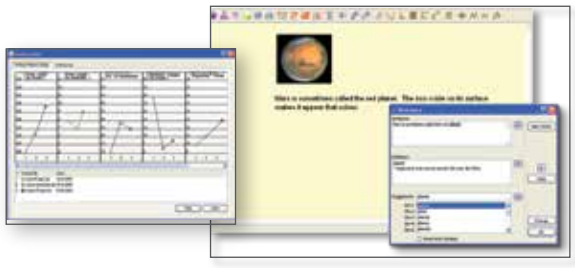
Read:Outloud 6 is a text reader that gives struggling readers access to a whole range of electronic documents - PDF, DAISY, TXT, HTML and XML. It also has a built-in accessible web browser so struggling readers can listen to any web page. *Read:Outloud's* study tools (eHighlighters, notes, interactive outline) help students capture facts and information and improve reading comprehension.

4584	Win/Mac CD-Rom 1-4 licences each	£186
4588	Site licence	£625

More licences available, see www.inclusive.co.uk

Write:Outloud 6

Simple talking word processor.



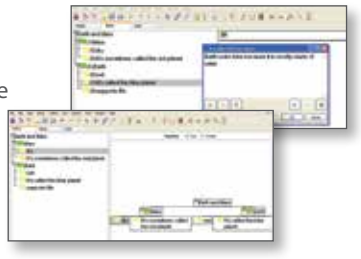
Write:Outloud 6 is an easy to use talking word processor designed specifically to support struggling writers. It will speak out letters, words, sentences and paragraphs in any combination as the student types, providing real time auditory feedback. *Write:Outloud 6* features a talking Franklin spell checker and dictionary and speaking homophone checker to help students easily revise and edit their work. Students can easily export completed documents from *Write:Outloud 6* to any other word processing program.

4574	Win/Mac CD-Rom 1-4 licences each	£66
4578	Site licence	£399

More licences available, see www.inclusive.co.uk

Draft:Builder 6

Graphic organiser.



Research has shown that struggling writers typically spend less than one minute planning their written work. *Draft:Builder 6* is a graphic organiser that breaks the writing process into three manageable chunks - organising ideas, expanding ideas and writing the first draft. With this simple structure, students quickly learn to generate ideas and organise them to form a coherent written document. Particularly useful for students with poor organisational skills and helps struggling writers to develop deliberate, systematic and strategic writing habits for improving writing quality.

4579	Win/Mac CD-Rom 1-4 licences each	£85
4583	Site licence	£625

More licences available, see www.inclusive.co.uk

SOLO 6 Literacy Suite

Buy all these applications in one SOLO Suite and save! Excludes Snap&Read.

Combines *Co:Writer 6*, *Write:Outloud 6*, *Draft:Builder 6* and *Read:Outloud 6* in one fully integrated package. *SOLO* can be less overwhelming than one single application addressing all of these needs, as each tool can be used independently as needed to address one aspect of reading and writing that the student is struggling with.

4589	Win/Mac CD-Rom 1-4 licences each	£480
4593	Site licence	£2,995

More licences available, see www.inclusive.co.uk

Multiple user licences can be used across a number of sites. However, a site licence can only be used at a single site.

TextHELP Read & Write 10 GOLD

Read & Write 10 GOLD is the world's leading literacy support software.

Designed to assist those who require help with their reading and writing. The software works discreetly with all mainstream applications, allowing users to learn in an inclusive setting. *Read & Write 10 GOLD's* reading features will help to speed up reading, assist with comprehension, improve vocabulary and accommodate visual problems associated with dyslexia. *Read & Write 10 GOLD's* writing features will provide the necessary assistance to improve the accuracy of written work and will help with proof reading.

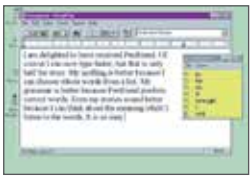
Penfriend XP 4.1



Penfriend XP is a powerful tool for those with dyslexia or physical disabilities, adding word prediction, speech and an on-screen keyboard to almost any other software. Now with even better prediction, new display options and much improved abbreviation expansion. Works with your word processor and tries to guess the word you are typing when you have entered the first letter, the second letter and so on. One key press then finishes the word for you. It also learns the words you use frequently and recently, so it improves as you use it. This information is saved for each individual user, together with individual settings. In addition, it is easy for teachers to select preferences, edit children's lexicons and add topic specific vocabulary.

5022	XP Windows CD-Rom single user PC	£60
5024	XP Portable single user USB	£99

Penfriend XL 4.1

Penfriend XL 4. is a powerful screen reader with multiple onscreen keyboards. It works in nine European languages and has all the other features of Penfriend XP. Now with even better prediction, more voices, homophones and many other improvements. It offers considerable support for users with special needs, helping with spelling, confidence and speed of composing text. See **www.inclusive.co.uk** for details.

5025	XL Windows CD-Rom single user PC	£120
5027	XL Portable single user USB	£149

ClaroRead SE

ClaroRead SE is a simple and discreet floating toolbar that adds text to speech in Word, Internet Explorer and other programs. *ClaroRead SE* will read back letters, words and sentences as they are typed so that struggling writers can listen for mistakes whilst writing. Clicking anywhere in a Word document and pressing the play button on the toolbar will read out the text, highlighting each sentence as it is spoken, and each individual word spoken in a contrasting colour. *ClaroRead SE* will also grey or dim out sentences not being spoken out to allow the user to concentrate on the sentence being read. It can convert text into an audio file that can be transferred to an MP3 player, iPod or mobile phone and played back.

Dolphin SaySo

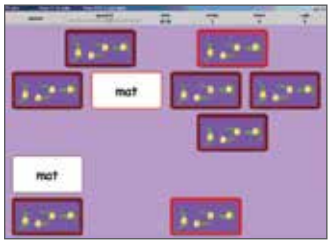
NEW

SaySo from Dolphin is an easy to use toolbar offering a comprehensive collection of features to empower people with dyslexia to be able to read and write with confidence. Using human voices, *SaySo* reads aloud as you type Word documents and emails, or as you browse web pages. As well as reading back text, *SaySo* also provides options to save text as MP3 to listen to on a smartphone or MP3 player. Scan in paper documents and image files to have them read back. You can spell check your typing and add your own auto corrects, checking your typing for tricky sound alike words. Using the unique *SaySo* bookshelf feature you can search for, download and read books from your computer and from popular online libraries.

6318	Dolphin SaySo CD-Rom single user PC	£159

For further licencing options see www.inclusive.co.uk

WordShark 4

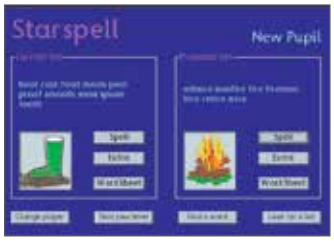


WordShark 4 combines the excitement of computer games with the serious task of learning to read and spell. Its fifty five games use sound, graphics and text to teach and reinforce word recognition and spelling. Now with courses to support the latest recommendations for a high quality phonics programme. *WordShark 4* includes phonics, onset and rime, homophones, spelling rules, common letter patterns, visual and auditory patterns, prefixes, suffixes, roots, word division, high frequency words, use of words in context, alphabet and dictionary skills and more. The games and selection of 1,500 pre-recorded words are designed to assist those with specific learning difficulties. Suitable for home and school use, and all ages. The word lists are arranged in three alternative structured courses covering the Literacy Hour UK spellings and word recognition, secondary school/adult SEN and the three stages of the book *Alpha to Omega*. Variable speeds and other options meet all grades of skill. The latest version has 3,000 extra words from the KS3 curriculum, and sentences that show the words in context. It is easy to add new words for learners to practice and the program keeps student records too.

3255	Windows CD-Rom	£57

More licences available, see www.inclusive.co.uk

Starspell 3



A galaxy of tried and trusted approaches to learning and improving spelling. It assists learning through positive reinforcement and its non-gimmicky style makes it equally suited to mainstream and special needs education, for adult learners as well as children.

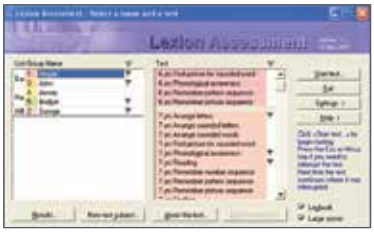
Now with a new phonics section designed for use with interactive whiteboards. Complements the English Letters and Sounds phonics scheme (with matching word lists).

Now with enhanced network installation and Windows 7 compatible.

4739	Windows CD-Rom	£65
4740	Additonal user licence	£15
4741	Site licence	£289

Lexion

Lexion makes it easy to assess pupils who are struggling with reading and writing.



Simply select a test for their age and area of difficulty and *Lexion* will analyse the result, displaying the results in charts and text. It then automatically creates exercises to address the difficulty.

The pupil can practice the exercises either at school or at home, and as they improve, they can be re-tested to assess progress.

Lexion is a computer based system for stimulating and training people with language related learning disorders, dyslexia or aphasia. It covers the most fundamental processes in learning reading and writing, including phonological awareness, letter-sound correspondence, syllable and morpheme segmentation and blending, grammar, spatial skills, arithmetic and understanding the clock.

The *Lexion* analysis helps to assess whether a child will have difficulties in reading and writing during their first years in school. It can also be used as a screening tool when a new stage in reading and writing education is to begin, or where a certain level of ability should have been reached.

Lexion has also been designed to engage interest and improve concentration.

The assessments cover a great many areas, including phonological awareness, building words from component sounds or syllables, matching a picture to a sounded word, reading and reading comprehension, spelling and remembering sequences.

The exercises also cover a wide range of areas including:

- Phonology.
- Writing the word.
- Letter sequencing.
- Matching words to a picture or sound.
- Comprehension.
- Assembling syllables.
- Sentences and texts - exercises in grammar, syntax and comprehension.

1938	Lexion teacher licence	£290
1939	Additonal teacher licence	£60
3075	Site licence	£790

The Intel® Reader from Intel-GE Care Innovations™

Transforms printed text into speech - anytime, anywhere! The Intel® Reader from Intel-GE Care Innovations™ is a portable, hand held device designed to help students with reading based difficulties, such as dyslexia or impaired vision, to access printed material. It combines a high resolution camera with the power of an Intel® Atom™ processor to convert printed text to digital text, and then reads it aloud to the user.

Intel® Reader

PRICE DROP!

Weighing just over 600 grams and about the size of a paperback book, the Intel Reader provides all the power of a bulky PC plus scanner in a convenient size for school, home or on the move. The Intel Reader fits easily into a schoolbag or backpack and has a sturdy magnesium case and generous battery life of up to 4 hours continuous use.

In the classroom, teachers can continue to use existing worksheets and other printed material. Students can use the Intel Reader to access course material and lesson content as it is handed out. They simply point, shoot, and quickly listen to handouts, tests and books, and the earphones allow private listening, clearly and discreetly, without disturbing others.

The Intel Reader can read back text in a variety of voices and speeds. During play back, the text is highlighted as it is read aloud, and users can have the Intel Reader pause and spell out highlighted words. It all helps students become independent learners.

The Intel Reader helps students organise and access their captured documents efficiently so they can accomplish tasks faster. With over 2GB of storage space, pupils can store up to 600 pages of captured text or over 500,000 pages of text only documents. The library feature lets students bookmark favourite documents for fast access. They can navigate within a document by word, sentence, or by page, and they can go to a specific page or jump to the beginning or the end.

The Intel Reader can store and play back a wide choice of content as well as captured text. It will play most content, including DAISY books and even text transferred from a PC, as well as MP3 or WAV music files. It can also generate audio versions of printed materials, as MP3s, that can be played on most digital music players or computers. A USB connection makes it easy to transfer files to or from a PC.

4387	Intel Reader	£499

Intel® Portable Capture Station

PRICE DROP!

An optional accessory, the Intel® Portable Capture Station is a sturdy stand that holds the camera in position to enable quick and convenient capture of large amounts of text. A transparent film holds books flat and the large, easy to find capture button on the base helps users quickly capture lots of pages. The stand folds into a convenient briefcase size with built-in carry handle. The Intel Reader will function without the Intel Portable Capture Station.

4388	Intel Portable Capture Station	£99

Transfer Intel Reader ebook files into Read:Outloud 6 software.
See page 51.

Speech Input

Dragon Naturally Speaking Premium 12

The latest edition of Nuance's fantastic speech recognition software is faster and more accurate than ever. *Dragon* gives you the power to turn your voice into text in a quick and natural way - three times faster than the average keyboard typist. Create documents, send emails, control applications and navigate the Internet, all just by talking. Use a digital voice recorder and transcribe the audio files back to your PC. *Dragon Naturally Speaking Premium 12* has an enhanced user interface, improved correcting and editing, time saving voice commands and improved speed and accuracy that copes well with a variety of regional accents and different voices. The Premium version of *Dragon Naturally Speaking* software allows you to create your own voice commands for efficient navigation and performing tasks on your computer. The latest features of *Dragon* include several new options to make it easier to use and includes new voice commands for those who enjoy social networking with Twitter and Facebook, or using a Gmail or Hotmail account.

NEW

5414	Dragon Premium V12 CD-Rom PC	£145

See www.inclusive.co.uk for details on more new features in version 12.

Digital Voice Recorders

With three recording modes: dictation, conference and lecture. Low cut recording to reduce interference; voice filter to emphasise the human voice; WMA and MP3 playback; 23mm high output speaker; voice guided menus and audio instructions for convenience.

Olympus DM-670 (8GB)

The eye catching, metal bodied DM-670 provides fully fledged, professional features for the breathtaking capture of voice and audio in numerous formats including Linear PCM exceeding CD quality, whilst also delivering outstanding capabilities for the highest quality and convenient playback of music, audio books and even podcasts. While the dual stereo microphone setup in previous models facilitated superb true stereo recordings, the incorporation of a third, central microphone takes quality audio capture to another level. This combination of mics means that recordings particularly those of the human voice, are even more balanced and life like, covering a broader spectrum of sound from low to high frequencies. The DM-670 also ups the ante with a Voice Guidance system, 99 index marks and 8GB of memory on board. The recorder features a micro SD card slot for additional memory power.

5658	DM-670 Digital Voice Recorder	£189

Olympus DM-450 (2GB)

With the very latest audio processing technology on board, the Olympus DM-450 brings high quality to users' fingertips. This model records every detail in order to ensure peace of mind and lets you enjoy your favourite music, audio books or podcasts during breaks. It offers incredible Olympus recording and playback quality and 2GB built-in memory, not to mention great style at an affordable price. It makes navigation a breeze with Voice Guidance and multiple language menus. In addition, 51 hours of battery life, battery save technology and a USB charge function ensure that you'll never be left hanging.

4330	DM-450 Digital Voice Recorder	£149

Each includes 2 x AAA batteries, stereo earphones, DSS player CD, USB cable and carrying case.

Software to Train your memory, develop thinking skills and utilise visual mind mapping.

Memory Quest

The new memory training software.

This innovative software provides working memory training for learners of all ages. Training with memory games has been shown to improve arithmetic skills and verbal working memory in children with ADHD. There are eighty different exercises, as well as two different interfaces, one junior and one senior. *Memory Quest* includes:

- A unique home page for the training software with material for teachers, such as rating scales, diplomas, evaluation sheets etc., as well as research and new training programs.
- A book about working memory and working memory training by clinical psychologists Erik Truedsson and Stefan Strohmayer.
- Tools for evaluating training.
- Tools for creating unique training programs.
- The ability to import new training programs.

Matrix Maker Plus

symbols-signs-pictures-overlays

FINALIST BETT Awards 2012

The all new Matrix Maker Plus has been specifically designed to be the simplest and most affordable software for making communication overlays and educational resources. With an easy to use intuitive interface, you can start creating and printing straight away with no need for training.

Making symbol and picture resources is now as easy as 1, 2, 3.

1. Choose your template

Matrix Maker Plus has a huge bank of ready made templates ranging from switch and communication device templates, worksheets and more.

2. Add your pictures

You can add pictures from either the *IT Media Library*, the Internet, your own pictures from your computer or take a picture with your webcam.

3. Print it out

Once you have added your pictures and text to your template, it is now ready to be printed out.
It's as simple as that!

Matrix Maker Plus also includes:

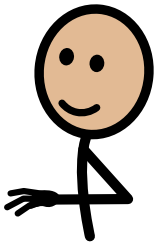
Widgit Symbols

Over 11,000 new symbols.

The ever expanding Widgit *Symbol Set* has been developed over the past twenty five years and now contains more than 11,000 symbols, which cover an English vocabulary of over 40,000 words.

SymbolStix Symbols

Over 13,000 symbols.



Originally designed and developed by News-2-You, *SymbolStix* depicts people as lively stick figures with no gender, age or culturally specific attributes, so that learners can focus on the concepts without being distracted by detail.

IT Pictures

Over 3,000 pictures.

IT pictures contains pictures, symbols and illustrations ready to use in *Matrix Maker Plus*. Each image is clear and concise and is supported by strong black outlines for clearer definition.

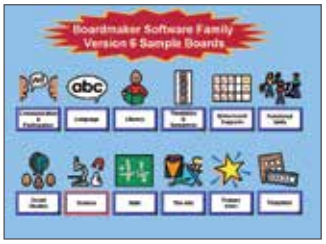
It's easy. Create activities from scratch with pre-programmed tools (gadgets) that let you add sorting bins, timers, spinners and more to your activities.
It connects you. As soon as you open *Boardmaker® Studio*, you are connected to thousands of parents, teachers and professionals on
www.BoardmakerShare.com

6129	Boardmaker® Studio Windows CD-Rom	£249

Boardmaker® Plus! V6



The premier educational software among teachers, speech and language therapists and parents for creating and individualising adapted content for students with learning challenges. It helps teachers and parents create on-screen and printed symbol based learning activities for students with special needs. You can create practice quizzes, worksheets, schedules, books, writing activities, games, communication boards and other activities that talk, prompt and support your student as they learn. The creative possibilities are endless.

- Personalise materials by simply dragging and dropping familiar images from the Internet, your digital camera or other sources.
- Print and cut out materials with the help of dashed lines that make cutting easy.
- Create dynamic activities for counting, sorting, sequencing and more with movable buttons.
- Link boards together into themed interactive units.
- Try more than 250 sample boards and 50 interactive templates, including communication templates.
- Install optional country specific symbols for holidays, food and currency.
- Use one of the forty four language translations to support students with English as a second language.

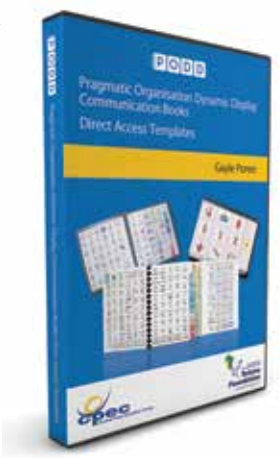
PODD Pragmatic Organisation Dynamic Display

This software helps create a wide range of communication books to suit varying communication, language and sensory requirements. This comprehensive resource provides detailed information and a range of templates to support the production and use of Pragmatic Organisation Dynamic Display (PODD) communication books (requires Boardmaker, please see previous page and above).

PODD provides practitioners with templates and guidelines to develop an appropriate communication book and also describes comprehensive strategies to enable the use of the system in the child's daily life – at home, at school and in the community.



Who is this resource for?

This resource is for people supporting children who are learning to communicate using aided symbols (pictographs, graphic symbols, whole written words). Therapists, teachers and parents will all have the opportunity to access the materials in this resource for their clients, students, children and young people.

What does the resource contain?

The resource provides templates to create a range of *PODD* communication books designed for children who use direct pointing with a whole hand, finger or pointer. Some of these page sets can also be modified to accommodate pick up and give/show or partner assisted scanning access methodologies.

The 3 x CD-Rom set includes:

- A full version of the book titled Pragmatic Organisation Dynamic Display Communication Books by Gayle Porter (2007). This publication describes the theoretical underpinnings and features of *PODD* communication books and includes a detailed section on teaching learning strategies.
- Templates for fourteen different *PODD* communication books from simple early functions to complex syntax. These templates can be viewed and customised using *Boardmaker* V5 or later (not included).

To support you to make customised *PODD* communication books, each set of templates includes:

- An information file providing a detailed description for that communication book's language, page layout, vocabulary organisation and navigation pathways.
- Construction files providing specific instructions for printing and constructing each communication book.

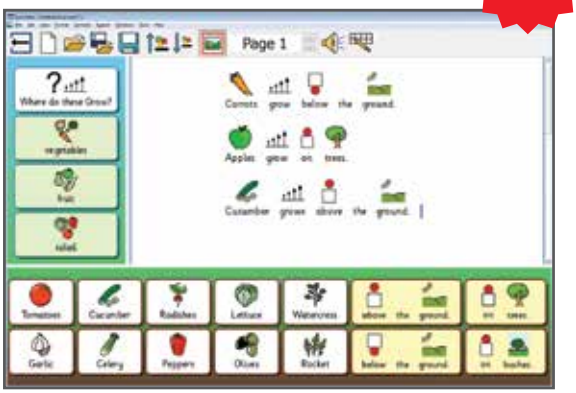
System requirements:

- *Boardmaker* for Windows or Mac V5 or later for printing and customising the templates.
- Adobe Reader.
- CD-Rom drive.

6023	Pragmatic Organisation Dynamic Display	£199

Communicate: SymWriter 2

NEW



Upgrade to Symwriter 2 free of charge – see our website for details. SymWriter 2 is a symbolising word processor used by both teachers and pupils to create symbol supported documents.

Symbol supported writing

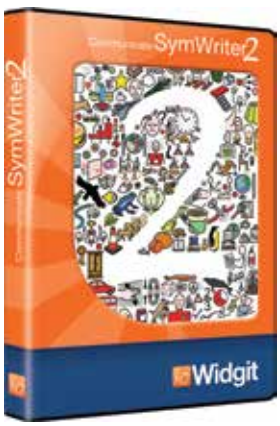
With Smart Symbolising technology, *SymWriter 2* looks at the word typed, the structure and context of a sentence to make the correct symbol appear above text.
Using graphics in documents couldn't be simpler - drag and drop from a web page or use an image already on your computer.

For emergent writers

SymWriter 2 features structured environments with grid based writing exercises for the emergent writer to learn word and sentence building with symbol support. An updated editor makes it even easier to create or adapt your own exercises.

The symbol spell check gives alternative spellings with their symbols and text to speech is also featured giving further visual and auditory support.

SymWriter 2 features



- Write freely with symbols or text.
- Easy to add your own images.
- Smart Symbolising based on parts of speech.
- Symbol spell check.
- Structured writing environments.
- Speech, switch and touch support.
- Work with the same document in *SymWriter 2* or *SymWriter Online*.
- Widgit *Symbol Set* with free updates.

6339	Windows CD-Rom	£149
6340	5 user copy	£349
6341	10 user copy	£499

Communicate: In Print 2

Make symbol supported printed materials.

A desktop publishing program for creating printed symbol supported resources for school, home, business or the community.
Includes the facility to make board type layouts. The symbols, along with powerful features and freedom of layout, help to create materials that have a professional look.

Great for making custom books

Communicate: In Print 2 includes a collection of templates and resources that you can use to quickly produce whatever you need.

Personalise your documents

- Drag and drop pictures onto individual words to personalise their meaning. These images will automatically be stored within the document for moving to other machines, making sharing effortless.
- Includes the 11,000+ Widgit *Symbol Set* with access to free updates.

1703	Windows CD-Rom	£99
1704	5 user copy	£249
1705	10 user copy	£349

For further multiple user options see **www.inclusive.co.uk**

Communicate: By Choice

Make simple on-screen activities.

A tool that supports users to learn to make choices. Switch accessible and great for use on touch screens.
Includes more than 100 activities that are ready to use and are quick and easy to edit. The activities cover topics such as comprehension, sequencing and visual discrimination.

Ready made activities

- The activities cover a wide range of basic and curriculum tasks, from very simple tasks for young learners or students with severe learning difficulties to much more demanding cognitive tasks.
- Includes the 11,000+ Widgit *Symbol Set* with access to free updates.

1844	Windows CD-Rom	£49
1845	5 user copy	£119
1846	10 user copy	£169

For further information see **www.inclusive.co.uk**

Clicker 6

*Clicker is the award winning literacy tool that enables pupils of all abilities to significantly develop their reading and writing skills. This year, Crick Software has released the latest version of this much loved software – Clicker 6. Please see **www.inclusive.co.uk** for special offer pricing available until 31st March 2013!*

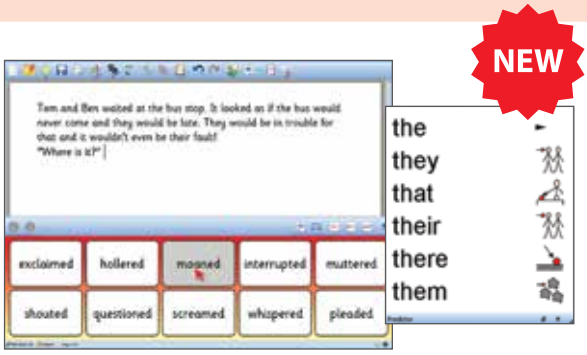
Whether you are working in mainstream education or a special needs setting, *Clicker* is the perfect tool for helping all your pupils achieve reading and writing success. *Clicker* enables children to learn and progress within an easy to navigate, motivating environment tailored to their individual needs.

Clicker 6 builds on the acclaimed support features of its predecessor. It combines customisable pupil support tools that empower children to work independently, with intuitive activity wizards that make it easier than ever before for teachers to create and edit *Clicker* activities.

What's new in *Clicker 6*?

More pupil independence!

- **Quick start word processor** – children are able to start working straight away!
- **Primary word predictor** - this intelligent predictor suggests words that fit the context of the pupil's writing.
- **Enhanced picture library** - over 2,500 curriculum pictures which are available for use in documents, *Clicker Sets*, the predictor and the spell checker!
- **Built-in painting tools** – Crick's popular painting program, *Clicker Paint*, is now fully integrated into *Clicker 6*.
- **Webcam support** – pupils' photographs instantly appear in their *Clicker* documents.
- **Favourites list** – children save their favourite *Clicker* activities for easy future access.



- **Click and edit books** – enables pupils to independently create their own talking books and presentations.

Less teacher time!

- **Clicker wizards** - follow the step by step instructions to quickly create personalised reading, writing, matching, labelling, speaking and listening activities.
- **New editing tools** - editing activities made simple! Click on a cell and the toolbar instantly changes to display only the tools relevant to the item being edited.
- **Faster access to Learning Grids** - no need to log in. Access hundreds of free resources instantly from within *Clicker 6*.

5674	Win/Mac CD-Rom home user	£74

For further multiple user options, see **www.inclusive.co.uk**

Improv

Improv is a text based augmentative communication framework driven by Co:Writer technology.

With *Improv*, your AAC users won't be limited to the words programmed in their devices OR the words they can spell. They will have the precise word or phrase available to them by just entering a few letters - whether it's their favourite film, restaurant, hobby, or current social studies topic. Even phonetic or inventive spellers can communicate with *Co:Writer* helping out. These supports help your students transition into literacy based communication. And as they communicate, *Improv* learns new vocabulary, phrases and stories, then auto adapts to improve communication.

Improv does all of this with no programming required! *Improv* is software based so you can install it on any Windows based computer, tablet PC, or dedicated AAC device like the Tobii's.

Improv innovations

- Instant topic dictionaries - type any topic name and instantly have access to all of the vocabulary.
- Auto learning - *Improv* learns new words, phrases and stories, then auto adapts to speed up communication.
- Saved stories and script - quick access to stories used time and time again.
- Quick chat - quick greetings, positive responses, negative responses, farewells.
- Phrase prediction - typing "tra dow" will prompt phrases like "Let's take the train downtown!".

5687	Single user licence USB pen drive PC	£499

ChooseIt! Ready-mades

The ChooseIt! Ready-mades series are a huge collection of educational activities we have created using our popular title ChooseIt! Maker 2 (see page 43). Choose from twenty one titles covering Literacy, Numeracy and Science, offering comprehensive coverage of the Foundation and KS1 curriculum.

BETT AWARDS 2008 WINNER

What can ChooseIt! Ready-mades do for my learners?

Ease of use

- Really easy to use for both teacher/carer and children.
- A simple way of finding what you need for any lesson. Easy to show other adults.
- Children focus on the learning objectives, not the computer.

Children's achievement

- Learning is motivated through positive reinforcement.
- Perfect for all children who need extra practice with understanding key concepts.
- Performance statistics are available and ready to print.

Flexible and fun

- Lots of pictures, music and speech support.
- Great for use with a group on a big screen, or one to one in a corner.
- Activities can be personalised using *ChooseIt! Maker 2* (page 43), or simply use each CD on its own.

How do the ChooseIt!s provide extra support?

The ChooseIt! Ready-mades can be used successfully by all children, but have special features for children who need extra support.

For struggling learners

Easy to use - children can focus on the task rather than on how to use the computer.

For children with coordination difficulties

Large buttons are easy to target with a trackerball or touch screen.

For children with autism

Consistent presentation with positive reinforcement means children are not distracted, confused or upset. Used with a group, they are fantastic for encouraging turn taking.

Physical difficulties

The *Ready-mades* are accessible using switches.

Visual impairment

Each CD has clear pictures and full speech support with a real voice.

ChooseIt! Ready-mades are designed by teachers and ICT coordinators with over 20 years' experience in primary and special schools.

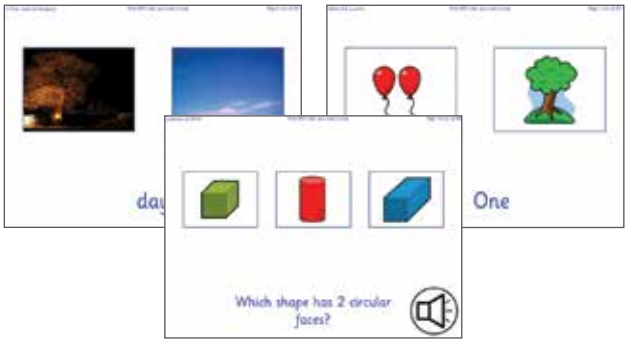
Numeracy Series

These activities map directly to the Foundation Stage, P-Scales or National Numeracy Strategy targets.
Choose from eight titles:

- Early Number.
- Number 0 to 5.
- Number 5 to 10.
- Number 0 to 100.
- Foundation Shape, Space & Measure.
- Key Stage 1 Shape, Space and Measure.
- Time.
- Money.

The full set contains a total of 237 activities and over 6,000 pages!

Buy all eight and save £33!



n/a	Windows CD-Rom (each title)	£34
2978	All eight titles single user CD-Rom	£239

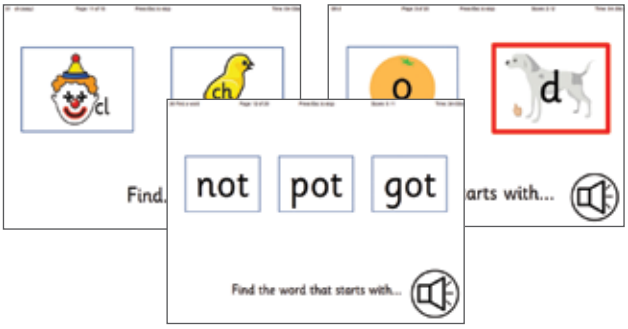
Literacy Series

Structured to support the Primary National Strategy, Letters and Sounds. **Choose from eight titles:**

- Listening Skills.
- Initial Letters.
- Initial Blends: Letters.
- Initial Sounds.
- Initial Blends: Sounds.
- Alphabet.
- Everyday Words.
- Tricky High Frequency Words.

Each CD has over twenty five activities with multiple pages. The full set has over 250 activities and 5,000 pages!

Buy all eight and save £33!



n/a	Windows CD-Rom (each title)	£34
3618	All eight titles single user CD-Rom	£239

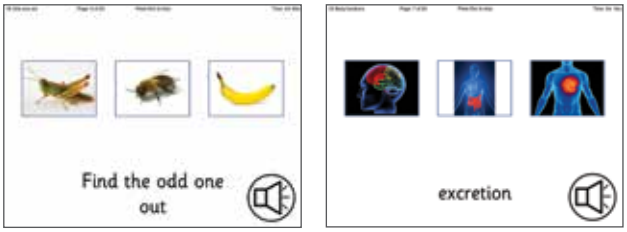
Science Series

Mapping directly to Foundation Stage Knowledge and Understanding of the World and the National Curriculum Key Stages 1 and 2. **Choose from five titles:**

- Foundation Living Things.
- Materials.
- Light, Sound and Space.
- KS1 Living Things.
- Forces and Electricity.

The full set has 151 activities and nearly 3,000 pages!

Buy all five and save £21!



n/a	Windows CD-Rom (each title)	£34
4305	All five titles single user	£149

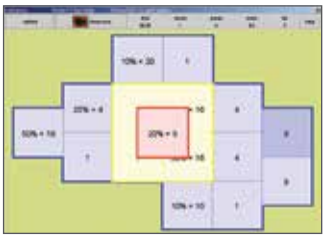
Titles are available to purchase separately or as multiple users, site licences or Series bundles.

Please specify titles when ordering.

*See **www.inclusive.co.uk** for full details of all titles and purchasing options.*

***NEW ChooseIt! Apps** - covering Numeracy, Literacy and Science!*
See page 7.

NumberShark 4



The latest version of this popular software helps anyone improve their basic numeracy. It addresses many of the difficulties which lead students to dislike maths. These include poor short term memory, limited attention span and poor sequencing skills. The program features forty five games to teach and reinforce numeracy in ways which add meaning and understanding to numbers. The games are played with your chosen units of work (topic), each of which generates a new set of sums every time you play. The 500 topics offer a finely graded structured course, isolating one new level of difficulty at a time. *NumberShark 4* covers:

- Operations + - x ÷.
- Numbers to 7 digits.
- Negative numbers.
- Percentages, fractions and decimals.
- Worded problems.
- Maths vocabulary.

Personalised learning can be supported by setting up individual programs of work and records of student activities are kept. Worksheets can be printed in a variety of formats. Variable speeds and other options meet different skill levels.

1271	Windows CD-Rom	£49
3169	3 user copy	£135
1273	10 user copy	£440

For further multiple user options, see www.inclusive.co.uk

Coping with Chaos

Coping with Chaos has fourteen different mini stories featuring realistic animations in 3D. These take place in six familiar locations (a classroom, café etc.), providing greater situational variety. Sam might be bothered by a wasp in the park, or a loud noise might make him jump. There are also two levels of play. The simpler level is for learners only able to understand happy, sad and angry, whilst the second level adds emotions like scared, bored, excited and embarrassed. This story based program about emotions and behaviour is designed for children with emotional and behavioural difficulties and may be useful for some on the autistic spectrum. Sam goes to different places and you must help him cope with the things that happen to him there. First you must recognise how Sam feels, then you decide what he does about it. *Coping with Chaos* is best used as a tool for discussion about emotions and appropriate behaviour, either one to one or with a small group.

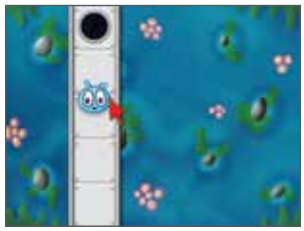
Suitable for readers and non-readers and all on-screen text for learners has spoken support. Ideal for the interactive plasma screen or whiteboard. Switch access options included.

PRICE DROP!

2947	Win/Mac CD-Rom	£39
2948	5 user copy	£98
3153	Site licence	£147

IT Mouse Skills

Using a mouse requires a combination of motor, cognitive and physical skills that can be a considerable challenge. IT Mouse Skills provides a range of carefully graduated activities for someone who is beginning to use a mouse.



- *IT Mouse Skills* teaches the many applications of the mouse in an entertaining and visually appealing atmosphere.
- Takes the learner through the applications of the mouse, stage by stage.
- Move the mouse over an object, drag and drop, drag along a path and practice using drop down menus.
- Various clicking activities are included, such as clicking anywhere, click timing and double-clicking.
- Introductions to each activity are provided and the successful completion of a task is met with a range of pleasing rewards.
- Many activities within *IT Mouse Skills* are configurable to suit the needs of the learner. Adjust the difficulty level and change the background for high contrast; ideal for low vision. Customise the colours and sound effects too.
- Setups will be remembered when restarting the program.
- The Macintosh version requires MacOS 8.6+.

1041	Win/Mac CD-Rom	£49

Dolphin SuperNova – for every visual impairment

SuperNova is the ultimate screen access software, distinctive in offering a screen magnifier, a screen reader as well as support for Braille displays. Available in four editions, SuperNova empowers anyone with a visual impairment to independently access their computer for work, in education or simply for fun.

NEW

SuperNova Magnifier

One click and everything on screen is instantly magnified, effortlessly clear and always easy to see, thanks to SuperNova's unique True Font technology. Magnify as little or as much as you need, zoom in for crystal clear detail or simple enlarge and enlarge as your sight changes. Perfect for people who are partially sighted or have low vision.

1875	Magnifier Windows CD-Rom	£295
6361	Magnifier Pen Edition PC	£360

SuperNova Screen Reader

Developed for blind computer users, SuperNova Screen Reader is a software screen reader that works by reading the screen interactively and communicating through a speech synthesiser or a refreshable Braille display. SuperNova Screen Reader has been developed for computer users who are blind and can be used at home, at work and in education.

1872	Screen Reader Windows CD-Rom	£595
1874	Screen Reader Pen Edition PC	£660

SuperNova Reader Magnifier

Offering all the benefits of a screen magnifier, SuperNova Reader Magnifier also offers added speech output to provide extra support for partially sighted computer users. SuperNova Reader Magnifier is ideal for people with low vision or deteriorating sight, at home, at work and in education.

1878	Reader Magnifier Windows CD-Rom	£395
6360	Reader Magnifier Pen Edition PC	£460

SuperNova Access Suite

A full screen reader offering magnification, speech and Braille support, giving people with visual impairment the freedom to access Windows in the way that suits them best. It is ideal for both individual users, who experience varying or deteriorating eye conditions during a working day or for institutional settings, such as in school or work, that need to provide solutions for visually impaired groups with a range of sight difficulties.

1869	Access Suite Windows CD-Rom	£835
3352	Access Suite Pen Edition PC	£900

Accredited Trainer v13 DOLPHIN

Inclusive Technology are proud to be a Dolphin Accredited Trainer. Contact our Information Team on ***01457 819790*** *and discover other ways to get more from your Dolphin SuperNova software.*

Developing Keyboard Skills

Whether a child uses a physical keyboard or an on-screen version, it helps if they know their way around the keys. The software on this page is specifically designed to develop their skills. Our brightly coloured keyboards with simple layouts will help - see the Jumbo XL II keyboard on ***page 70****. It uses bright green for consonants, purple for vowels and yellow for punctuation keys.*

Touch Type 2

This typing tutor works at your own pace. See the letter, hear it, then type it. A full on-screen picture of the keyboard teaches the home keys first, then introduces the others through a range of exercises. The program also includes a monitoring system to show where you need practice. *Touch Type 2* is suitable for all ages and is adaptable for special needs. The program speaks the next letter to be typed and has the option of changing the font, font size and font colour - suitable for visually impaired users.

0185	Win/Mac CD-Rom	£39

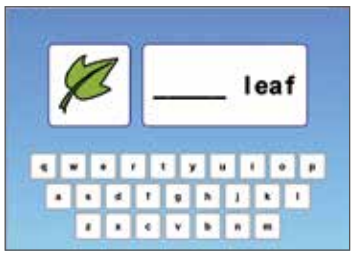
For further multiple user options, see www.inclusive.co.uk

Five Finger Typist

A complete set of typing lessons for both the right and left hand. It teaches the keyboarding technique for single handed touch typing on the QWERTY keyboard. Users learn the home position, then complete exercises which introduce new keys and revise keys already learned. The application remembers the last lesson worked on in a user's document file.
Lessons are graded, starting with simple exercises. An animated hand graphic on the screen shows the correct hand movement as keys are typed.

0597	Win/Mac CD-Rom	£51

First Keys 3



First Keys 3 is the latest version of the popular *First Keys* program. A friendly introduction to the keyboard that uses speech, phonics and Widgit symbols in colourful and engaging missing letter exercises to teach literacy skills. An array of exercises stimulate interest and develop vocabulary as well as keyboard awareness. Make spelling exercises to support literacy activities, curriculum topics or personalised learning.

4375	Windows CD-Rom	£59
4376	5 user copy	£139
4377	10 user copy	£199

For further multiple user options, see www.inclusive.co.uk

Nessy Fingers

This touch typing program also helps children improve their spelling skills. Nine fantastic games using real words and sentences provide all the motivation needed! Explore the land of Ness and battle dragons and ghosts. Crush Rocky under a giant snowball. Score goals against the boss gorilla or win trophies in the hall of fame. The key positions are taught in the sequence of the alphabet. Set personal speed and accuracy targets. Configurable, with nine levels of difficulty.

3168	Windows CD-Rom (home user)	£17
2167	5 user CD-Rom (network)	£75

Neo2 by AlphaSmart

Neo is still the best digital notebook or writing tool to be used in the classroom, across all ages and abilities. It enables schools to get more ICT for their money, as well as get better use from the ICT that is already within the school. Neo2 is robust and as easy to use as Neo and still has the same wonderfully long battery life of over 700 hours from just 3 x AA batteries.

- Incorporating wireless technology from AlphaSmart's successful Classroom Response System (CRS), Neo2 enables teachers to use a suite of Neo2's as a classroom voting and assessment system. Get instant feedback with the *2Know!* voting software or use *Acceltest* to design tests and quizzes that are, once downloaded and completed on a student's Neo2, marked and graded automatically. Both systems include a short answer feature that is unique to Neo2.
- Transfer text wirelessly to *Neo Share*, the interactive whiteboard text portal, or to a GoogleDocs account.
- Print wirelessly to your computer's default printer.
- Neo2 works with *Co:Writer* and Text2Speech to create a low cost but powerful writing aid. The new Text2Speech device and Neo's built-in *SmartApplet* software let you convert any written text into spoken words. With this simple and affordable add-on device for Neo1 and Neo2, you can enable students of all abilities to expand their learning experience through text to speech. As you enter text into your Neo2, it is passed wirelessly to the Text2Speech box and read out either through headphones or speakers. Text2Speech also supports the *Co:Writer SmartApplet*.

3165	Neo2	£139
3166	Neo2 Class Set (5 units)	£649
3804	Neo2 with Neo2 Receiver	£169
3805	Neo2 Receiver	£99

Co:Writer for Neo

Add the power of word prediction to your Neo or Neo2!

An ideal portable solution for those struggling with pen and paper tasks. *Co:Writer for Neo* can reduce the keystrokes required by up to 80%. Its high quality word prediction helps struggling writers construct complete, grammatically correct sentences. Includes a 6,000 root word dictionary. Over 200 supplied topic dictionaries help students use appropriate topic specific words when writing on any subject. By using *Co:Writer 6* (page 50), new topic dictionaries can be created in seconds from any text or website. Fully compatible with the new Text2Speech unit. Users can have word predictions read aloud to help them select the word they want.

- Identifies and defines common confusables, e.g. rain, rein and reign.

1047	Oxford Primary Dictionary & Thesaurus	£30

Reading Pen Oxford Edition

This amazing little device has been revised and will now scan a word or a whole line from printed text and then display it in large characters. It will read the word to you and then show or read a definition from the Oxford Concise Dictionary. It will also read the definition. And if you are left handed it flips its display over. Now with an English voice, simpler menu operation and enhanced scanning. You can also lock the dictionary access for use in tests. It will display syllables, spell words letter by letter, read reversed out words - even words split between two lines! The Reading Pen has adjustable speech volume, speed and pitch. And it is smaller, handier and with more street cred than the equivalent dictionary! Batteries included.

0603	Reading Pen Oxford Edition	£175

Reading Pen Oxford TS

Reads words and definitions aloud giving users the independence to read on their own. It scans single words or full lines of text and displays the selected word in a large font for clearer viewing. It displays definitions of the scanned text on the LCD screen. It can also spell out scanned words, highlighting individual letters. The Reading Pen reads text in a English voice using the built-in speaker or earphones. Recognises over 240,000 words and you can look up idioms/ phrases. Recognises a wide range of printed font types and sizes (6-22 points).

4422	Reading Pen Oxford TS	£199

Large Keyboards

Helpikeys

Helpikeys is a programmable membrane keyboard which replaces the traditional keyboard and mouse.
It is supplied with five standard overlays which are recognised by the keyboard when inserted under the protective membrane. As a programmable alternative keyboard, Helpikeys can be changed by using one of these five standard overlays, or by using the Helpikeys *Layout Builder* software (included) that allows you to design and print your own keyboard and mouse layouts. The keyboard can memorise five customised layouts in its own memory so your custom layouts can be used on any computer.

NEW

The additional configuration settings layout allows you to personalise the response rate, the repeat rate and other keyboard characteristics.
It also includes a programmable five switch interface that can be used for mouse control.

Key features

- Dimensions: 460mm x 370mm x 25mm.
- Five standard layouts included with a configuration layout for configuring the device.
- *Layout Builder* software to design and edit custom overlays.
- USB and PS2 cable.
- Suitable for MS Windows XP, MS Vista and Windows 7 64-bit operating systems.
- User guide and removable stand included.
- Keyguards available, see **www.inclusive.co.uk**

6328	Helpikeys Keyboard	£395

Kid Glove and Keyboard

This keyboard glove has lowercase stickers on the inside and comes with a keyboard which it fits like a glove! The high contrast gloves are helpful for people with a visual impairment. Available in lower or uppercase and a variety of colours - see **www.inclusive.co.uk**

n/a	Kid Glove and Keyboard	£43

Clear Keyboard Glove

Whatever your keyboard, we have the glove to fit! We have gloves for over 2,000 keyboards. Simply place an order and we will send a form for you to fill in to make sure you get the correct glove.

0329	Clear Keyboard Glove	£18

ALTERNATIVE MICE

The standard computer mouse or laptop touch pad can be a real barrier, making it difficult for people with motor control problems to use a computer. To help, we have brought together a wide selection of alternatives that can be used to replace a standard mouse.

These include rollerballs and joysticks in a variety of sizes, with some offering advanced features such as speed control and double-click buttons. Remote operation is provided for by a selection of head movement sensing devices and a switch control interface.

SMALLtrack

The SMALLtrack is a simple rollerball ideal for small hands.It is perfect for young children learning cursor control, with a bright contrasting rollerball and colourful left and right buttons.

5692	SMALLtrack USB	£29

BIGtrack

Originally designed for children, this BIG trackerball has many features that make it ideal for users who don't have the fine motor skills required by a mouse. BIGtrack doesn't require control with the fingertips - a swipe at the ball and at the buttons works just as well.

BIGtrack has these great features:

- Simple to set up.
- The design is suitable for the desktop or your lap.
- There is no need for fine motor skills to operate BIGtrack.
- Two big mouse buttons.
- High contrast colours.

BIGtrack has left and right mouse click buttons located behind the trackerball to help prevent unwanted clicks. BIGtrack also allows for a second mouse to be connected simultaneously. Works on any Windows or Macintosh computer that has a USB or PS2 port.

Also available with two standard 3.5mm switch sockets, allowing switch access to the left click and right click functions. Plastic guard available. See website for full details.

0348	BIGtrack USB/PS2	£60
0349	BIGtrack with switch sockets USB/PS2	£89
5111	BIGtrack Plastic Guard	£39

PC Max KidTRAC

A large, sturdy, affordable, three button trackerball which is 100% Microsoft mouse compatible. Easy to use: just plug in and go! The low profile case acts as a natural hand rest and minimises the wrist angle by mirroring the natural contour of the hand.

Includes a drag lock feature - simply press the drag button and the button stays locked until you press a second time. Supplied with USB connector. For PC only.

0581	PC Max KidTRAC USB	£75

Inclusive Max KidTRAC

Like the PC Max KidTRAC but with switch sockets! The jacks allow switch operation of the blue, red and green (drag lock) buttons. We can supply coloured switches to match the buttons (those pictured are not included). Inclusive Max KidTRAC is great for operating switch software that allows mouse clicks for switch input.

0583	Inclusive Max KidTRAC USB	£89

MaxTRAC Pro

This is a similar product to the PC Max KidTRAC, but in age neutral grey and now in black. Please specify colour required when ordering.

n/a	MaxTRAC Pro USB	£75

OPTIMAX Wireless Joystick

A unique wireless joystick, ideal for users with motor skills difficulties.

WIRELESS

- Three different handles included.
- Interference free operating range exceeding 10 metres.
- Responds to the lightest touch.
- Ideal for use in group sessions or classroom settings.
- Receiver unit with two additional sockets.
- Precise tracking and cursor control.
- Four cursor speed settings.
- Audible alert for speed setting.
- Low profile provides a natural hand rest for comfortable operation.
- Large footprint for stability.
- Sockets allow the left/right click buttons to be operated using your own switches.
- Left/right and drag lock buttons.
- Colour coded buttons mounted sub-flush to prevent accidental activation.
- Easy plug and play installation.
- OPTIMAX Wireless Joystick is PC and Mac compatible.

3171	OPTIMAX Wireless Joystick	£235

OPTIMAX Wireless Rollerball

WIRELESS

OPTIMAX is the very first wireless trackerball specifically designed for users with motor skills difficulties. With an operating range in excess of 10 metres, it is ideal for use with groups or in the classroom to ensure that everyone can join in.
Lightweight and robustly constructed, OPTIMAX can be used as either a desktop or hand held unit. Optical technology ensures precise cursor control and silky smooth ball movement, and the bi-directional radio link provides interference free operation.

- Two additional sockets for switches.
- Precise tracking and cursor control.
- Large free running ball requiring only the lightest touch.
- Provides a natural hand rest.
- Left/right and drag lock buttons.
- Colour coded buttons mounted sub-flush to prevent accidental operation.
- Trackerball sockets to operate left/right click buttons from remote switches.
- Easy plug and play installation and auto detecting PS2 and USB protocols.
- PC and Mac compatible.
- Up to 6 months battery life.

2784	OPTIMAX Wireless Rollerball	£159

J-Pad Joystick for iPad

A unique, highly intuitive joystick interface providing comprehensive switch access to all iPad functions including Apps, music and media, iBooks, still and video photography, on-screen keyboard entry and much more. Connecting wirelessly to the iPad using bluetooth 2.1, J-Pad is simple to set-up and easy to use. Includes optional touch sensitive buttons to launch and close Apps and also provides two 3.5mm sockets to connect up to two wired switches (switches not included). Works with all iPads, iPod Touch and iPhones. Not all Apps support switch scanning - the J-Pad is compatible with Apps using space and enter, ~1 and ~3 or voiceover to allow scanning within the App. Please Note: J-Pad is for switch access only and will not act in the same way as a mouse

6302	J-Pad Joystick for iPad	£169

Orbitrack

Control the direction and speed of the cursor with a single, soft touch. Orbitrack uses a 50mm control ring to manage cursor movement for precise targeting. Unlike a mouse, trackerball or joystick, no hand or wrist movement is necessary, and unlike a touch pad, the cursor does not have to be driven around the screen by constant finger movement.

- Sealed against the ingress of fluids.
- Ergonomic design.
- Symmetrical - use it with either hand.
- Soft touch, colour coded buttons (left/right click, drag lock and double-click).
- Four speed settings.
- Your personal settings are stored in memory and will be retrieved each time the computer is powered up.

2296	Orbitrack USB/PS2	£159

OPTIMA Joystick

OPTIMA Joystick responds to the lightest touch for accurate navigation and precise targeting of objects on the computer screen. Three different handles included.

- Colour coded buttons mounted sub-flush to prevent accidental activation.
- Sockets to operate left/right click buttons from remote switches.
- Four cursor speed settings.
- Audible alert for speed setting.
- Provides a natural hand rest.
- Left/right and drag lock buttons.
- Easy plug and play installation.
- OPTIMA Joystick is PC and Mac compatible.
- Two year manufacturer's warranty.

3170	OPTIMA Joystick USB/PS2	£175

OPTIMA Rollerball

The OPTIMA Rollerball uses durable, optical technology for precise tracking and control of the cursor. A silky smooth ball movement and large footprint for stability make the OPTIMA Rollerball ideal for a wide range of computer users.

- Optical technology with no mechanical wearing parts.
- Precise tracking and cursor control.
- Free running ball requiring only the lightest touch.
- Large footprint for stable operation.
- Colour coded buttons mounted sub-flush to prevent accidental activation.
- Auto detecting PS2 and USB protocols.
- OPTIMA Rollerball is PC and Mac compatible.

2294	OPTIMA Rollerball USB/PS2	£109

Roller II (USB & PS2)

The popular and robust Traxsys Roller has coloured buttons to make it easier to see which one to press. The removable guard helps prevent inadvertent button pressing. The roller has three switch sockets to allow switch operation of the buttons. USB connector with PS2 adaptor. (Switches not included.)

0817	Roller II USB/PS2	£109

Roller Joystick II (USB & PS2)

The joystick version of the Roller II from Traxsys has colour coded buttons that match the three new switch sockets. It comes with a USB connector and a PS2 adaptor for users without a USB port. Additional handles (the Soft Knob and T-bar) are supplied **FREE** by Inclusive Technology.

0818	Roller Joystick II USB/PS2	£189

n-ABLER Rollerball

PRICE DROP!

The n-ABLER Rollerball is especially suitable for improving access for children and young people with some special educational needs, learning difficulties, for those whose work entails long periods of computer use and for older people and others with movement impairment.
The large, high mass, free running ball requires only a light touch which, together with the function buttons, makes for easy navigation, selection and manipulation of objects on the computer screen.
The n-ABLER Rollerball emulates a computer mouse, but with fingertip control and the need for only minimal hand movement, it reduces wrist and elbow fatigue and requires far less effort and is less tiring. The symmetrical design enables users to work with either hand without having to angle the wrist, and the unit can also be configured for left handed operation. Its large, integrated hand support/palm rest makes work posture more relaxed and less strained.

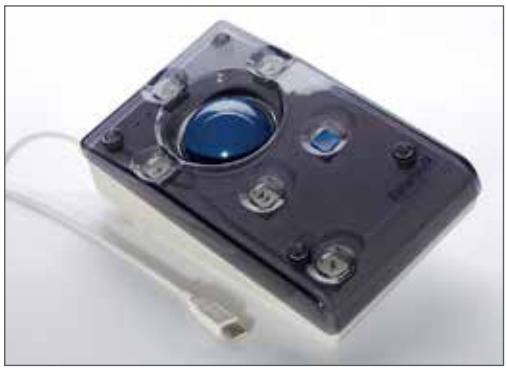
1678	n-ABLER Rollerball USB/PS2	£195

n-ABLER Joystick

The n-ABLER Joystick is especially suitable for improving access for children and young people with some special educational needs, learing difficulties, for those whose work entails long periods of computer use and for older people and others with movement impairment.
The joystick requires only a light touch which, together with the function buttons, makes for easy navigation, selection and manipulation of objects on the computer screen.
The n-ABLER Joystick emulates a computer mouse but, with fingertip control and the need for only minimal hand movement, reduces wrist and elbow fatigue, requires far less effort and is less tiring. The symmetrical design enables users to work with either hand without having to angle the wrist, and the unit can also be configured for left handed operation. Its large, integrated hand support/palm rest makes work posture more relaxed and less strained.

1679	n-ABLER Joystick USB/PS2	£249

Roller Plus



A robust trackerball with extra functions, useful where the user has significant physical disabilities. The guard avoids unwanted presses but is removable if not required. Screw holes beneath allow easy fixing to a surface or wheelchair tray. There are separate buttons to emulate click, right click and double-click, latching drag as on the Roller and pointer speed control. Another button allows only up and down or left and right movements of the pointer, making it easier to navigate through menus or even draw straight lines. The buttons can be replaced by switches.

0819	Roller Plus USB/PS2	£275

Roller Plus Joystick

Some users with physical difficulties may find it easier to control a joystick than a ball. All the same functionality as the Roller Plus. The buttons can be operated by switches. Additional handles (the Soft Knob and T-bar) are supplied **FREE** by Inclusive Technology.

0820	Roller Plus Joystick USB/PS2	£295

n-ABLER Pro Range

The n-ABLER Pro Joystick and n-ABLER Pro Rollerball are specifically designed for computer users with limited hand control, motor skill difficulties, poor hand eye coordination, limited manual dexterity, involuntary muscle spasms and hand or wrist tremors. They are a great alternative to a standard computer mouse emulator however, with fingertip control requiring only minimal hand movement, can reduce wrist and elbow fatigue.

NEW

The symmetrical design of the range allows users to work with either hand without angling the wrist and the units can also be configured for left handed operation. A large, integrated hand/palm rest makes work posture more relaxed, reducing strain and tension. The n-ABLER Pro Joystick and n-ABLER Pro Rollerball are particularly suitable for all age groups with motor skill difficulties and for those whose work requires long periods at the computer. The anti-tremor facility can be invaluable for anyone suffering with tremors or involuntary muscle spasms and for older people with movement impairment.

Key features

- Tough, ergonomic design with a large footprint for maximum stability.
- Pan button to allow easy navigation of documents.
- Symmetrical design for use with either hand, with integral wrist support to minimise fatigue.
- Light touch joystick for easy navigation. Includes soft ball and T-bar handles for alternative joystick grips.
- All buttons have white legends on black backgrounds for easy identification of button functions.
- Switchable left and right click buttons plus double-click and latching drag lock buttons.
- Audible (switchable to mute) and visual warnings indicating selection or change of function.

Rollerball

Joystick

- Anti-tremor button (with three settings to compensate for the degree of tremor) to improve cursor control. Cursor speed can also be controlled.
- Easy plug and play installation (no additional drivers required).

6051	n-ABLER Pro Rollerball USB	£219
6052	n-ABLER Pro Joystick USB	£269

Glidepoint Touchpads USB

Cirque's Glidepoint Touchpads allow you to simply glide your finger over the touchpad surface and gently tap (or click the buttons) to perform all input functions. With three categories of desktop touchpads to choose from there is a solution to fit your digital lifestyle.

3873	Easy Cat Glidepoint Touchpad	£26
3874	Smart Cat Glidepoint Touchpad	£39
3875	Smart Cat PRO Glidepoint Touchpad	£49

Marble Mouse USB/PS2

Unmatched precision with Marble optical technology. Comfortable design for right or left hand.

- Two additional buttons for easy scrolling.
- Fits like a mouse, works like a trackerball.
- Accurate and precise optical technology.
- No need for regular cleaning.
- USB and PS2 connection: works on PC and Mac.
- Three year guarantee.

3306	Marble Mouse USB/PS2	£32

BJOY Range

Introducing the BJOY range of customisable large joystick and thumb mice accessible with minimal strength.

NEW

JoyStick-C

The JoyStick-C is an alternative mouse with a sturdy design and full range of configuration options, allowing the user to set it up according to their individual needs and capabilities. Especially designed for people with impaired motor skills.

Key features

- Four large accessible coloured buttons for easy selection and different mouse clicks.
- A plastic keyguard for the buttons is included. The guard is easily removed if not required.
- Each button can perform the following actions: left click, right click, drag and drop, double-click or nothing.
- Customisable covers and labels for the buttons.
- Four switch sockets for external 3.5mm switch access (switches not included).
- This is a plug and play device which is compatible with Mac and PC USB connections.
- Speed independent from the action performed on the joystick.
- Sturdy and non-slip during use.
- Dimensions: 29cm x 22cm x 16cm.

6217	JoyStick-C USB	£340

JoyStick-C-Lite

The JoyStick-C-Lite is smaller version of the JoyStick-C alternative mouse. It has one big accessible button and four switch inputs. The user can set it up according to their individual needs and capabilities. Especially designed for people with impaired motor skills.

Key features

- One large accessible button for easy selection.
- Customisable covers and labels for the button.
- Use switch sockets to customise click actions: left click, right click, drag and drop, double-click or nothing.
- Four switch sockets for external 3.5mm switch access (switches not included).
- This is a plug and Play device which is compatible with Mac and PC USB connections.
- Speed independent from the action performed on the joystick.
- Sturdy and non-slip during use.
- Dimensions: 15cm x 21cm x 15cm.

6218	JoyStick-C-Lite USB	£185

Thumb Mouse

Thumb Mouse allows you to control your computer with minimal movement of your thumb or fingers. Comfortable and ergonomic use with one hand. Can be tailored to each user's needs and capabilities and it's operation customised using the configuration software as detailed below.

Key features

- Access your computer in a simple and accessible way.
- Personalise your mouse so it meets your needs.
- Plug and play devices, compatible with Windows, Mac OS and Linux.
- Use the configuration software to modify each buttons' function, speed, orientation etc.
- Settings adjusted with the software are stored in the device so you can take them with you wherever you go!

The Thumb Mouse-A is a very sensitive analogue joystick.

6219	Thumb Mouse-A Joystick	£155

The Thumb Mouse-C is a very sensitive microswitch joystick.

6220	Thumb Mouse-C Micro Switch Joystick	£155

Use the configuration software included to:

Adjust the speed, sensitivity, acceleration and auditory feedback. Orientate the device easily so you can adjust it to the user's position. Determine the time needed for a button press to be considered valid. Configure the drag and drop function as a long press on the button you select. Configure the joystick directions to simplify access for people with inaccurate movements.

Moozi

- A low profile switch joystick for children and adults.
- Moozi's flat base is just 2cm high, so the user can hold their hand in a natural and comfortable position, making control easier and reducing arm strain and fatigue.
- It has a smooth, light sliding action so, with the right choice of handle, even young children soon use it with ease.
- Moozi can be used to drive a wheelchair with Dynamic DX Masterswitch controls.
- Using an appropriate adaptor it can also operate other switch operated devices, including PC mouse functions.
- Moozi is simple to position on a tray or table top, using Velcro® or an alternative.
- Available in red, blue or black with gun metal grey base and knob.
- Available with a variety of interchangeable knobs - Bug, Knobbly, Mushroom and Knob T.
- Moozi assesment kits available.

See www.inclusive.co.uk for prices or call 01457 819790.

IntegraMouse Plus

Expand your possibilities with the new function of the IntegraMouse Plus! It is a fully functional mouth operated computer mouse. It has all the features of the original IntegraMouse and much more, including wireless connectivity and a stylish design. It performs all the functions of a standard PC mouse such as left click and right click and drag and drop, as well as performing as joystick controls and the arrow keys of keyboard make it ideal for gaming. It now includes the escape function for all modes (mouse, joystick and cursor).
The user may now independently activate the escape function (e.g. for media player or computer games) through an easy sip and puff combination. The IntegraMouse Plus software has been improved along with the physical performance and control.

Key features

- Plug and play.
- Supports PC, Apple OS and Linux OS platforms.
- Wireless and USB connectivity.

Please note that if you require a mounting solution, you will need to purchase this separately. You can search our website or telephone/email us for further information.

5725	IntegraMouse Plus	£1,595

SmartNav 4

NaturalPoint's SmartNav is an alternative to the standard mouse, allowing hands free control of the computer cursor. The user can easily move the cursor around the screen using subtle head movements, by wearing a reflective dot on their forehead. Mouse clicking can be accomplished through a built-in dwell clicking program (AT version) or external switches (AT and EG version).

SmartNav 4 EG

The SmartNav 4 EG is the best solution available for carpal tunnel syndrome, tendonitis, repetitive strain injury and other wrist strain related problems. The EG package includes industry standard input switch supports and original software features.

3488	SmartNav 4 EG	£250

SmartNav 4 AT

The SmartNav 4 AT package includes industry standard switch supports, dwell-clicking software and an on-screen keyboard, allowing for complete cursor control specifically for people with ALS, spinal cord injuries, muscular dystrophy and other special needs.

3489	SmartNav 4 AT	£300

EnPathia

NEW

Makes computer access simpler for people with reduced movement.

- Consists of a movement sensor that can be attached with a soft strap to any part of the body such as head, forearm or foot.
- Gentle, natural movements enable a user to move the cursor, click, drag and drop.
- A user can even write using an on-screen keyboard.
- EnPathia can be easily configured to suit the individual in terms of range of movement, speed and sensitivity.
- Use independently or with one or two input switches.
- Easily shared as each user can have their own customised profile.

5992	EnPathia	£230

Zygo Head Pointers

Zygo Head Pointers Now sold with NEW iPad tips!

Zygo Head Pointers provide efficient pointing from a psychologically and cosmetically sound perspective - the chin. Unlike forehead protrusion pointers, an out from the chin device allows closer proximity to the item being accessed and reduces the head movement needed to activate such a device. Doesn't interrupt either the wearer's field of vision or the full view of the wearer's face.

- **Standard model** - fully adjustable, capable of being individually fitted to head sizes from 20-25 inches in circumference.
- **Tiny Tot model** - as described above, but it is specially designed for small heads from 17-20 inches in circumference. The headband has a rear strap adjustment and the yoke assembly is sized for these smaller heads.
- **Rear Strap model** - this model's yoke assembly is standard size, but the rear knob adjustment portion of the standard model's headband has been replaced with a hook and loop strap closure. This is particularly useful when the wearer is seated against any headrest mechanism, where the standard model's knob would cause discomfort. This model also accommodates adult wearers with slightly smaller than average head sizes, for which the overall yoke size reduction of the Tiny Tot model is inappropriate.

See www.inclusive.co.uk for user image.

5224	Zygo Head Pointer (Standard)	£240
5225	Zygo Head Pointer (Tiny Tot)	£240
5226	Zygo Head Pointer (Rear Strap)	£240

it-Switch

WIRELESS

A new wireless switch with a unique low slanted profile. Gives good tactile feedback with no protruding base and can be operated with the slightest movement.

You can pair this switch to the following:

it-Receive - for computer access. Choose from a full range of options, e.g. Spacebar, F7 and F8 keys or left mouse click, quickly and easily with the LED menu on the switch.

Smooth Talker - for two switch message options (see page 102).

it-Click-On Plus - for mains device operation (see page 100).

it-Control - for battery operated toy control (see page 33).

- Large 125mm operating area.
- Choice of red, blue, green or yellow.
- 10 metre (32') operating range.
- Can be mounted using Big Switch Mounting Plate.
- Requires 2 x AAA batteries (included).

Please specify size and colour when ordering.
Available in red, yellow, green or blue.
Available in two sizes:
it-Switch Large - operating area 125mm.
it-Switch Small - operating area 75mm.

n/a	it-Switch Large	£55
n/a	it-Switch Small	£55

For computer access

it-Receive - a wireless receiver and computer interface. Simply plug the it-Receive into a USB socket and you can use up to six Simply Works devices on one computer.

4404	it-Receive	£39

Make your wired switches 'wireless'

it-Send - plug any switch with a 3.5mm jack into the it-Send and use it with any of the Simply Works receivers (it-Receive, Smooth Talker, it-Click-On Plus, it-Control) to make your wired switch 'wireless'. 10 metre operating range. Requires 2 x AAA batteries (included).

it-Send Pro - similar to the it-Send, but you can use up to six of your own wired switches. The it-Send Pro automatically sets up switch functions for you when used with it-Receive using the supplied software. You can also set your own custom settings. 10 metre operating range. Requires 2 x AA batteries (included).

it-Roll - a wireless rollerball ideal for those with motor skill difficulties. With an operating range in excess of 10 metres, it is ideal for use with groups or in the classroom to ensure that everyone can join in. Requires 9V PP3 battery (included).

it-Stick - 10 metre operating range. Left/right and drag lock buttons. Requires 9V PP3 battery (included).

4413	it-Send	£59
4414	it-Send Pro	£69
4412	it-Roll	£119
4415	it-Stick	£199

Big Beamer Twist

WIRELESS

- The Big Beamer wireless switch has a large 5" activation area.
- Four interchangeable tops included (red, green, yellow and blue).
- Beamers are paired with their own receiver, so multiple devices can be used in the same room at the same time.
- Effective range up to 9 metres.
- Transmitter and receiver require 2 x AA batteries each (included). Available with switch, latch and timer (SLAT).

4063	Big Beamer Twist	£105
4064	Big Beamer Twist with SLAT	£140

Jelly Beamer Twist

WIRELESS

- A wireless switch from AbleNet.
- Simply plug the receiver into a switch adapted device (battery toy, electrical appliance or IntelliKeys).
- Operate the device, wirelessly, from up to 9m away. You can use more than one without interference.
- Now includes four interchangeable twist tops. Change from red to green to yellow to blue within seconds.
- Transmitter and receiver each require 2 x AA batteries (included). Available with switch, latch and timer (SLAT).

4061	Jelly Beamer Twist	£105
4062	Jelly Beamer Twist with SLAT	£140

Smoothie Switch

This lovely, smooooth switch is new from Inclusive Technology. It's available in large and small sizes and four colours - red, green, blue or yellow. Based on our years of experience working with switch users, it has a low profile surface and is angled towards the learner to make it really easy for those with limited movement to press.

- Large - 125mm operating area.
- Small - 75mm operating area.
- Low operating force.
- With tactile feedback.
- Easily mounted via standard fixing holes.

n/a	Smoothie Switch Large	£25
4478	All 4 Large Smoothie Switches	£95
5727	Mounting Plate for Large Smoothie	£14
n/a	Smoothie Switch Small	£25
5726	All 4 Small Smoothie Switches	£95

Candy Corn Proximity Sensor Switch

NEW

New from AbleNet, the Candy Corn 3.5mm Proximity Sensor Switch is highly sensitive and requires zero pressure to activate. Just wave your hand or other part of your body within 10 millimetres of the switch to activate. Visual and auditory feedback when activated.

- Activation without physically touching the switch.
- Orange lights for visual cues.
- Beeping sound for auditory cues.
- Dimensions: 48mm x 51mm.

6123	Candy Corn Proximity Sensor Switch	£119

Buddy Button

- A reliable, durable, colourful switch.
- Auditory and tactile feedback.
- 63mm diameter. Cable length: 1.4m.
- Rubber foam base to prevent slipping and two threaded inserts for mounting.
- Big Buddy Button size: 115mm x 25mm.

3550	Buddy Button Black	£35
3551	Buddy Button Blue	£35
3552	Buddy Button Green	£35
3555	Buddy Button Red	£35
3557	Buddy Button Yellow	£35
3547	Big Buddy Button Red	£35
3549	Big Buddy Button Yellow	£35
4704	Buddy Button Mounting Plate	£29

AbleNet Twist Switches

- Now with interchangeable switch tops in red, blue, yellow and green.
- Responsive across the entire surface.
- Easily mounted with the flange base.
- Flexible - 6 foot lead, 3.5mm jack.
- Complete with audible feedback.
- Available in two sizes: Jelly Bean - 2.5" and Big Red - 5" activation surface, with tactile and auditory feedback.

4066	Jelly Bean Twist Switch	£30
4065	Big Red Twist Switch	£30

Specs Switch

A small switch of 36mm diameter. Includes a standard flange base, a space saving flush base and a strap for mounting onto objects or your wrist. Available in red, yellow, green, blue or black. See www.inclusive.co.uk for details.

n/a	Specs Switch	£27
2795	All 4 Specs Switches (not black)	£105

Adjustable Pressure Switch

- Twist the cap to adjust the operating pressure from light to firm.
- The large version has a 127mm activation area and fits the Big Switch Mounting Plate.
- A medium version is also available with a 64mm activation area. Fits the Jelly Bean Mounting Plate.
- Red, green, blue or yellow (please specify size and colour).

n/a	Medium Adjustable Pressure Switch	£33
0949	All 4 Medium Switches	£120
n/a	Large Adjustable Pressure Switch	£33
0570	All 4 Large Switches	£120

See www.inclusive.co.uk for all product codes.

Dome and Disc Switches

- Operated by the lightest touch anywhere on the upper surface.
- Auditory and tactile feedback.
- Large, bright surface area.
- Easily mounted using Velcro® and Mobilia system.
- Available in black, red, blue, green or yellow (please specify colour required).
- Dome Switch size: 90mm x 175mm diameter.
- Disc Switch size: 25mm x 175mm diameter.

n/a	Dome Switch	£59
n/a	Disc Switch	£59

See www.inclusive.co.uk for all product codes.

Piko Buttons

- Extremely durable small button switches available in two sizes, 30 and 50.
- Piko Button 30 Size: 13mm x 29mm.
- Piko Button 50 Size: 17mm x 49mm.
- Sensitive response with just 0.8mm activation travel.
- Auditory and tactile feedback.
- Supplied with a standard 3.5mm jack and 1.5m cable.
- Choose from red, green, blue, yellow, orange, white, black, gold and silver. Piko 50 available in transparent.

n/a	Piko Button 30	£49
n/a	Piko Button 50	£49

See www.inclusive.co.uk for all product codes.

Pal Pad Switches

- Light touch activation.
- Low profile - only 3mm thick yet rigid and durable.
- Ideal for users distracted by clicks.
- Red, green, blue, yellow and black (please specify size and colour required).

n/a	Mini Pal Pad (51mm x 51mm)	£30
n/a	Small Pal Pad (64mm x 102mm)	£33
n/a	Large Pal Pad (114mm x 152mm)	£36

See www.inclusive.co.uk for all product codes.

Micro Light Switch

- A small, extremely pressure sensitive lever action switch.
- Tactile feedback.
- Audible feedback.

1002	Micro Light Switch	£50
5114	Micro Light Switch Mounting Plate	£31

Lever Switch

Introducing a new Lever Switch from Inclusive!

- Low profile, lever action switch.
- Tactile feedback.
- Auditory feedback.
- Simple sensitivity adjustment.
- Standard and waterproof versions.
- Silver colour – supplied with primary coloured stickers.
- Dimensions: 40mm (W) x 74mm (D) x 9mm (H).

6316	Lever Switch Silver – Waterproof	£45
6317	Lever Switch Silver – Standard	£35

QED Adjustable Pressure Switch

- This switch has been developed to give the user the widest possible range of sensitivity.
- This has been achieved by using a range of air filled actuators (pressure pads) connected to an adjustable air pressure switch.
- Turning a knob on the end of the box finely adjusts the sensitivity.
- It is then possible to achieve actuation of the switch from the lightest application of weight or pressure, right through to the pressure pad being able to take the weight of a static limb, and then adjusted to achieve actuation from minimal exertion.
- All ranges in between are also easily accessible, offering one switch to be used by many people with differing needs, or to allow for varying efficiency in ability, perhaps in someone becoming progressively weaker.
- Having the ability to adjust the pressure is also useful in rehabilitation. The force required to gain a reward can be increased as the user becomes stronger.
- This switch is available in three actuator versions: pressure pad, head pad and squeeze ball.

5396	APS with Squeeze Ball	£168
5397	APS with Small Pressure Pad	£168
5398	APS with Head Pad	£168

Access Wobble Switch

PRICE DROP!

- Easily adapted for a variety of uses within an environment.
- Only requires a slight movement in any direction to activate.
- 3.5" tall lever ideal for those individuals with sweeping or erratic movements.
- Use adhesive hook and loop, UltraStik or an alternative to secure the Access Wobble Switch on to a mounting plate or range of surfaces.
- Ideal for users with cerebral palsy, where only gross movements may be possible.

5372	Access Wobble Switch	£69

Sound Operated Switch

- A portable, battery operated switch ideal for patients unable to use any form of mechanical switch, but who have speech or the ability to make clicking noises with their tongue.
- The sensitivity and the time the switch stays on can be adjusted.
- Supplied complete with microphone, battery and instructions.
- Audible feedback.
- Requires 1 x PP3/9V battery (included).

PRICE DROP!

5307	Sound Operated Switch	£179

Pillow Switch

This popular switch is smooth and soft - suitable for head or cheek activation.

- Operated by pressing the top covered foam surface.
- The switch pad is made from closed cell foam to provide a comfortable surface for activation.
- A safety pin and Velcro® patch are attached to the back of the switch for secure fastening to a pillow, clothing or wheelchair cushion.
- Tactile and auditory feedback.

0960	Pillow Switch	£75

Chin Switch

An easy to position chin switch with an innovative necklace design. Activate this convenient single switch by simply moving your head. The Chin Switch can be positioned anywhere around the neck with plastic tubing that can be cut to fit, just like a custom necklace. Multiple chin switches can be positioned around the same tube for users who need several access points.

- Gives comfortable support to clients where chin movement is their reliable means of access.
- Tactile and auditory feedback.
- Size: 51mm x 18mm (2" x 0.75").

5306	Chin Switch	£95

FingerButton 30

- Durable finger mounted switch.
- Ideal for individuals with minimal movement.
- Extra sensitive with 0.8mm activation travel.
- Supplied with standard 3.5mm mono jack and 1.5m cable.

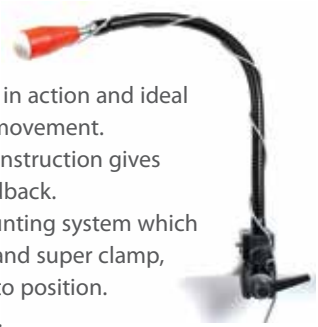
5280	FingerButton 30	£109

Mini Cup Switch

- Very small switch for people with good targeting ability.
- Comes with coloured stickers making it very useful for multiple switch applications.
- Easily mounted using Velcro® etc.
- Ideal for mounting as a head or chin switch and in applications where a discreet switch is an advantage.
- Tactile and audible feedback.

4778	Mini Cup Switch	£45

Ping Pong Switch



- This innovative switch is light in action and ideal for individuals with minimal movement.
- The unique ping pong ball construction gives clear auditory and tactile feedback.
- Supplied with a versatile mounting system which consists of a gooseneck arm and super clamp, this switch is extremely easy to position.
- Ideal for use as a head switch.

5362	Ping Pong Switch Bundle	£295

Grasp Switch

- A single switch that can be held in the palm of the hand and actuated by squeezing the 1" diameter rubber hand grip.
- No tactile or audible feedback.

0999	Grasp Switch	£85

SCATIR Switch

This switch is ideal for users who have minimal movement, where control of very small muscle groups is their only way of activating a switch. The self calibrating auditory tone infra-red (SCATIR) switch is a momentary contact optical switch with auditory feedback.

- Operates by detecting a beam of reflected infra-red light.
- Suitable for small controlled movements/gestures such as eye blink, eyebrow movement, finger movement, head movement and facial muscle movement.
- The switch can be used at a distance from the sensor, making positioning and mounting easier.
- Auditory feedback can be switched on or off.
- Rechargeable - charger supplied.

See www.inclusive.co.uk for full details of options.

5001	SCATIR Switch with Eyeglass Mount	£415
5014	SCATIR Switch Deluxe	£460
5565	SCATIR Switch with Sensor	£390

Access Switch

- Built-in, screw-on switch cap; no more lost overlay caps!
- Fitted with 1.4m of cable and a standard 3.5mm jack plug.
- Available in Blue, Green, Red or Yellow.
- Small - 32mm x 11mm; overlays up to 1mm thick.
- Medium - 65mm x 23mm; overlays up to 2mm thick.

n/a	Access Switch Small	£19
n/a	Access Switch Medium	£19

Please specify colour and size when ordering.

Tilt Switch

- A very small and useful switch that comes with Velcro® fitted and a Velstrap headband, making it easy to position on a child or adult's head.
- The switch is operated by being tilted forwards or backwards through a few degrees, which makes it appropriate for users with very little movement.
- It can be used with any switch operated device.
- No tactile or audible feedback.

This switch is very useful when used with a bleeper (see website) to remind children who slump forward when seated to lift their heads.

5138	Tilt Switch	£47

Deciding on which input switch, how many and where those switches should be positioned for an individual is a very important step in the process of assessment. Reliable and comfortable switch access can indeed have a dramatic effect on how much progress the person can achieve.

Switch Kit

Dome & Disc Switches

Inclusive are therefore proud to offer a Switch Kit that provides a functional resource for this purpose.

- This kit provides a comprehensive range of switches for a wide spectrum of needs.
- Supplied with a quality custom made carry case at a substantially reduced cost.

Lever Switch

- Mini Cup Switch.
- Joggle Switch (Large).
- Micro Light Switch.
- Pillow Switch.
- Grasp Switch.
- PikoButton 50.
- FingerButton 30.
- Tilt Switch.
- Ping Pong Switch.
- Candy Corn Proximity Sensor Switch.
- Adjustable Pressure Switch with Pressure Pad plus Squeeze Ball.
- Switch Reaction Tester.
- Reusable Adhesive.
- Sample of Adhesive Hook & Loop.
- Supplied in Custom made Case.

Smoothie Switches

Mini Cup Switches

5281	Switch Kit	£1,295

Save money by pairing this Switch Kit with our Mounting Solutions Kit for the ultimate in assessment tools! *See page 90.*

Universal Switch Mountings

- Fix switches to surfaces like table edges. Each extends to 51cm and holds up to 2kg.
- We recommend the VFA version (pictured with the yellow switch) in most situations.
- Each requires a mounting plate (see below). Includes clamp.

0404	Magic Arm	£119
0405	Variable Friction Arm	£119

Lightweight Switch Mounting

- A lighter duty but less expensive mount. Includes clamp.
- Requires a mounting plate (see below).

0406	Lightweight Switch Mounting	£69

Short Arm Switch Mounting

- A short version (152mm) of the Lightweight Switch Mounting. Clamp included.
- Requires a mounting plate (see below).

0409	Short Arm Switch Mounting	£69

Gooseneck Switch Mounting

- Very heavy duty and stable. Includes clamp.
- Requires a mounting plate (see below).

0407	Gooseneck Switch Mounting	£69

Mounting Plates

0364	Big Switch Mounting Plate	£14
0130	Jelly Bean Mounting Plate	£14
0129	Specs Switch/Ribbon Mounting Plate	£14
0365	Rectangular Plate 279mm x 114mm	£14
0366	Rectangular Plate 203mm x 114mm	£14
0367	Camera Mounting Bracket	£12

Cling! products use powerful suction to produce a super-strong hold on any flat surface. With a simple push, Cling! stays where you want it. When it's time to move, simply lift any corner. Cling! releases its hold with no leftover residue. Cling! products include Velcro pads.

Cling! Plate

Perfect for fixing switches and small devices in any flat position.

5215	Cling! Plate	£34

Cling! Arm

Add a small rotating arm that can be fixed in any position within a half sphere range.

5095	Cling! Arm	£82

Cling! Evaluation Kit

Includes the Plate and Arm, along with interchangeable surface plates for mounting a variety of devices.

5356	Cling! Evaluation Kit	£110

Maxess Mounting System

- Switches can be securely positioned and repositioned with these trays and mounts - ideal for the individual or assessment situations.
- Mounts allow switches to be positioned at 55º or 85º. Hook and loop fixing pack for one switch included.
- Wires are neatly tidied away.
- Cushioned for comfort, the Switch Tray holds switches or mounts securely.

Maxess Switch Trays

0764	Switch Tray 540mm x 290mm	£40
1527	Switch Tray 350mm x 350mm	£35
1528	Switch Tray 240mm x 360mm	£30

Maxess Switch Mounts

0765	Small Switch Mount	£16
0766	Medium Switch Mount	£18
0767	Large Switch Mount	£21

Flexzi Switch Mounts

- The simple, light and economic way to position switches and other lightweight devices.
- Developed in response to requests from therapists, users, carers and teachers, the MERU Flexzi is easy to position at any angle and in a wide variety of shapes.
- Easily attached to a chair, table or tray.
- Use for switches, mobile phones, communication aids and more.
- Supplied with a VELCRO® top and a choice of VELCRO® or Super Clamp Base. Wires can often be threaded through the tubing on the VELCRO® base model.

Flexzi comes in three standard lengths:

Small - 15cm with weight bearing capacity of 2.5kg to 3.2kg.
Medium - 30cm with weight bearing capacity of 0.78kg to 0.95kg.
Large - 45cm with weight bearing capacity of 0.42kg to 0.68kg.

4994	Flexzi Clamp Base Small Bundle	£65
4993	Flexzi Clamp Base Medium Bundle	£75
4992	Flexzi Clamp Base Large Bundle	£85

More sizes and options available, see www.inclusive.co.uk

Splatz Switch Mount

Non-slip switch holders. Unique mounts designed specifically for the Jelly Bean and Buddy Button range of switches. Versatile and fun, Splatz provides a useful addition to your desk, table or wheelchair tray. Keeps your switches in place whilst enabling improved access. Totally portable and washable too. Choose from blue, red, green or yellow.

Save money by pairing this Mounting Solutions Kit with our Switch Kit for the ultimate in assessment tools! *See page 87.*

Mobilia Mounting Solutions from Inclusive

A flexible range that allows you to easily assemble a mounting solution to your specific requirements. Simply choose a base, add the poles and connectors of your choice and mounting connector or mounting plate for your device. We also have some pre-assembled solutions available. If you require any assistance or further information please call ***01457 819790.***

Floor Stand

- A high quality stand designed to hold a selection of single items from the Mobilia range.
- It is stable and manufactured with a large flat base plate, making it easy for wheelchairs etc. to get close to the stand.
- Originally conceived to hold the mirror with a long gooseneck in place, but is a useful, portable stand for holding drinking systems, ashcatchers and other items.

5521	Floor Stand	£146

Table Top Stand

- High quality (free standing) Mobilia stand, designed for use on any table surface.
- Stable and stylish, the low profile base makes this stand discreet and adaptable.
- Insert any 10mm Mobilia pole into the centre to support an ECU, switch, mobile phone or alternative.
- Supplied with non-slip rubber feet.

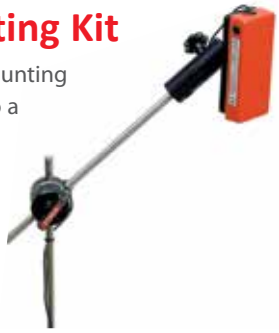
5300	Table Top Stand	£44

Edge Clamp

- This clamp is designed to be fixed to a table, work surface or bed frame.
- Available in two sizes - Large Edge Clamp fits a range from 40mm to 70mm and the Small Edge Clamp fits the range 0 to 50mm.
- The clamps' gripping surface will hold firmly on a range of tubes up to 50mm (2") diameter (such as bed frames, chair and table legs).
- After fitting the clamp the pole can be positioned and fixed using the Mobilia screw.

5525	Edge Clamp Small	£73
5527	Edge Clamp Large	£73

Head Switch Mounting Kit



- This kit provides a method of mounting many of our single switches onto a wheelchair.

Component list

1 x Wheelchair Clamp.
1 x Straight Pole 18".
1 x Pole Joint Adjustable.
1 x Straight Pole 12".
1 x Rectangular Mounting Plate (Ball and Socket).

5739	Head Switch Mounting Kit Wheelchair	£182

Drinking System Kit A

This allows the Drinking Mug with Lid to be mounted close to the users mouth so that they can drink using a straw.

Component list

1 x Wheelchair Clamp.
1 x Straight Pole 6" (150mm).
1 x Straight Pole Connector.
1 x Pole Stop.
1 x Double Angle Pole.
1 x Drinking Mug with Lid.

5597	Drinking System Kit A Wheelchair	£177

Photography Kit A

- Flexible enough to fit onto most standard wheelchairs and provide stable mounting for most cameras.

Component list

1 x Wheelchair Clamp.
1 x Extension Arm 300mm.
1 x 3" Pole.
1 x Ball and Socket Camera Grip.
1 x 18" Pole.
2 x Pole Stops.

5549	Photography Kit A	£200

Switch Interfaces

Switch interfaces connect to your computer through either the keyboard socket or USB port. A software program is supplied with the interface if needed, so your computer can recognise and use it. Switch interfaces work by converting the on/off action of the switch into an emulated key press, usually the spacebar and enter keys. Most switch software looks for these key presses in the same way that other programs might look for mouse clicks. Some interfaces, such as the Inclusive MultiSwitch 2 below, will automatically detect the switch program you are loading and will set itself up. All you need to do is plug in your switches and use them - easy!

Inclusive MultiSwitch 2

The Inclusive MultiSwitch 2 is an intelligent switch interface that automatically detects the program you are loading and sets up the switches for you.

PRICE DROP!

- Use with up to six switches.
- Automatic update of software database when on the Internet.
- Create your own switch profiles with mouse clicks, key presses or application actions (such as print or save) to access non-switch software.
- Can also be used to enable switch access to mouse movement, with four built-in cursor speed settings.
- Supplied with switch control software.
- Windows and Macintosh compatible.

5685	Inclusive MultiSwitch 2 USB	£74
5686	Inclusive MultiSwitch 2 USB 5 pack	£349

Hitch Switch Interface

This plug and play switch interface brings AbleNet's ease of use to Windows® and Macintosh®. With no software setup, Hitch is immediately ready to deliver five sets of functions to as many as five switches at a time. Rows of functions are chosen with a single push of a button. Use Hitch with your favourite AbleNet software or any switch accessible title for scanning access. Hitch easily delivers up, down, left, right and enter controls to your switches.

5681	Hitch Switch Interface	£65

Inclusive Simple Switch Box

- An inexpensive interface ideal for use with Inclusive's switch software such as the *SwitchIt!* and *Maker* series.
- Easy to use - simply connect to a USB port on your computer and plug in one or two switches.
- Two jack sockets allow switch presses to send space and enter, allowing you to operate any software controlled by these keys. It cannot be used with programs that require other switch inputs. Please contact us if you require further information.

3208	Inclusive Simple Switch Box	£39

Switch Interface Pro 6.0

New from Don Johnston, this interface is easy to use, requires no software and works with both Windows and Macintosh computers. Connect up to five standard switches. Provides the flexibility of emulating everything from a single click to a return. Supports switch accessible software including *Clicker 5* and upwards.

- Gets programs up and running in seconds.
- Bright indicator lights show which functions are active.
- Connects to USB port.
- Small size - easy to tuck away and travel with.
- Just push a button to change function sets.
- Includes the cables needed for connecting to the computer.

5159	Switch Interface Pro 6.0 USB	£90

USB Switch Interface-Plus

A new switch interface from QuizWorks. With five standard 3.5mm switch ports. There are five standard keystroke templates to choose from with an LED inside the case to indicate which is selected. With twenty five optional input characters, including inputs for *Clicker 5* and upwards. Choice of no repeat keystroke input or key repeat input. No driver software required - just plug and play. Two years warranty.

3719	USB Switch Interface-Plus	£59

Joy Cable 2

The simplest switch connection available! Just plug in the switches. Suitable for two switches. USB interface. This switch adaptor is supported by most switch accessible software. It comes with Sensory's *Switch Driver* software to allow it to be used with programs that do not directly support switch access.

1662	Joy Cable 2	£49

Crick USB Switch Interface

Have you ever become frustrated setting up different switch boxes for different applications? This clever and reliable USB switch interface does it for you. It works with almost all switch accessible software on Windows and Macintosh computers. The interface sets itself up for the application you are using - not only when using *Clicker*, *ClozePro* or *Jigworks*, but also other software from other publishers. It comes with *USBKeys2* software that can detect the application you are using and set up your switches for the appropriate key presses or mouse clicks. It uses a database of accessible software titles, which can be updated free of charge from **www.switchindex.com**
You can also add settings for your favourite applications quickly and easily. It can capture key presses or combination key presses; mouse clicks, double-clicks and mouse drags. You can even set up your switches to open other applications! CE marked and FCC approved. USB lead included. Requires Windows '98 and above/Mac OS 9 or X and a USB port.

0994	Crick USB Switch Interface	£99

SEND-6

Part of the Simply Works range, SEND-6 is a unique switch interface providing wireless access for up to six wired switches. With no wired connection to the computer, it is ideal for wheelchair users working with switch accessible software, or for anyone physically constrained from working close to a computer. SEND-6 is also suitable for teaching computer and toy control switch skills to individuals and small groups.
It provides the most comprehensive selection of access options (software, game pad, mouse and keyboard functions) of any switch interface currently available including Simply Works.

- Provides wireless access for up to six wired switches.
- Requires no software or drivers.
- Twenty four programmable switch functions including switch accessible software, game pad, mouse and keyboard functions, mouse emulation and Tilda 1 & 3.
- All switches are individually programmable.
- PC and Mac compatible.

Please note that SEND-6 requires it-Receive - see page 31.

5693	SEND-6	£79

Let your toys roam free with this new range of wireless toy control options!

Simply plug your switch adapted device into it-Control, it-Control Lite or it-Control Pro and work it wirelessly with it-Switch. Or plug a wired switch into it-Send and pair it with one of the it-Control range.

For direct control.

it-Control Lite

- Universal 3.5mm output jack.
- Includes toy cable.
- 60mm x 60mm x 20mm.
- 2 x AAA batteries (included).

4416	it-Control Lite	£49

For direct, latched and timed control.

it-Control

- Universal 3.5mm output jack.
- Includes toy cable.
- 60mm x 60mm x 20mm.
- 2 x AAA batteries (included).

4417	it-Control	£65

For direct, latched, timed and cooperative control for 1 or 2 toys.

it-Control Pro

- Cooperative mode - press two switches at the same time to switch on the toy, or press one switch for on and the other for off.
- Includes toy cable.
- 80mm x 115mm x 25mm.
- 2 x AAA batteries (included).

4418	it-Control Pro	£119

AbleNet Toy Control Timers

There are three AbleNet Toy Control Switch Latch and Timers available:

Single SLAT

- Timed mode: the device stays on for 1 to 60 seconds with one activation.
- Latch mode: one switch press turns the appliance on; the next turns it off.

Choice SLAT

- Turn on one of two devices in a choice making activity. One user, two switch inputs.

Dual SLAT

- As the Choice SLAT, but this time two switch users can control their own toy or appliance.

0132	Single SLAT	£75
0131	Choice SLAT	£95
0133	Dual SLAT	£85

Jelly Beamer Twist with SLAT

- Combines a wireless Jelly Beamer Twist with a switch latch and timer for operating toys or appliances.
- Four modes of control: timed seconds, timed minutes, latch mode and direct mode.
- Use more than one without interference.
- Operate a device from 9 metres away.

4062	Jelly Beamer Twist with SLAT	£140

Big Beamer Twist with SLAT

- All the benefits of the Big Beamer Twist and adds the functionality of a switch latch and timer (SLAT).
- Four modes of control including timed seconds, timed minutes, latch and a direct mode that operates just like an original switch.

4064	Big Beamer Twist with SLAT	£140

Our range of fun and entertaining toys are already adapted for use with your 3.5mm switches and batteries are included. Simply plug in your switch and play!

Talking Woody

NEW

Talking Toy Story Sheriff Woody is now available as a switch adapted toy! Connect any 3.5mm switch to make Woody talk. Each switch press will make him say a different phrase: "You're my favourite deputy", "reach for the sky"and "there's a snake in my boots" are just three of Talking Woody's fifty sayings taken from the popular Toy Story films. Or you can pull his string to hear him talk. Talk to Woody and he'll respond in his interactive mode (the talk back feature can be turned off by pulling Woody's string once. For full instructions see packaging). Use a 3.5mm switch (not included). Supplied with 2 x AAA batteries.

5778	Talking Toy Story Sheriff Woody	£74

Penguin Racer

NEW

Watch as the penguins are hoisted up the ski lift ladder, then slide quickly down the winding slope before they do it all over again. Releasing the switch lets the penguins stop for a breather. Height is approximately 14"/36cm. Contains small parts so may not be suitable for all learners. Use a 3.5mm switch (not included). Supplied with 1 x D battery.

5781	Penguin Racer	£34

Bubble Machine

Everyone loves bubbles and this switch adapted bubble machine makes them by the hundreds! Simply connect any standard 3.5mm switch (not included) to the socket and press to produce lots and lots of bubble fun!

NEW

- Two switch modes – latched and momentary.
- One bottle of bubble solution included.
- 6 x AA batteries (included).

6128	Switch Adapted Bubble Machine	£44

ELC Gears and Cogs

NEW

The two large yellow buttons are switch accessible using any 3.5mm switch. Simply connect a single switch to either of the two sockets mounted on the front of the toys and move the slider to select the play mode.
ELC Gears and Cogs plays a well known tune after each switch press, combined with a multi-coloured light sequence. Each tune and light show lasts for around 15 to 20 seconds and altogether there are fifteen melodies to enjoy. In lights, sounds and movement mode, the toy can be made to spin the gears and cogs. Use a 3.5mm switch (not included). Supplied with 3 x AA batteries.

5779	ELC Gears and Cogs	£44

Bongo Drums

NEW

Touch the drum pads for sounds and lights. Twist the discs to vary the pitch and create a new sound. Use the six sound buttons for quirky sound and light effects. Connect any 3.5mm switch and play one of four samba melodies with each switch press. Attach the microphone and sing along or record and play back. Use a 3.5mm switch (not included). Supplied with 4 x AA batteries.

5780	Bongo Drums	£48

Thomas Bear Old McDonald

NEW

Thomas Bear Old McDonald sings Old McDonald Had A Farm. He does a little dance while singing. Use a standard 3.5mm switch (not included) or press his paw to turn him on and off. Height: 30cm. 3 x AA batteries (included).

6170	Thomas Bear Old McDonald	£50

Snoring Bear

NEW

Snoring daddy bear is sleeping, but little bear has other ideas and wants attention. As big bear snores, his tummy expands and contracts, making little bear laugh. Each dialogue and action occurs after a switch press. Use a standard 3.5mm switch (not included) or his paw. Length: 38cm. 3 x AA batteries included.

5694	Snoring Bear	£50

Roaring Rex

Pressing the switch makes Rex roar and tell jokes. His head moves from side to side and his mouth opens and closes as he roars and talks. Use any standard 3.5mm switch (not included). Pressing the switch in his foot also turns him on and off. 3 x AA batteries included.

5485	Roaring Rex	£50

Cassy

Cassy sings Come On Get Happy. Her mouth moves with the music and she rocks her feet back and forth. Use a standard 3.5mm switch (not included) or press her paw to turn her on and off. Length: 30.5cm. 3 x AA batteries included.

3898	Cassy	£50

Droopy the Snoring Dog

Pressing the switch makes Droopy snore and wag his tail, and his body and mouth move as he breathes in and out. Use any 3.5mm switch (not included). Pressing his leg also turns him on and off. 3 x AA batteries included.

4217	Droopy the Snoring Dog	£50

Arnold the Snoring Pig

Press the switch to make Arnold snore. His ears, mouth and body move. Use any standard 3.5mm switch (not included). Pressing his leg also turns him on and off. Length: 40cm. 3 x AA batteries included.

3572	Arnold the Snoring Pig	£50

Peek-a-Boo Dolly

NEW

Peek-a-Boo Dolly will engage in a game of peek-a-boo as the dolly lifts and hides behind her blanket saying 'You can't see me' and 'Where am I?' before pulling the blanket down and saying 'Here I am'. 3 x AA batteries included.

6169	Peek-a-Boo Dolly	£50

Percy Pig

- Watch Percy walk along and wiggle his nose and tail to a lovable grunting sound.
- Accepts 3.5mm jack plugs.
- 2 x AA batteries included.

3681	Percy Pig	£25

Robbie Rabbit

- Robbie Rabbit hops along then sits, raises his ears and squeaks.
- Accepts a 3.5mm jack plug.
- 2 x AA batteries included.

3683	Robbie Rabbit	£25

Lucy the Dog

- Lucy the Dog walks forwards, sits down, barks and performs a back flip.
- Accepts any switch with a 3.5mm jack plug.
- 2 x AA batteries included.

3897	Lucy the Dog	£25

Dotty Dalmatian

- Dotty Dalmatian walks forwards, sits down, barks and performs a back flip.
- Accepts any switch with a 3.5mm jack plug.
- 2 x AA batteries included.

3682	Dotty Dalmatian	£25

*Switches are **not** included with any of the toys - **see page 31***

TOLO Train Set

An ideal cause and effect toy with great auditory and visual feedback. Pressing an external switch connected to the infra-red wireless control box, will make the train chug around the track whilst tooting its horn and flashing its light. Can be used with toy control boxes and to extend the range of control options to provide timed and latched options. 1 x PP3 and 3 x AA batteries are supplied.

4764	TOLO Train Set	£143

Thomas the Tank Engine

At last! A switch adapted toy for all the Thomas fans (both young and old). He is controlled by a very easy to use, two button infra-red remote control, which has been adapted to use two standard switches as well as the remote's own buttons. It really brings toy control to a higher level, giving lots of opportunities for choice making and interactive activities. Everybody who has tried Thomas wants one for themselves!

Pressing one switch or button will cause him to turn on the spot - let go when he is facing the required direction. Pressing the other will cause him to set off in the direction chosen. (NB - the user needs to hold the switch or button down to have full control.)

- Ideal for developing two switch skills.
- Great sound and light effects make Thomas easy to track.
- Good sized wheels - can run on most surfaces.
- Measures 17cm x 12cm x 9.5cm.
- 3 x AA batteries (included).
- Controller requires 2 x AA batteries (included).
- Switches not included.

4782	Thomas the Tank Engine	£42

TOLO Switch Adapted Vehicles

Simply connect your 3.5mm switch to the controller and you can control your toy with single switch presses. Press once and the toy will start, with fun sound effects and lights. It will travel for a set distance then stop, with more sound effects. The wireless controller has an image of the toy it works with on it for easy identification. Switches are not included.

TOLO First Friends Car

Includes car and driver.
Dimensions: 26cm x 14cm x 17cm.
2 x AA batteries (included).

TOLO First Friends Car and Pony

Includes car, driver, trailer and pony.
Dimensions: 26cm x 14cm x 17cm. 2 x AA batteries (included).

TOLO Tractor Set

Includes tractor, driver, trailer and cow. Dimensions: 33.5cm x 14.5cm x 17cm.
2 x AA batteries (included).

TOLO Safari Set

Includes safari truck, driver and tiger. Dimensions: 26cm x 14cm x 17cm. 2 x AA batteries (included).

TOLO Construction Set

Includes digger and driver.
Dimensions: 24cm x 14cm x 17cm. 2 x AA batteries (included).

6171	TOLO First Friends Car (Blue)	£47
6172	TOLO First Friends Car and Pony (Purple)	£57
4832	TOLO Tractor Set	£93
4833	TOLO Safari Set	£93
4834	TOLO Construction Set	£93

Henry the Hoover

A realistic scaled down model of the multi purpose Henry vacuum cleaner in red and black with a switch adapted hoover suction function. Ideal for role play activities.

- Use a standard 3.5mm switch (not included) to activate the hoover suction.
- All accessories fit neatly inside including nozzles and a small dustpan and brush.
- Cord reels in like the real thing. Debris collects in removable drawer.
- The hoover activates for as long as the switch is pressed.
- 4 x C batteries included.

6207	Switch Adapted Henry the Hoover	£48

Remote Controlled Inflatable R2D2

Entertain and delight with this well known jumbo sized remote controlled inflatable toy! The remote control has been fully switch adapted - you can move R2D2 forwards, backwards, left and right and even make him do a 360 degree spin!

- Use any standard 3.5mm switch (not included).
- R2D2 comes complete with a foot pump, switch adapted remote control, RC drive unit and inflatable R2D2 body.
- R2D2 requires 4 x AA batteries and 1 x 9V battery (included).

6201	Remote Controlled Inflatable R2D2	£86

Switch Adapted Digital Camera

A digital camera supplied with an innovative USB switch interface. Simply connect and use straight out of the box!

- Model: Canon Powershot.
- Single switch activation automatically focuses and takes the picture.
- Camera features: 10MP, 3x3 optical zoom, 2.5" LCD.
- Interface includes standard 3.5mm switch socket.

Please note switch not included. Camera colour may vary from that illustrated.

4998	Switch Adapted Digital Camera	£225

Hotpoint Washing Machine

A realistic scaled down model of a Hotpoint washing machine. Ideal for role play activities. Complete with opening door, soap powder drawer, washing basket and soap powder carton. Push buttons control fill, wash and spin options. Red on/off light, realistic water filling sound and turning drum. Fitted with 3.5mm jack socket to use a switch (not included) to start (wash function only). Dimensions: H30cm x D22cm x W20cm. 3 x C batteries (included). Colour may vary.

4483	Hotpoint Washing Machine	£39

De Longhi Microwave

Specially adapted to allow switch operation. Plug a switch (not included) into the 3.5mm jack socket and press to start or use the front panel controls. Realistic rotating turntable with interior light, noises and flashing coloured display. Cooks for thirty seconds after a switch press, including a pause at fifteen seconds. Comes with a selection of plastic food - cook a chicken for the class! Dimensions: H17cm x W30cm x D18cm. 3 x AA batteries (included).

4485	De Longhi Microwave	£37

Bosch Drill and Tool Set

A great realistic looking tool set which includes a switch adapted drill. Plastic carrying case holds a spanner, hammer, nuts, bolts, nails and wood, as well as a model Bosch drill. The drill has been switch adapted with a 3.5mm jack socket to operate it with any of your switches (not included). Drill turns with realistic sound and light flashes when a hole has been drilled. 2 x AA batteries (included).

4484	Bosch Drill and Tool Set	£44

PageBot for Kindle

PageBot products enable the independent reading of ebooks on the Kindle DX, Kindle 2 or Kindle 3, by people who cannot hold the Kindle or press its buttons.
PageBot enables people who struggle with finger, hand and/or motor challenges to read independently. Designed for adaptability, PageBot has actuators for the Kindle's next page and previous page buttons, a contoured frame for securely holding the Kindle and a universal mounting arm that can position the Kindle for convenient reading. Its switch interface accepts next page and previous page commands from one or two switches, or a wired or wireless USB mouse device.

All PageBot models have these features:
The Kindle is supported in a rugged mount and is protected with foam surfaces.

- An articulated mounting arm with integrated clamp.
- Dual actuators for the Kindle's next page and previous page buttons.
- Dual switch connectors for use with your own switches.
- Stereo input capability for interfacing dual switches with a single cable.
- Keep awake function prevents the Kindle from entering sleep mode.
- Micro USB power input for compatibility with the standard Kindle power adaptor.
- Optional rechargeable battery pack supports wireless portability and on the go reading.
- PageBot exposes all Kindle features for manual access, including the Amazon Whispernet wireless antenna(s), stereo headphone jack, Kindle battery recharge port and the Kindle's buttons and switches.
- The Kindle can be inserted or removed from PageBot for convenient sharing with friends and family.

Kindle and switches are not included.

5198	PageBot for Kindle 3	£249
5197	PageBot for Kindle 2	£249
5196	PageBot for Kindle DX	£299

Little Listener

NEW

The Little Listener is a robust, hand held, loud speaking MP3 player which is switch accessible!

It provides an easy way for learners to listen out loud to their favourite audio stories, songs and games, both indoors and outdoors. It is a loud speaking MP3 player with built-in rechargeable, replaceable batteries; a built-in microphone for recording and switch accessibility.

- A site licence for *StoryPhones* software with easy to use settings is included.
- Supplied with a range of audio stories and songs from many of the publishers who feature in the unique *StoryPhones* MP3 download store.
- Available in six different colours: green, orange, purple, blue, yellow or red.
- Two years warranty as standard.

n/a	Little Listener	£83

iPod Switcher

PRICE DROP!

An iPod docking unit specially adapted to give switch control. Operate the basic iPod functions - stop/start, next track and previous track using the three big button switches on the supplied remote control. Up to three switches can be used. Use a single switch to stop/start tracks or connect additional switches to select the next track/previous track.
Please note: the iPod Switcher has no amplification and therefore the supplied ipod docking station needs to be plugged into an existing hi-fi system using the RCA cable supplied, or into a computer using the USB sync cable supplied with this product.
The iPod Switcher works with iPhone 3GS, iPhone 3G, iPod Nano, iPod Classic and iPod Touch (2nd generation). It is not compatible with the iPod Shuffle.

4440	iPod Switcher	£299

it-Click-On Plus

A new member of the Simply Works family.

Adds the benefits of wireless control to all the features of the Click-On. The it-Click-On Plus has a built-in Simply Works wireless receiver, allowing it to be controlled by Inclusive's it-Switch, as well as having two sockets for use with wired switches. Two mains sockets allow two devices to be controlled at the same time using the chosen mode settings. Has direct, latching, timed, two switch on/off and two switch cooperative settings, using wireless and wired switches singularly or in a combination.

- Single switch operation in direct, latched, timed minutes and timed seconds modes. Two switch control in cooperative and on/off modes.
- Two 220V, 50Hz sockets.
- Two 3.5mm switch input sockets.
- Operates wirelessly with it-Switch up to ten metres away.
- LED display for pairing with an it-Switch and selecting control modes and time settings.
- On-board memory retains the previous mode and time settings even after power off.

4944	it-Click-On Plus	£159
4945	it-Click-On Plus 5 pack	£755

Inclusive Click-On

A new, fully featured mains controller from Inclusive Technology.

The Inclusive Click-On offers all the options you expect from a mains controller and more. Our fully electronic controls give more features and greater accuracy than other devices. With two fully independent channels, it can operate two mains devices simultaneously using the same settings.
With easy touch controls and clear indicator lights, it is simple to choose the desired functions.

There are different control methods:

- Direct - the device operates as long as the switch is held down.
- Latching - press the switch to turn on, press again to turn off.
- Timed seconds - set for seconds and choose the desired operating time: 5, 10 or 15 seconds etc.
- Timed minutes - set and choose the time.

Click-On has these great features:

- Cooperation - connect two switches. Both need to be pressed at the same time to switch on the device.
- Two switch on/off - connect two switches. Press one to turn the device on and the other to turn it off. A simple, easy to grasp concept that is ideal for introducing two switch skills.

3584	Click-On	£129
4240	Click-On 5 pack	£612

PowerLink 4

This control unit allows switch users to control up to two electrical appliances with single switches. Six unique modes of control allow you to define exactly how, and for how long, appliances will be turned on. Accepts any single switch.

Key features

- Easy setup with built-in display and a simple new design.
- Six modes of control.
- Accurate programming and data collection.
- Flexible outlets allow custom positioning of up to two appliances activating independently.
- Linkable™ wireless technology for use with multiple Big or Jelly Beamer Twist switches.
- Two switch input jacks.
- Great looks at a small size.

Modes of control

- Direct: behaves like a traditional switch.
- Count: behaves like direct, but shows the number of activations.
- Two switch: behaves like Direct - both switches must be activated.
- Timed seconds: runs the appliance from 1 to 99 seconds.
- Timed minutes: runs the appliance from 1 to 99 minutes.
- Latch: the first activation turns the appliance on and a second activation turns it off.

4765	PowerLink 4	£169

Mains devices great for use with the Inclusive Click-On.

Our sensory toys are spinning, flashing, bright and colourful mains devices for use with the it-Click-On Plus, Inclusive Click-On and PowerLink 4.

Flashing Blue Light

NEW

Mains powered spinning/flashing blue light. A rotating reflector spins around the bulb to create a rotating beam of coloured light. Uses a 15W pygmy lamp with a small screw base.

6118	Flashing Blue Light	£20

Super Disco Ball

A colourful disco light which simultaneously rotates vertically and spins horizontally, shooting beams of light in all directions.

4390	Super Disco Ball	£32

Super Disco Mushroom Ball

Giant mushroom disco light which shoots beams of light in all directions. Spins 360 degrees on a vertical axis. 30cm in diameter.

4391	Super Disco Mushroom Ball	£37

Plasma Ball

- Place your hand on the plasma ball and see its shape light up and attract a spiral of light. Run your finger across the ball and watch the spiral of light follow.
- Operates on 240V transformed to 12V.
- 150mm diameter.
- Not for use with the Click-On.
- Adult supervision required - contains glass parts.

3589	Plasma Ball	£25

Super Mirror Ball

A rotating 12cm mirror ball that shoots ultra bright, multi-coloured beams of light in all directions.

4392	Super Mirror Ball	£25

Simply the most versatile single switch communicator

Introducing Inclusive Technology's Smooth Talker - versatility and simplicity in one single switch communicator!

FINALIST BETT Awards 2012

Two loud speakers for great sound

Wired or wireless toy control using Simply Works technology

Doo-zy Switch

Wow! The Doo-zy can do it all!

Doo-zy is a unique switch which meets a wide range of communication, access and control needs. Join in stories, play your favourite music and control toys - even change channels on the TV. The light touch, low profile switch can have light and vibration prompts and feedback, making it easy to access for those with complex sensory or physical needs. Magic Eye option enables no touch activation.

The Doo-zy is great for assessment, motivational, sensory and early communication activities.

You can use the Doo-zy as a:

- Sound recorder.
- Switch communicator.
- Step communicator.
- Infra-red remote control.
- Music player.
- Magic eye.
- Toy controller.
- AAC device.

Key features

- Robust design, low profile, easy access switch.
- 1GB SD card and 6.5 hours recording time.
- Rechargeable battery with mains adaptor included.
- Microphone socket and external 3.5mm switch socket.
- Lock out button to prevent accidental changes.
- Supplied with mounting bracket and carry bag.

5695	Doo-zy	£249

Tobii S32

Voice output and environmental control.

The Tobii S32 provides crisp, clear message output and can also be used to control lights, small appliances, adapted toys, televisions, VCRs and DVDs.

- A communication aid with environmental controls and light touch buttons.
- Over sixty hours recording time.
- 192 levels (sets of messages).
- Keyguards for 1, 2, 4, 8, 16 and 32 layouts included.
- Uses *SymbolMate* software for creating barcoded overlays.
- Overlays are automatically detected when inserted into the device.
- Environmental control – can learn signals from infra-red remote controls.
- Scanning version available.
- 313mm x 253mm x 31mm.
- Requires 4 x AA batteries (included).

The Tobii S32 reliably withstands active daily use. Rubber side covers protect the device and allow you to personalise it in a choice of four colours (included). It is easy to carry anywhere and the carrying strap allows it to be worn in different ways. The scan model has two interface ports for connecting to toys and custom activation modes. It offers multiple scanning options for switch users and allows one or two switch access.

Note: to make your own overlays for the Tobii S32 you will need to purchase Tobii *SymbolMate*. See our website for details.

Eye Gaze

Eye Gaze Frame & Picture Print

For many people with communication difficulties, looking at things they like or need is much more intuitive than any other method. The Eye Gaze Frame is an effective way of using eye gaze for choice making and communication. Pictures, words and symbols can be placed on the frame; then position the frame between the user and the listener. Includes free *Picture Print* software.

- Each pocket is 15cm x 10cm and deep enough for card or laminated pictures.
- Frame is 59.5cm x 46cm with a central open cutout of 26cm x 18cm.
- Detachable base.

Picture Print

Really easy to use - prints four pictures onto an A4 sheet. Cut along the dotted lines and they are ready to slot into your Eye Gaze Frame. Includes over 1,500 clear pictures or you can use your own.

FREE with the Eye Gaze Frame.

4497	Eye Gaze Frame and Picture Print	£145

We offer a full range of mounting solutions for your Tobii device.
For advice on options and accessories, call our Information Team on ***01457 819790***
or visit ***www.inclusive.co.uk*** *for further details.*

Tobii CEye

Eye control is an alternative and complimentary input method to using a mouse or your hands. In effect, your eyes become the mouse simply by looking at the screen. Look at the letter or icon you want to select and blink, hold your gaze or use a switch to select it. It's as simple as that.
The Tobii CEye eye control unit is easy to use, quick to set up, extremely accurate and works seamlessly with compatible Tobii communication devices and software. It works in nearly all light conditions, with users of most ethnic origins and with users wearing glasses or contact lenses.

What's more, Tobii's leading technology gives the CEye one of the market's largest "track boxes", the imaginary box in which you can move your head. If you leave the box, Tobii CEye will resume tracking you again when you return without the need for further calibration. This technology opens up eye tracking to users who were previously unable to use it, including children and users with cerebral palsy.
The CEye is compatible with the Tobii C12 and C15.

4216	Tobii CEye	£4,895

Tobii CDot Tracker

The Tobii CDot Tracker is a head mouse tracker that replaces a standard mouse. It works by tracking the exact movements of a small reflective dot that is placed on the forehead, nose, glasses or any other visible area of the body. Once the dot is in place, its movements are tracked by a high resolution, intelligent camera and are instantly translated into accurate mouse cursor movements. Clicking can be done through dwell or by using a switch.

Using the Tobii CDot Tracker is easy. Just plug it in to your device and it will instantly begin to track. It uses standard Windows mouse controls and therefore requires no additional software or drivers. The Tobii CDot Tracker is built into a solid metal casing that fits snugly into the bottom of a Tobii C8, C12 or C15 communication device.
The Tobii CDot Tracker can be operated accurately from a distance of up to five feet/150cm and at angles from the device of up to 45 degrees. This gives users a wide range of motion and nearly complete freedom of movement.
Whenever a user is located inside of this "track box", the Tobii CDot Tracker will automatically start tracking. If the user leaves the box and then returns, the Tobii CDot Tracker will automatically begin tracking again.

5062	Tobii CDot Tracker	£915

Tobii PCEye

PRICE DROP!

Tobii PCEye is perfect for users wanting access to standard computer programs. It is developed primarily for individuals with impaired motor skills or those needing an alternative method for controlling a mouse.
The Tobii PCEye flawlessly converts eye movement to a mouse cursor on your computer, attaches to many retail monitors and takes only seconds to complete the one time calibration. With one of the largest track boxes on the market and award winning technology, the Tobii PCEye can track over 95% of users, regardless of eye colour, glasses, contact lenses, lighting conditions or head movements.

The Tobii PCEye won't slow down your computer or restrict you from staying up to date with technology. A powerful, built-in processor ensures that your computer will run like normal during an eye tracking session. And if you want to change computers or need to change locations, the low weight and robust design, as well as the included carrying case, makes travelling simple.

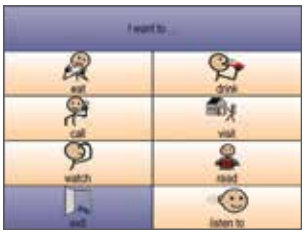
Features

- Working distance: 50 - 80cm.
- Track box for eye/head movement (W x H x D) 40cm x 30cm x 30cm.
- Screen size: 15 - 22 ".
- Mounting free VESA (100 x 100mm or 75 x 75mm).
- Power: 110 alt 230V AC.
- Weight: 350g.
- Size: (L x H x D) 250mm x 53mm x 50mm.
- Works with Windows XP (SP3), Windows Vista (SP2) or Windows 7.
- System requirements CPU: 1GHz, 2 cores, RAM: 2GBGPU.
- Compliances: Medical Device Standard Class 1/Type B; RoHS; Digital Device Class B/IEC-UL-EN 60601-1.

5160	Tobii PCEye (includes WizKeys Plus)	£2,995

Further package options and accessories are available, see **www.inclusive.co.uk.** *Sorry monitor not included.*

Tobii Communicator 4



Tobii Communicator 4 is an alternative and augmentative communication (AAC) software package designed to provide people with communication disabilities a better way to communicate and a new level of independence. With ready made communication boards, a large symbol library, standardised keyboards, language training, computer access, environmental control, multiple input methods and more. Provides you with intuitive communication and an easier way to manage your life.

Features include:

- Ready to use communication boards for speech and writing.
- Templates for creating your own boards.
- Right click buttons to edit text, pictures and sound.
- Simple user interface.
- Email, SMS and telephone capability (Premium edition).
- Access by mouse, touch monitor, switches or any other popular alternative input device.
- A variety of on-screen keyboards, with custom keyboards for the Internet, Word, WordPad and more.
- Access other Windows applications with a single switch.
- Switch controlled games.
- IR operated environmental control.

3692	Windows CD-Rom Standard	£325

Tobii Communicator Premium

Communicator Premium has all the benefits of the standard edition but supports additional email, text messaging and environmental control features.

3693	Windows CD-Rom Premium	£390

*Additional vocabulary sets are available for Communicator 4. See **www.inclusive.co.uk** for options.*

The Grid 2

The Grid 2 is an integrated tool for communication and computer access. It allows people with limited or unclear speech to use the computer as a voice output communication aid, using symbols or text to build sentences. It can be used for dynamic screen communication or text based communication, and its fully featured on-screen keyboard can control your Windows desktop and other programs.

It has a built-in web browser, word processor, email, SMS text messaging, calculator, music player and a clock. It has top quality Acapela speech and includes the complete Widgit *Literacy Symbols* library. There is a wealth of tools for symbol users including smart picture searching, prediction with symbols, verb morphology and sound alike words. If you wish you can use *PCS*, photos and most other symbol libraries.

For text users, *The Grid 2* allows seamless integration between voice communication and other computer tasks. Fast prediction and message stores help to speed up input. The on-screen keyboard gives direct control over standard Windows software. It allows menus, dialogue boxes, websites and much more to be navigated under the direct control of the user. Alternative keyboard layouts are included, such as frequency of use layouts for switch users.

The program also provides a way to handle most everyday tasks, for users who do not require a full office suite.

Use a mouse or other pointing device, a touch monitor or switches. The latest version also allows input by voice recognition - simply read the text on a cell to select it. (To get the latest version, simply run Sensory Update from the start menu.)

2781	Windows CD-Rom	£360
2782	5 user copy	£790

For further options see **www.inclusive.co.uk**

Add-ons for The Grid 2

4125 - PCS Symbols add-on **£120**

Grid sets for The Grid 2

Grid sets are pre-made collections of grids usually designed for communication.

2284 - CALLtalk **£220**
4504 - Ingfield Dynamic Vocabularies 2 **£220**

Adjustable Trolleys and Fastlift Tables

Get the computer just the right height for each learner using adjustable trolleys and tables. With a great look to fit in anywhere - maple and silver finish. Adjust to the varying needs of all learners including the very young, those in wheelchairs, on foam wedges or using standing frames.

Atkinson Vari-X Adjustable Trolley

Lets each child work at the right height!

Rail

Half shelf

Full shelf

The Atkinson Vari-X provides worktop heights from 240mm to 1060mm. The worktop measures 1200mm x 650mm. Adjusting the height could not be simpler - just turn the removable handle. Attractive maple and silver finish. Brakes are fitted to all the large wheels for safety (exclusive to Inclusive Technology). Available with base unit and rail, full shelf or half shelf.

0359	Base unit and rail	£530
0181	Half shelf	£535
0183	Full shelf	£540

More options are available, see www.inclusive.co.uk

Fastlift Table

Adjusts in seconds from a standing to a sitting height, meeting the needs of all learners. Really quick - adjustable from the tallest to lowest setting in just 15 seconds. Achieves precise levels of adjustment ranging from 530mm to 1200mm. Four wheels allow mobility within the room. Tilting facility means tables can be nested into one another for storage. Available in two sizes and three table top colours: beech, maple or grey (please specify). Metalwork/wheels are silver.

Size option 1

W1200mm x D600mm x H530mm to 1120mm.

Size option 2:

W1500mm x D750mm x H530mm to 1120mm.

n/a	Fastlift Table Option 1	£649
n/a	Fastlift Table Option 2	£659

*Delivery per trolley/table is **£17**.*

Easi-Speak Sound Recorder

- Record voices and sounds on the move with this easy to use MP3 recorder.
- 128MB memory that can record up to two hours high quality sound.
- Includes *Audacity* music editing software.
- Play back remotely or download WAV/MP3 files to a PC via USB connection.
- Built-in rechargeable battery.

3393	Easi-Speak Sound Recorder Yellow	£39
3685	Easi-Speak Sound Recorder Black	£39
4335	Easi-Speak Identifier Trims 5 pack	£7
4336	Mains Charging Hub (5 ports)	£14

Rainbow Easi-Speak Sound Recorder Pack

NEW

Easi-Speaks are now available as a colourful pack of six! The Rainbow Easi-Speaks are fully rechargeable through the new docking station, which means they can now be charged from the mains rather than your computer - no need for numerous PCs and messy trailing wires to USB hubs.

5690	Rainbow Easi-Speak Sound Recorders	£239
5691	Docking Station for 6 Easi-Speaks	£24

Easi-Speak Sound Station

This great audio device lets you connect via the Easi-Speak headphone socket and play back your contents to a group or classroom. The sleek design is colour coordinated to your Easi-Speak and will brighten up any setting. Six headphone sockets allow children to listen without interruption. (Easi-Speak not included.)

4729	Easi-Speak Sound Station	£47

Easi-Speak Pro

- Single touch record and simple play back (WAV or MP3).
- Integrated USB and rechargeable lithium battery.
- Dual headphone sockets.
- Handy belt clip to attach to clothing.
- LCD screen with a fully integrated menu system shows the track number playing, battery life, memory status and recording format.

4337	Easi-Speak Pro	£49
4338	Easi-Speak Pro 5 pack	£230
4339	Easi-Speak Pro 10 pack	£450

Easi-Listener

- A high quality CD player with built-in connections for six separate headphones. Groups of children can listen to music and stories without interruption. No more messy splitters!
- The high power speakers make it ideal for class activities.
- CD, CD-R and CD-RW formats plus built-in AM/FM radio.
- 8 x C batteries (included) or mains adaptor (supplied).

3598	Easi-Listener	£59
3599	Easi-Listener with 6 Headphones	£79

Clevy Headphones

Safe, robust and comfortable 3.5mm jack headphones with built-in loudness limiter and volume control. Designed for children between the ages of 3 and 12 they are robust and lightweight without compromising comfort. Compatible with all portable MP3 players, iPads, CD-DVD players, PC and Mac.

- Volume output limited to 85 decibels.
- Extra thick, no tangle cord. Length: 2438mm.

5078	Clevy Headphones	£19

StoryPhones System

StoryPhones is a set of six MP3 player headsets, a loud speaking MP3 player with microphone and a USB base unit. Headsets are wire free, robust, easy to use and rechargeable for listening anywhere, indoors or outdoors. Users can play/pause, adjust the volume and move through the different tracks. Headsets are designed to twist and bend and stand up to the constant use of little hands. Headsets are supplied with a range of audio stories and songs from many of the publishers who feature in the unique *StoryPhones* MP3 download store. Each player including the remote console can be set up to play a different set of tracks. Remote control feature for group listening - great for child and adult led activities. *StoryPhones BookShelf* software with media play, file storage, audio management, play list creation, tag editing, children's mode, training videos and help file is included. Download the same track to multiple headsets. 3.5mm switch (not included) control for up to two switch devices. Headsets can be bought separately, see **www.inclusive.co.uk**

5882	StoryPhones 4 way system	£495
5883	StoryPhones 6 way system	£595

Easi-Ears Wireless Headphones

Easi-Ears, a digital audio system, allows a group to listen together on wireless headphones anywhere in the classroom, or even outdoors. No need to be connected to a computer or a CD player and no wires! Download MP3 content from your PC through the docking station onto each pair of headphones. Children can then play, pause or move between tracks using the controls on their headsets. Teachers can also select which track children are listening to using the remote control unit. Recharge headphones through the docking station (battery life approx. 8 hours). If the headphones are removed before the track has finished, the track will pause and only resume when put back on. Robust and fully adjustable with a twistable headband. Includes a set of six different coloured headphones, remote control unit, docking station for recharging and software.

5689	Easi-Ears Wireless Digital Audio System	£379

Easi-Scope 2

A hand held, wireless digital microscope that is really easy to use. The large size is easier to hold and investigate for little hands. It communicates with the computer via a radio device which is plugged into the USB port, using digital transmission for perfect picture quality.

4733	Easi-Scope 2	£66

Easi-View

You can share work with the whole class, zoom in and magnify 3D objects using the bendy neck and take pictures and videos. Use it with your interactive whiteboard. You can even create portfolios for evidence of learning, or make your own stop frame animations. With a USB direct plug, internal microphone, 3.0MP digital images and built-in light.

4730	Easi-View	£99
4731	Easi-View 4 pack	£335

CrazyTalk 6 Pro

Create talking characters from photos for use in emails and home video projects. Includes basic emotional editing, SFX templates and comic effects, some timeline editing capabilities and standard definition video export. *CrazyTalk 6 Pro* includes HD and Flash video output, real time layered puppeteering animation with custom facial feature selection, custom puppeteering profile editing, fully enabled timeline editing, audio voice morphing and more.

3737	CrazyTalk 6 Pro Windows CD-Rom	£87
3738	5 user copy	£360
3739	10 user copy	£710
3740	20 user copy	£1300
3741	40 user copy	£2300

Rechargeable Bee-Bot - *learn all about control and directional language with Bee-Bot!*

Easy to use with big arrow buttons and very robust, Bee-Bot is fantastic for children of all abilities. A large memory of up to forty steps means you can send your Bee-Bot across the room to friends or around your own obstacle course. Bee-Bot will confirm moves and commands with flashing eyes and optional sounds. It works on rough or smooth surfaces and is small enough to use on a table. A bundle is also available with six Rechargeable Bee-Bots.

1885	Bee-Bot Rechargeable	£49
1886	Bee-Bot Rechargeable Class Bundle	£254

Alphabet Mat

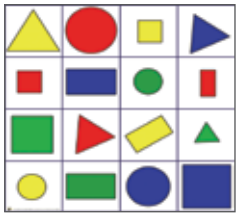
Ideal for developing literacy and ICT skills. Can you make Bee-Bot find a letter? Can he spell out particular words? Features upper and lowercase letters.

Busy Street Mat

This mat supports a wide range of subjects including ICT, literacy and numeracy. Comprehensive support notes are also included.

Treasure Island Mat

Have fun exploring and hunting for treasure. Ideal for teaching control in the Foundation Stage and KS1. Complete with support notes.



Shape, Size and Colour Mat

Help Bee-Bot to find different shapes and colours as he navigates this bright and colourful mat. Combine mathematics and ICT whilst having fun!

Race Track Mat

Can Bee-Bot follow the track and win the race? Can he finish in time? Great for group activities. You could customise your Bee-Bots with clip-on shells to race each other. With support notes and photocopiable game cards.

Transparent Grid Mat

A transparent mat for creating your own activities. The mat is ready printed with a grid to suit the Bee-Bot. Your learners could design their own mats too!

Giant Sequence Cards

Forty nine durable cards to help plan your Bee-Bot program. Perfect for group work.

1893	Alphabet Mat	£19
1895	Busy Street Mat	£19
1896	Treasure Island Mat	£19
1894	Shape, Size and Colour Mat	£19
1897	Race Track Mat	£19
1888	Transparent Grid Mat	£19
1889	Giant Sequence Cards	£16

Bee-Bot Starter Pack

Includes one Bee-Bot, one battery charger, four batteries, three activity mats (Treasure Island, Busy Street and Transparent Grid), sequence cards and ten white clip-on shells.

1887	Bee-Bot Starter Pack	£119

A great selection of activity mats are available for use with your Bee-Bot. These really help with developing directional language and provide lots of fun and educational activities too!

Constructa-Bot

A delightful, versatile digger that uses the same controls and movement capabilities as Bee-Bot. Watch it push, scoop and transport resources from place to place.

- Try it on a pretend building site, snakes and ladders mat, board game or moving through different locations. Lots of fun!
- Children will learn how to move objects around using the simple forwards, backwards and left/right controls.
- Built-in trailer for carrying small items.
- Connect LEGO® to the top to make unique designs.
- Built-in dry wipe pen holder - why not trace Bee-Bot's route?
- Specially designed holes to attach Kid K'NEX.
- 3 x AA batteries (included).

3390	Constructa-Bot	£49

Pro-Bot

This new floor robot is lots of fun, like the Bee-Bot, but is ideal for teaching more advanced control techniques.

The bright, attractive car design has strong child appeal and Pro-Bot is robust and durable. Simply use the programming arrows, which work just like Bee-Bot, or use more complex commands. The number keys can control the amount of turns and movement. Procedures can be activated by the sensors too; you could make Pro-Bot beep and switch its headlights on. Routes taken can be drawn using the simple pen mechanism and a standard felt tip pen. Pro-Bot can operate independently or alongside your PC via a USB connection. The memory can store over 100 commands, even if powered off or when the batteries are changed.

2325	Pro-Bot	£89
2326	Pro-Bot 4 pack	£328
2327	Pro-Bot 6 pack	£429

Pro-Bot Starter Pack

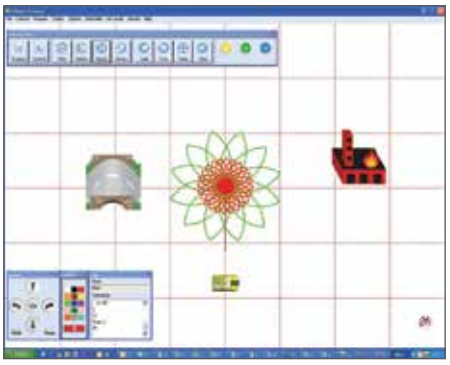
The Pro-Bot Starter Pack is an educational resource to make preparations for your lessons trouble free. Investigate different angles whilst you race around your mat. Use *Probotix* software to simultaneously set groups off, bringing different procedures together as one almighty programme.

The pack includes:

- One Pro-Bot.
- Single user *Probotix* software.
- Pro-Bot Amusement Park Mat.
- USB cable.
- Rechargeable battery unit with 4 x AA batteries.

3794	Pro-Bot Starter Pack	£135

Probotix



Probotix is a user friendly on-screen logo programming software program which can work independently or with the Pro-Bot floor robot. The program helps to deliver the ICT QCA Unit 4E Modelling Effects On-Screen, with three differentiated levels to help meet individual pupil requirements. Pupils can create procedures that involve simple directional buttons or more complex special procedures.

2785	Windows CD-Rom	£29
2788	Primary site licence	£89

Visit our website for a wide range of hardware and software.
www.inclusive.co.uk

Inclusive has a range of speech and hearing amplifiers that have been carefully selected to support individuals with a weak voice or hearing impairment.

Freiburg Speech Amplifier

- This product acoustically amplifies a whisper (oesophagus speech) up to about 15dB.
- Oral communication is made possible via the lightweight Freiburg amplifier and a choice of microphones.
- Hand held microphone; mini/lapel microphone with fixing clip, headset microphone or ear-clip boom microphone.
- Voice amplifier has a socket to allow connection to a telephone amplifier or an external active amplifier box.
- Two batteries supplied: one to be used, the other to be kept on charge to provide continuous power.

5346	Amplifier with Hand Held Mic	£743
5287	Amplifier with Headset Mic	£998
5345	Amplifier with Ear-clip Boom Mic	£781
5347	Amplifier with Lapel-clip Mic	£972

EchoRA

A portable and wireless speech amplifier system.

- Produces effortless volume and clarity.
- Completely portable and wireless!
- Miniature 2.4G microphone transmitter.
- Compact, lightweight expandable speakers that fold away after use.
- Lithium rechargeable batteries.
- Small and personal - minimum size, maximum sound!
- Use the speakers to listen to your MP3 player or boost a communication aid's sound output.
- Includes carry pouch, over ear boom mic, lapel mic, expandable speakers, charger and audio link lead.

5529	EchoRA Wireless Speech Amp System	£310

EchoVoice EV5

- New and improved compact speech enhancement system, sensitive enough to dramatically amplify and clarify the faintest voice.
- Transdermal (throat) microphone gives a comfortable option of freedom of movement without the need to wear a headband. Allows EchoVoice to be used in situations where an oxygen mask is in use and the mouth may be covered.
- Headband type boom microphone.
- Active tone control provides excellent sound quality and also the ability to negate any feedback.
- Waistband style system supplied with belt as standard.
- Charger unit included.

5650	EchoVoice EV5	£315

Waistband Speech Amplifier

- Practical and economical solution for people with a weak voice.
- Suitable for one to one speech or group discussions in the office, school or home, restaurants, shops etc.
- On/off and volume control.
- Headset with flexible boom microphone.
- Amplifier is worn around the waist with its own clip waistband.
- Clip waistband provides secure positioning that does not interfere with clothing styles, as it is not dependent on trousers/skirt with user's own belt.
- Amplifier is fitted with battery level indicator, microphone, charger jack sockets and volume control knob.
- Supplied with six rechargeable AA batteries and mains charger.

5282	Waistband Speech Amplifier	£75

Headmaster Collar

Headmaster Collar is an attractive, cool and comfortable cervical spine support. It was originally designed for people suffering from arthritis, but has been found to be appropriate and of great benefit to people suffering from many other disabilities including:

- Progressive neurological conditions such as motor neurone disease.
- Congenital conditions such as cerebral palsy.
- Whiplash.
- Head and spinal cord injury.
- Burns.

Benefits of the Headmaster Collar include:

- Quick and easy fitting.
- Comfort for daily use.
- Access to a tracheal tube.

The Headmaster Collar is constructed from surgical rubber tubing around a malleable core. The tubing is covered with a brushed nylon material that allows the Velcro® attachments to adhere anywhere.
Each Headmaster Collar is supplied pre-assembled and ready to use - just bend it to the desired fit by hand. This low profile collar is easily formed to a snug fit under the chin and is attached with a comfortable strap.
Optional Extension Pads are also available, that can be attached to the inside of the back strap. These pads are positioned centrally or on either side of the back of the head and are bent to a comfortable fit.
To order the correct size use dimension 'A'. Dimension 'A' is a straight line under the jaw from the front of the chin to the angle of the jaw. Select the closest sized collar from the list below. Choose the smaller collar if in any doubt as to size.
Fitting Instructions are enclosed with the collar.
Extension Pads, Neck Pads, spare Chin Pads and Spare Neck straps available. Anterior Support is also available.

Important: collar to be fitted by a qualified professional.
Caution: this product contains natural rubber (Latex) which may cause an allergic reaction. Latex free version available – please contact us for information.

Please note this product cannot be returned.

See www.inclusive.co.uk for further details and prices.

Ergo Rest Mobile Arm Support

- The Ergo Rest provides the answer for those who require support for their forearm when eating, typing or working at a table.
- The Ergo Rest reduces fatigue and strain and improves arm mobility and dexterity.
- Provides horizontal movement.
- Suitable for keyboard operation and a wide range of other activities, both at work and leisure.
- Quality of manufacture and finish is a major feature.
- Neat and attractive design - the elegant arm support would not look out of place in any home, office or school.
- The unit clamps easily to the edge of a table or desk.

- It can be fitted to a wheelchair using the Mobilia wheelchair clamp and adaptor.
- The height may be adjusted quickly and easily.
- The Ergo Rest has enabled many people to work again.

The Ergo Rest is available with a range of options including different pad and arm sizes, mouse pads and wheelchair mounting, all with two different clamp sizes.

Wheelchair Mounting Ergo Rest

- This is supplied with a Mobilia wheelchair clamp and an Ergo Rest adaptor which allows the unit to be easily fitted to most standard wheelchairs.
- Can also be mounted onto a floor stand at a range of heights, allowing great flexibity and mobility.

See www.inclusive.co.uk for further details and prices.

Height Adjustable Table Edge Ergo Rest

- This unit brings the lower pivot point above the height of the table, therefore increasing the reach over it. Also comes with 100mm and 200mm height extension bars.

See www.inclusive.co.uk for further details and prices.

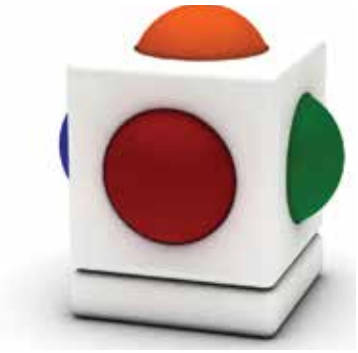
Skoog

Music for everyone.



Skoog is an exciting new musical instrument for children of all ages and abilities. Expressive, tactile and intuitive, Skoog is a universally accessible platform for creating and exploring musical sound.

The Skoog uses state of the art software to deliver the quality and expressive character of real musical instrument sounds. Flexible and simple to use, it offers not only the opportunity for learning, creativity and expressive musicianship, but also a fun and engaging audio resource.

Skoog package contains one multi-touch sensor, one software CD and comes complete with ten fantastic instruments. Simply install the software on your computer, hook up your favourite loud speakers and connect your Skoog to the USB port and you are ready to play.

The Skoog works well with individuals or groups - just touch and play! From feather light to full body weight, simply squish, squash, twist, twang, pinch, prod or punch anywhere on the soft, tactile interface and you'll be thrilled by the immediate, dynamic musical response.

An expanding range of musical instrument sounds means that there's sure to be something for everyone. Give a gentle squeeze on Skoog for a smooth swell of brass, or how about a subtle twist for a screeching, overblown flute? With a different note on each side, it's easy to create chords and melodies.

Skoog puts you in full control of the sound. Fully adjustable sensitivity and skill settings mean that even an absolute novice can play like a pro.

With the option to create custom user profiles (tailored to suit each individual), the software is really easy to use.

Skoogmusic's unique *Musical Play* technology also allows you to use Skoog to gain expressive control over any pre-recorded sample or loop. It can encourage children to sing or experiment with other sounds.

Key features

- Robust and wipe clean.
- Five adjustable touch sensitive surfaces.
- A range of instruments: woodwind, brass, string and percussion.
- Quick start pre-sets.
- Custom user profiles.
- Use traditional scales or create your own.
- Bonus software bundle.

Minimum specification

- Computer/laptop with min. 1GB RAM.
- Stereo headphone/audio out.
- Colour display, CD-Rom drive and USB port.
- Internet access for updates and plug-ins.
- Good loud speakers recommended.

4926	Skoog Single Solo Package	£500

Soundbeam 5

All the functionality of Soundbeam that you know, plus many new features!

- Integral integrated synthesiser: no need to link external sound module or keyboard.
- USB enabled: upgrades, sounds and compositions can be emailed to you for download into your device. Individuals can post their compositions and performances on the Internet.
- On-board sampler: record your own sounds!
- Memory card: access to potentially unlimited libraries of instruments, sound effects and rhythm loops.
- Internal amplifier, EQ and mixer.
- Rock solid accuracy in playing melody and harmonic progressions.
- Record entire sessions or performances!

5847	Soundbeam 5 single	£2,695
5823	Soundbeam 5 2 pack	£2,990
5848	Soundbeam 5 3 pack	£3,285
5849	Soundbeam 5 4 pack	£3,580

Further packs available at **www.inclusive.co.uk**

Magic Flute

- An electronic flute that can be played without hands.
- Blow into the mouth piece to control the volume.
- Rotate the flute up and down to change the pitch/ note.
- Plugs into a MIDI keyboard or synthesiser.
- Record up to eight sets of notes.
- Eight default scales pre-recorded. Magic Flute is an exciting electronic musical instrument that enables the individual to produce truly expressive music through head movement and breath control. As the flute swivels up and down controlled via the mouth piece, an internal sensor detects the changes in position and converts them into musical notes. The strength of breath into the mouth piece controls the volume of each note. The user can scroll the menu and control all functions via sip and puff actions, and use a single input switch to change the pitch, run a backing track and more!

Terms and Conditions

About us

At Inclusive Technology Ltd we believe it is important to give full support and backup to all our customers. This starts with helping you get the right resources for your learners, and at the right price.

Delivery Charges

UK Orders

All UK orders will be subject to a standard carriage charge of £7.50 plus VAT whether you order a couple of items or a hundred items. UK orders are sent via courier 48hrs (2 business days) and we aim to despatch within 3-5 working days from date of order. There can be some occasions when despatch can take a little longer. If your order is urgent please telephone for time scales. Some items can be sent by courier 24hrs (1 business day) upon request and will incur an additional charge.

Some larger items, such as monitors and trolleys, will incur a higher delivery charge of £17 plus VAT, and orders for these items need to be placed by telephone or purchase order.

European Orders/International Orders outside Europe

Orders within Europe are sent via courier Euro Priority. International orders are sent via courier global priority. We aim to despatch as soon as possible from the date orders are placed (within 3-5 business days), however, dependent on stock availability, there are rare occasions that this may take a little longer. Delivery is then estimated to take up to 7 business days from date of order. If your order is urgent please telephone for time scales.

If you require any further information or have any queries at all about our delivery terms, please do not hesitate to contact us by telephone on **+44(0)1457 819790**.

Payment Methods

Educational Establishments (UK only and part of a Local Authority)

We accept purchase orders from educational establishments. Invoices for orders placed using a purchase order will be sent out with the products, or posted separately to the invoice address if a different delivery address is specified. Please fax your purchase order to **01457 819799** or email to **inclusive@inclusive.co.uk**

Private Customers (and orders from non-UK residents)

Payment for orders from private customers and all non-UK residents is required prior to despatch and can be made by a credit/debit card registered to your billing address or bank transfer. UK residents can also pay by cheque and non-UK residents by sterling bank draft.

VAT Charges

All prices shown in this catalogue and on our website are exclusive of VAT (sales tax). VAT (sales tax) is currently charged at 20% and will be applied to every order unless: You are a business elsewhere in the European Union and can provide us with your Sales Tax Number (the equivalent of the UK VAT Registration number); Reside outside the European Union or you are subject to VAT relief – see below for further details.

VAT Relief - for people with a disability

Certain products that we sell can be purchased at a price exempt from VAT. This is known as VAT relief and is subject to the following rule: **The product has been specifically designed for use by people with a disability and is being purchased by, or on behalf of, someone who is disabled.**

When placing an order online or via the telephone for products which qualify for VAT exemption you can request VAT relief. For us to complete your order and take payment with VAT relief applied you are requested to complete and return a 'VAT Exemption' form. The form can be downloaded from our 'Guide to VAT Relief' section on our website, where you will also find more details on this subject. If the Product doesn't qualify for VAT relief then you will be charged VAT at 20% as normal. Our Carriage Charge is always subject to VAT even if all the products in your order are not.

Returns Policy

We want you to have the right resources to help your students with their learning. Goods in resalable condition can be returned to us within 100 days of purchase, if in your opinion they are unsuitable for your student's learning needs. If you have honoured our 42 days credit terms (see below) we will be happy to refund your money.

Your rights to return goods are also protected under the EU Distance Selling Directive, which can be found at **www.hmso.gov.uk**

Credit Terms

Payment on orders placed with a purchase order, via either of the 'Invoice with Order' payment methods should be made within 42 days of the invoice date or 30 days if you are purchasing on behalf of a business. Details on how to make payments will be provided on the invoice.

Prices are correct at time of going to print, prices are subject to change and we reserve the right the change prices where necessary. Please check our website www.inclusive.co.uk for the most up to date pricing.

Inclusive Information Days 2013

We offer two types of information day.

FREE

Severe and Complex Needs – Communication and Learning Through Technology

This day focuses on the use of ICT to support the communication, learning and leisure needs of children and young people with severe and complex special needs. Come and explore the latest hardware and software resources.

Join us on our learning journey with the new Switch Progression Road Map and share ideas on how we can use these resources every day to:

- Explore access to technology from switches to eye gaze.
- Engage experiential learners.
- Develop cause and effect understanding.
- Make effective use of a range of simple communication devices.
- Create motivational and personalised resources.

Registration is at 9.30am. Sessions run from 10.00am - 3.30pm. **Check www.inclusive.co.uk for latest updates.**

Inclusive Classrooms – Supporting Struggling Readers and Writers

This day focuses on using ICT to support students with special needs in mainstream classroom settings. This includes looking at providing access to the computer for those pupils who struggle with the standard keyboard and mouse, including those with dyspraxia. We also explore how ICT can support those struggling with reading and writing, including those with specific learning difficulties such as dyslexia.

- Light tech aids like electronic dictionaries and reading pens.
- Planning and mind mapping software.
- Text to speech, speech to text, wordbanks and word prediction.
- Tablets and eReaders including Kindles, iPads and Windows 8 tablets.
- eBooks and their advantages for pupils with special needs.
- How to obtain electronic texts for free.
- Creating accessible electronic texts and copyright issues.

12th Jun 2013 - Inclusive Classrooms

Manchester
2nd Jul 2013 - Severe & Complex
3rd Jul 2013 - Inclusive Classrooms

*To book your place at any of the Information, Focus days or webinars simply go to **www.inclusive.co.uk/events** or call us on **01457 819790** for further information.*

Eye Gaze Focus Day

Our new free focus days allow our Information Team to cover a particular subject in more depth than at one of our information days. They may be full day, half day or shorter events such as twilight sessions, and include hands on as well as presentations.

Come and join us to learn about the fun and exciting ways to stimulate and motivate your eye gaze users. We will be working from sensory level, through cause and effect, to making choices and communicating whilst giving you some helpful advice, hints and tips along the way.

We will be showing you

- The science behind eye gaze and how this will help easily achieve successful calibrations.
- How to use a wide range of software titles including Target and Touch, Mouse Skills and the SwitchIt range, to develop eye control skills.
- How to take eye gaze to the next level, giving you some advice on creating your own content.
- 3 practical workshops where in groups you can get your "eyes on" the devices!
- Delegate will also take away a set of free, sample activities that will motivate and excite your eye gaze users.

This day will be useful for anyone who wants some ideas and practical tips to expand the content that we are offering our Eye Gaze users. Therapists, Teachers, Support Assistants, ICT/AT advisors, Parents and Carers are all welcome, along with anyone else with an interest in eye gaze and eye control.

Inclusive Webinars

If you're unable to travel to an information day or focus day, you can still take part in one of our new interactive webinars without even leaving your desk. Webinar is short for web based seminar - a presentation, lecture, workshop or seminar that is transmitted over the web.

These are fully interactive, live events; you can ask the presenter questions just as if you were in the room with them. All you need to take part is a computer connected to the internet with speakers or headphones so you can hear the presenter speak. You can even use an iPad or Android tablet to take part as long as you have an internet connection.

Inclusive webinars run for about forty five minutes and will usually focus on one or two products in depth, the product features and how to get the best from them.

See www.inclusive.co.uk for future dates.
